GENERAL ORDERS BY HIS EXCELLENCY THE GOVERNOR GENERAL OF INDIA.

Simla, the 20th June 1863.

No. 83A. of 1863.—The following Extract from a Military Despatch from the Right Hon'ble the Secretary of State for India, No. 171 of the 9th May 1863, is published for general information:—

Para. 2.—"You have informed His Excellency the Commander-in-Chief * * * that it was never contemplated to appoint Officers of one Presidency to the Army Staff Departments or to Corps of the regular establishment of another Presidency, and that so long as there are Officers of the Bengal Army available for employment, you cannot sanction the appointment of Madras or Bombay Officers to Corps on the regular Bengal Establishment.

3. You have also stated, I observe, that Officers of other Presidencies have always been freely employed in the Punjaub and Hyderabad and other Irregular Forces under the orders of the Government of India, and are of course still eligible for such situations.

4. I approve of the decision you have formed upon the subject.

5. In my Despatch, No. 319, dated 18th August 1861, paragraph 46, I observed, with reference to the subject, that I should not object to the practice of Officers of the Staff Corps in one Presidency being employed in another being extended, on special occasions, but that I concurred in your opinion that ordinarily it would be inconvenient to bring Officers of all the Presidencies promiscuously into the several Staff Departments of the Armies of Bengal, Madras and Bombay.

6. I consider therefore that so long as there are Officers of the Bengal Army available and qualified for employment, Madras and Bombay Officers should not be appointed to Corps on the regular Bengal Establishment.

Resolution.—The Hon'ble the President in Council observes that in all cases where the Establishments of Deputy Collectors, Principal Sudder Ameen, Sudder Ameens, and Moonsiffs are paid not from an Office or Contract allowance, but from a sanctioned scale of charges, which has been fixed by Government both as to the number of men and the pay of each, the persons on these Establishments are eligible to pensions under the general Rules if they belong to the classes, whether Nazirs, Mohurrirs, or the like, on more than (10) ten Rupees a month, who are eligible to pension under those Rules.

This decision is equally applicable to all other permanent Civil Establishments once paid from a Contract allowance, which are now regulated by a scale of charge, that, in all details of numbers and rates, has been fixed by Government.

Service rendered on an Establishment which is paid, or rendered at a time when it was paid from a Contract allowance, does not count towards pension.

No. 951A.—*The 16th June* 1863.—The following Extract from a Resolution by the Hon'ble the President in Council, No. 2179, dated 29th May 1863, is re-published for general information:—

The Hon'ble the President in Council observes that Officers of the Electric Telegraph Department are entitled to Medical aid free of charge, and the points for decision are from whom they should receive it, and what extra allowance, if any, should be given by Government to the Medical Officer who may afford such aid.

2. In the Civil Department the Civil Assistant Surgeon is bound to attend all Civil Establishments entitled to Medical aid within the limits of his charge, and in the Military Department, at Stations being the Head-Quarters of a General Officer or Brigadier, the Medical Officer in charge of the Staff affords Medical aid to all Military Establishments not on the strength of Regiments, and to all public Establishments, including Clerks and the like, on the strength of the Military Department at the Station.

3. According as a Telegraph Office is placed in a Military Cantonment, or in Civil Lines, Military or general considerations may be held to influence its location and to determine the character of the principal service which it renders. When, therefore, a Telegraph Establishment is located in Civil Lines, it should, as at present, be attended by the Civil Surgeon of the Station as a part of his charge. When it is placed in Military Cantonments it should be attended by the Military Staff or Garrison Surgeon, and this Officer should receive no allowance for the duty separate from what he is allowed by the Pay and Audit Regulations for the Public Establishments under his care, as in Medical charge of the Division or Station Staff and Establishments. On this principle the Telegraph Offices at Cawnpore, Agra, and in other Military Stations where the Offices are established within Military Cantonments will be under the care of the Medical Officer in charge of the Staff of the Station.

Government of India, Public Works Department.

Public Works for the purpose of facilitating the transit of Cotton to Ports of Shipment.

A MEMORANDUM of what has been done to facilitate the transit of Cotton to Ports of Exportation may appropriately be prefaced by the following Extract from the Resolution of the Government of India, in the Home Department, dated the 28th February 1861, initiating action in the matter:—

"*As to improving the means of bringing the produce to Port.*—It is by facilitating existing means of communication, *even though it be in a rough way*, that Government can best aid the Merchant promptly without exceeding its legitimate functions.

"Projects for bridged and metalled roads are not practicable within the next year or eighteen months; but there is a great extent of country capable of producing Cotton, which is now not easily accessible to ordinary country carts, even during the fair season; and probably it is by improving the present country cart and pack-bullock tracks, and thus extending the mileage over which an ordinary load of Cotton may be conveyed at a rate of two and a half or three miles per hour, that the export of the next season's crop may be most effectually aided.

"In this view the Governor General in Council requests that each Local Government will at once take measures to have the lines of traffic between their Cotton-producing Districts and the Port of Shipment, whether on Sea or River, examined and reported on by a competent Officer. This Officer should note, in general terms, the extent and probable cost of any improvements required to bring the existing country cart tracks up to the standard just described. For the execution of the improvements the Government should select the nearest Executive Authority as the one to be charged with the work; and where there is no such Authority at hand a special agency should be employed for the purpose; the only conditions being that the work to be undertaken should be capable of immediate execution."

Appropriate orders were duly issued on the various Reports submitted with reference to the foregoing, and in the orders on the Public Works Budget for 1861-62 the necessity of so distributing the expenditure on communications as to facilitate the transit of Cotton was kept in mind and enforced.

In October of the same year a Circular was issued, from which the following is an Extract:—

"Since orders were issued on the Public Works Budgets of the current year, applications, strongly supported, have been made from several of the Local Governments for additions to their assignments. Some of these applications have been met in part by grants from the amount which was held in reserve by the Government of India in this Department; but that resource was very limited and is exhausted. The course of events in America has also continued to render more and more urgent the call for every measure that the Government of India can take to make the export of Cotton more easy. For financial reasons no great addition can be made to the assignments of any of the Governments; but the Governor General in Council has good cause to believe that a moderate addition to the assignments of some, if announced at once, may have very useful results."

2. "And after mature consideration in the Financial Department it has been decided by the Governor General in Council to grant a total addition not exceeding twelve lakhs.

3. "In making this addition the intention of His Excellency in Council is that it should be devoted in good faith to the attainment of more decided progress during the current year 1861-62, in opening out facilities for the export trade of the country, and specially for the export Cotton trade. Some slight exceptions to this may be admitted where there is an urgent call for a

special work of a different character, but still having an important bearing on the public welfare."

This extra grant of twelve lakhs by no means measures the amount of expenditure that has been incurred, as will be seen from the following brief statement of what has been done. It must not, however, be understood that none of this expenditure would have taken place had there been no Cotton famine, but it is unquestionable that a great impetus has been given to the opening out and improvement of lines of Cotton traffic.

MADRAS.

In Madras attention has chiefly been given to the improvements of existing roads and tracks, on which, since the 1st May 1861, about £70,000 have been spent on more than thirty different roads, aggregating in length upwards of 1,400 miles, of which nearly 700 were still in progress up to latest dates. The chief part of the remainder being open as fair-weather roads only. Details regarding these roads are given in a Tabular Form annexed.

BOMBAY.

In Bombay the following is a summary of what has been done since 1st May 1861 :—

55 miles of Road opened out for traffic throughout the year.

415 miles of Road opened out for fair-weather traffic.

250 miles of Road in progress for traffic at all seasons.

290 miles of Road in progress for fair-weather traffic.

Besides a Jetty at the Port of Randier, various large bridges over isolated objects, the widening of the Apollo Pier at Bombay, &c., &c., all at an outlay of upwards of £170,000.

The principal Roads that have been worked upon are—

	Already spent up to 30th April 1863.	Sanctioned for 1863-64.
	£	£
Gogo and Ahmedabad...	33,400	5,000
Vingorla to Belgaum ...	11,700	15,000

Bunkapoor (midway on the road from Dharwar through Hooblee) towards Hurryhur on the Mysore Frontier, about 44 miles	2,100	6,000
Total ...	116,700	72,500

A Memorandum is attached giving details as to the roads, &c., also as to the progress made at Sudasheoghur. Regarding the latter no notice is here given, as there is no later information than is contained in the correspondence ordered to be printed by the House of Commons on the 3rd March 1863. Dharwar, Guzerat, and Kattywar, the great Cotton-producing localities, have been well cared for.

In connection with the works in progress under the Government of Bombay, it may be mentioned that Mysore is improving its communication with the Port of Sedasheoghur by means of the road between Shemoga and Talgoopa, the latter place being in connection with the North Canara Lines of communication. At Hurryhur also, on the Mysore Frontier, the Mysore Roads work in with the Dharwar Roads, now in progress under the Government of Bombay.

BENGAL.

In Bengal 308 miles of road in the Cuttack District and leading from the Coast towards Nagpore have been improved and made into good fair-weather communications, and in the Ramghur District 36 miles of road have been two-thirds completed, metalled, and bridged from Chuttra to Chowparun, and will be opened throughout after the rains of 1863. A small sum has also been spent in improving the Mahanuddy by removing rocks which obstruct the navigation.

A sum of about £14,000 has in all been expended directly with the object under consideration, but there has been a considerable development of branch roads generally in this Province irrespective of those mentioned here.

NORTH-WESTERN PROVINCES.

In Public Works Resolution of the 1st April 1861 a sum of £10 per mile was authorized to be expended in improving those parts of the Great Deccan Road which lie within the Jubbulpoor Territory, so as to facilitate the approach to the Mirzapoor Mart. Particular attention was also directed to the continuation of this road towards Nagpoor, as for a considerable distance to the westward of that City the Cotton seeks export rather by this line than towards Bombay—to the road from Saugor *vid* Jhansie to Kalpee,—and to the road from Futtehgurh *vid* Bareilly to Moradabad.

Allotments were made for the first and third, and it was decided that the second and third were to become imperial metalled lines.

Up to the 28th February 1863 a sum of about £78,000 has been spent in improving and repairing the various roads which in any way facilitate the transit of Cotton, and the expenditure of a further some of £95,000 is contemplated during the ensuing years. Much of this outlay would of course have been incurred quite irrespective of the special object under consideration, but the expenditure on the four following roads, of close upon £25,000, may be traced to this sole object :—

1. Hattrass to Kutchla Ghat on the Ganges ... ... 58 Miles.
2. Etawah to Furruckabad ... 56 „
3. „ towards Bhind ... 12 „
4. Doorgowtee on the Grand Trunk Road (in the Benares Division) *vid* Ghazeepoor and Deolee Ghat on the Gogra to Goruckpoor ... 106 „

Ganges Canal.—It was not considered advisable to attempt to improve the navigation of the Ganges Canal until the scheme for irrigation by it

had been carried out to completion, and as being a work of great magnitude requiring much consideration.

PUNJAB.

Up to the end of March last the sum of £7,000 had been expended in improving existing communications in the Punjab, more especially with the view of facilitating the export of Cotton, and a further sum of £8,000 has been set aside and is in process of expenditure, including £2,500 for a navigable Canal from Umritsur to the Ravee. In addition to this large contributions have been made to the same object by the Local Funds, and about £29,000 was spent from them in the year just concluded. The Roads on which the Imperial expenditure was made are—

Rohtuk and Delhi	...	42 Miles.
Hoshyarpoor to Jullundhur on the Grand Trunk Road	...	22 „
Hoshyarpoor to Phugwara on the Grand Trunk Road	...	24 „
Sealkote to Wuzeerabad on the Lahore and Peshawur Road	...	25 „

BERAR.

In Public Works Resolution dated 1st April 1861 a sum of £10 per mile was authorized to be expended in improving those parts of the Great Deccan Road passing through this Great Cotton Field.

In September 1861 a Committee was assembled to report on the best lines for Feeders to the Railway. The Committee recommended some fourteen roads with an aggregate length of 551 miles.

In October of the same year £5,000 was granted to Berar to be expended on works which would facilitate the transit of Cotton; and specific approval was given to the improvement, out of this sum, of the two lines perpendicular to the Nagpore Branch of the Great Indian Peninsula Railway from Moresee and Akote, the worst parts being first taken in hand.

Subsequently in January 1862, a further sum of £10,000 was allotted for Roads in Berar.

Up to the end of March 1863 an expenditure of £14,200 has been incurred on the following four Roads, *viz.*:—

1*st.*—From Budneira, on the Railway, 180 miles from Bhosawul Junction, to Moresee thirty-nine miles to the north of the Line. Seven miles of this road, from the Railway Station to Oomrawutee, are open at all seasons, the remainder will be passable for fair-weather traffic by the end of June. It is proposed to expend £5,000 from Imperial Funds on this road during the current year.

The continuation of this road to Peepree, on the Nagpoor Dâk Line, twenty miles south from Bedneira, has been under consideration, and it will be opened out as a fair-weather track this year.

2*nd.*—From Akolah, a Station about fifty miles west of Budneira, on the same Railway, northwards to Akote, twenty-nine miles. This will be opened for fair-weather traffic by end of July probably, with exception to three and a half miles between the Shanoor and Poorna Rivers.

The continuation of this road *vid* Pathun to Mallagaum, on the Nagpoor Dâk Line, has also been considered. It is forty miles in length, and £7 per mile, with £2,000 for bridges, is to be expended in 1863-64 upon it.

3*rd.*—From Sheogaum, another Station on this line, and about twenty miles west of Akolah to Bawunbeer, twenty-four miles to the north. On this road £1, 600 had been spent, when work was discontinued, so as to concentrate the expenditure on the previously mentioned Lines.

To open this road for fair-weather traffic will require an expenditure of about £5,000 more.

4*th.*—Nursee near Hingolee to Arnee, eighty miles east on the Woon Road, thence to the nearest point on the Nagpoor Dâk Line. To Arnee the whole of the line is cleared, and there are no particular obstacles to fair-weather traffic. On this line £1,400 was spent, when work was discontinued for same reason as in last case.

A road is also in progress from the Nundgaum Railway Station *viâ* Manickpoonj, Deogaum, and Dowlutabad, to Aurungabad, about fifty-five miles, on which, up to the end of April 1863, about £2,500 had been spent. The estimated cost is £25,000, and it is proposed to spend £4,000 during the year 1863-64.

The Nagpoor Dâk Line from Toka through Aurungabad and Jaulnah to Boregaon on the Wurdah will be superseded as a through route by the Railway which crosses that River not far from the latter place, so no steps have been taken for its improvement as a whole. A sum of £12,600 has, however, been spent on its improvement since 1860-61, and it is proposed to expend £2,000 out of an Estimate of £7,800 in bridging Rivers on the Section between Aurungabad and Jaulnah (thirty-seven miles long) during the current year.

It was expected that the Nagpoor Branch of the Railway would be opened as far as Mulkapoor, thirty miles from the junction at Bhosawul about this time. This would still leave a gap of ten miles for completion before the nearest of the feeder roads can come into use in connection with the Railway. It is not expected that the Railway will be opened to Sheogaum before the end of this year, nor as far as Budneira (the Station for Omrawuttee) before the end of next year. The cross roads will meantime act as feeders to the Nagpoor Dâk Line.

The principle enunciated in the preliminary resolution of the Government of India, as to the best immediate means of facilitating by Public Works the transit of cotton, *viz.*, the improvement of the present country cart and pack-bullock tracks, so as to make them passable fair-weather roads, rather than the taking in hand of projects for First Class Roads, has not yet been followed in Berar; but in the Budget Estimate for the year just commenced, this principle is recognized by the grant of a sum for marking out, smoothing, and making passable at bad places, some 225 miles of road, at the rate of £7 per mile. In this manner, the whole of the roads recommended by the Committee previously referred to, will be made passable, in so far as they lie to the north of the Nagpoor Dâk Line.

For seven months in the year, during which the Cotton crop should be carried, fair-weather roads answer all purposes in the Valley of Berar. The smaller culverts and causeways across the beds of the most obstructive water-courses may be made gradually and in subsequent years; but meantime, each one of the tracks which it is thus intended to operate upon, will tap an area of about 900 square miles.

In addition to the above, a sum of £3,000 in part of an Estimate of £21,000 has been granted for the road from Oomrawuttee to Ellichpoor (30½ miles) which, with reference not only to the location on it of European Merchants engaged in the Cotton trade, but as connecting the Cantonment of Ellichpoor with the line of Railway, has become of first class importance. And two other feeders on the south side of the Railway are also to be constructed as bridged roads, *viz.*:—

1. From Moortoozapoor Station to Karinjah, on the Nagpoor Dâk Line, twenty miles, £2,400.
2. From Nandoora Station to Khamgaon (twelve miles) £2,200 for Bridges, besides the opening out charge of £7 per mile.

Thus an expenditure of £29,000 on 400 miles of road has taken place up to the latest dates, and an outlay of £27,500 on 429 miles is sanctioned for 1863-64, of which 213 miles are to be made passable as fair-weather tracks.

Further, the Resident has been instructed that if, with the advice of his Chief Engineer, he should be able to make satisfactory arrangements for a more speedy execution of any of the works, the Government will be prepared to consider favorably any proposals he may think proper to make with this view. For instance, it may be practicable to accelerate the progess of some of the roads, so as to spend with advantage in 1863-64 the whole or a considerable portion of the proposed assignments for 1864-65, and as the Oomrawuttee and Ellichpore Road ought to be placed as soon as possible on the footing of a first class road, any practicable arrangements may be made for the collection and preparation of materials to complete it as a bridged and metalled road.

Although Plans and Estimates of the proposed works must be submitted for approval, the works which are now to be executed are not of a nature to make it necessary that they should be delayed until the Plans and Estimates have received the formal sanction of the Government of India.

The following are the Feeders to the Railway, the line of which is about 150 miles in length, proposed and in progress, in East and West Berar:—

North of the Railway.
- Chandpoor Station to Jalgaum, West Berar.
- Sheogaum Station to Bhawunbeer, West Berar (already opened out.)
- Akolah Station to Akote, West Berar (in progress.)
- Moortoozapoor Station through Durreapoor to Unjungaum, East Berar.
- Budneira Station to Ellichpoor, East Berar.
- Budneira Station to Moresee, East Berar (in progress.)
- Chandoor Station to Koora, East Berar.

South of the Railway.
- Nandoora Station to Khangaum, West Berar.
- Sheogaum Station to Bullapoor, West Berar.
- Akolah Station through Pathoor to Malligaum, West Berar.
- Moortoozapoor Station to Karinjah, East Berar.
- Budneira Station to Peepree, East Berar.
- Chandoor Station to Tullogaum, East Berar.

Central Provinces.

The chief outlets for the Cotton of the Central Provinces are the Nagpoor Dâk Line to Bombay and the Great Deccan Road to Mirzapoor; the small quantity raised for export beyond sea in Raepoor finding its way to the Eastern Coast.

On the 1st April 1861 a sum of £10 per mile was authorized to be expended on the Great Deccan Road in the improvement of the worst parts of this line for the whole distance between Jubbulpoor and Jaulna.

Three Companies of Sappers, one from each Presidency, were also ordered on this line in its various parts, the road from Chanda to Seroncha (80 miles) also being taken in hand by them.

Subsequently in March 1862, roads from Kowtah to Aroe (29 miles) and from Kowtah to Hingunghat, (35 miles) were sanctioned, and Rupees 90,000 made available for them. These roads will act as direct feeders to the Railway, which crosses the Wurda near Kowtah.

On the various main lines of road traversed by Cotton traffic, about £87,000 had been expended up to the end of April, and an outlay of £92,000 is contemplated in the current year. This is independent, in both cases, of outlay from local funds on minor district roads, which add much to the facilities of bringing produce to the market.

The aggregate length of the main roads which have been worked upon, including the Great Deccan Road from Mirzapore, is 1,300 miles, of which 400 miles are open for traffic at all seasons, 500 miles are open for fair-weather traffic, and 400 miles are in progress to the latter stage.

But any notice of the routes by which Cotton can be conveyed from the Wurda Valley to the sea would be incomplete, which omitted the important works in progress for the improvement of the River Godavery in its upper parts, to render it practicable for navigation; there being at present three great obstacles in the shape of rapids, termed the First or Sinterala Barrier, the Second or Enchampalli Barrier, and the Third or Diwalamary Barrier, respectively 108, 172, and 238 miles from the sea.

To render the river navigable throughout at any season will involve the formation of a system of lockage at these Barriers, and measures with this object are in progress; but meantime tramways, for immediate use, by which goods arriving by boat at one side of the Barrier may be conveyed to the other side for re-shipment, have been constructed. To open out the river for navigation during the monsoon only may be expected to cost £300,000; throughout the year not less than one million sterling.

As yet about £100,000 have been spent, and an outlay of from £60,000 to £80,000 during the current year is contemplated.

Summary.

What has been done may be summarized as follows —

In Madras	...£70,000	have been expended on			1,400	miles of road, of which half is now open for fair-weather traffic.
In Bombay	.. £1,70,000	have been laid out on			1,000	miles of road, of which half has been opened out for traffic.
In Bengal	.. £14,000	have been spent on			250	miles of road.
„ N. W. Provinces	. £25,000	„	„	„	230	„ „
„ Punjab	. £26,000	„	„	„	140	„ „ (actually specified.)
„ Berar ...	...£29,000	„	„	„	400	„ „
„ Central Provinces	. £87,000	„	„	„	1,300	„ „ of which 900 miles are open for traffic
„ „	...£100,000	„	„	„	works	for the improvement of the navigation of the Godavery in its upper parts.

Thus a sum of over £500,000 has been expended during the last two years in opening out new, and in improving existing communications directly affecting the export of Cotton, and this rate of expenditure will be more than maintained during the year just commenced.

Report regarding works to facilitate the export of Cotton from the Bombay Presidency.

SOUTHERN DIVISION.

Since the 1st of May 1861 the principal efforts to facilitate the Cotton trade in the south of this Presidency have been directed to the opening of the port of Sudasheoghur* in North Canara, and its connection with the Cotton Fields of Dharwar.

* The information contained in the correspondence ordered to be printed by the House of Commons on the 3rd March 1863 is as complete as is here given.

At Sudasheoghur itself a wharf has been commenced, and though not completed it is available for shipping and landing goods. Measures have been set on foot for improving this wharf for providing an iron screw-pile pier, and for erecting a light-house.

Rs. 4,00,000 had been spent on the road from Yellapoor to Beitkool up to 30th April 1863.
Two lakhs granted for 1863-64.

The Kyga Ghat leading from the head* of the navigation of the Kallee Nuddee towards Dharwar has been opened† out so as to be passable for carts.‡

* Mullapoor.
† January 1863.
‡ NOTE.—The communication between Mullapoor and Beitkool is incomplete, so that the Arbyle Ghat must be used by shippers from the latter place.

The Arbyle Ghat, an alternative line to the Kyga * and leading direct to Sudasheoghur, has also been made available for carts.

* And to the south of it.

From the head* of these two Ghats a road common to both has been constructed leading† to Hooblee, one of the great entrepôts of the Dharwar trade and a continuation of the same line to Anigery and Guddug,‡ in the very heart of the Cotton plains has been and is in progress.

* Iddagoonjee.
† (Through Yellapoor.)
‡ (Towards Bellary.)

Several main feeders of this great Cotton artery have been in hand.

Owing, however, to the want of preparation at Sudasheoghur itself not so much in regard to the communication and convenience for shipping, as in respect to the arrangements of the mercantile houses, no Cotton has yet come down to that port; and until screws, presses, and warehouses are ready, it is not likely that the existing enormous trade of the adjacent port of Coompta will be diverted.

Many minor feeding roads have been in progress in the Dharwar District, which it is not necessary to specify particularly.

A new road, from Belgaum to Vingorla has been taken in hand since the 1st of May 1861, and is now in progress. It will carry a considerable amount of Cotton, a great deal now finds its way to Vingorla by an old existing road.

Rupees 1,17,000 spent up to 30th April 1863.
Rupees 1,50,000 granted for 1863-64.

The Koombarlee Ghat to Chiploon now on the point of completion will also carry a good deal of Cotton. At the town of Kurrar this outlet is fed by several Branch Lines from Punderpoor, Beejapoor, Tasgaum, &c.

A First-Class Road has been commenced and is in progress to improve the very important feeder from Barsee in the Sholapoor Collectorate to the Great Indian Peninsula Railway. Along this Feeder a very large amount of Cotton arrives at the Rail from the North-East Districts and from Berar.

In the Southern Division of the Presidency there are roads which, to a greater or less extent, carry Cotton and are open to traffic all the year round to the extent of ...	238	Miles.

In 1861-62 expenditure on Cotton Roads ...	3,10,027
In 1862-63 up to 31st January 1863 the approximate expenditure was	5,37,108

Besides the above, there are numerous native tracks quite practicable in the dry season for traffic along which Cotton in great quantity comes to the main roads.

NORTHERN DIVISION.

In the Surat Collectorate a jetty at the port of Raudier was completed in May last at a cost of Rupees 9,095, with unquestionable benefit in connection with Cotton export; Cotton Presses and Churkhas are being established on the spot.

The present state and prospects of road and bridge works now in progress in Surat and Broach

Collectorates are reported on by the Executive Engineer as follows:—

"There are altogether twenty-five miles of road under construction, of these eleven miles will probably be available for traffic during next rains, namely, the portion from Unkleseer to Sujod, five miles, and that from Ahmod to Jumbooseer, six miles; in this last portion a river that formed a serious obstacle to traffic is being bridged at a probable cost of Rupees 31,568. Two bridges are being built on the Oolpar and Randier Line, one at the village of Oolpar, and the other one and a half miles south of it; both streams are under the influence of the tides, and during *full* and *change* impeded traffic greatly; these *isolated obstacles* will be soon mastered, and the traffic freed from the trammels that for centuries has beset it. The twenty-five miles of road and the two Oolpar Bridges were commenced since the 31st January 1863, and it may be added, that about twenty-five miles of more road lines have been surveyed."

Principal line of the Kattywar and Guzerat Cotton traffic.

In the Ahmedabad and Kaira Collectorates the Executive Engineer reports that "previous to 1st May 1861 "there existed but two small lengths of road of "any description, one from Gogo to Vertej on the "Grand Gogo and Ahmedabad Trunk Road "(fifteen miles) open "to traffic, but perfectly incomplete "as to drains, bridges, "and surface. The "other from the "town to the port of Dhollera (five miles), which "consisted of a raised earthen embankment with "drains, but without surface of any sort."

Rs. 3,34,000 spent up to 30th April 1863, of which Rs. 30,000 probably in 1862-63
Rs. 50,000 granted for 1863-64.

Since the 1st May 1861 the road between Gogo and Vertej has been completely bridged and drained, and an extension of seven miles to Ganglee is now so far advanced that by the end of April 1863 it will be open for traffic, and by the end of the season another extension of four miles will be ready. A small Section of this same Trunk Road, but at the Ahmedabad end, has also been completed and opened for traffic since 1861, *viz.*, from Ahmedabad to Surkej, five miles.

During the current season the following Lines have been surveyed and the roads carefully laid out, and by the end of the season will be open to fair-weather traffic:—

1.—From Surkej to Veerungaum ...	31	Miles.
2.—From Ahmedabad to Nurrora ...	5	„
3.—From Nurrora to Wullad ...	10	„
4.—From Nurrora to Dehgaum ...	6	„
5.—From Nuriad to Kupperwunj ...	25	„
6.—From Annund to Oomret ...	12	„
and perhaps to Sarsa ...	10	„
7.—A made road bridged and drained and metalled from Kaira to Mehmoodabad has been commenced ...	6	„
Total ...	105	Miles.

A timber Bridge with 200 feet of waterway is now in course of construction near Dhollera.

All these roads were undertaken as Railway Feeders and may be styled "Cotton Roads," as all of them tap the Districts where Cotton is grown in large quantities.

Presidency Division.

The works undertaken by the Public Works Department at Bombay since 1st May 1861 to facilitate the export of Cotton are the widening of the Apollo Pier from 75 feet to 150 feet (completed) and the reclamation of the Apollo Bay. This latter work was commenced on the 25th February 1862, and about one-fourth of it will be completed by the 30th April 1863. The expenditure on both the works has been in 1861-62 Rs. 74,239, and in 1862-63 up to 31st January 1863 Rs. 75,337.

Central Division.

In the Central Division the only road specially sanctioned to facilitate the conveyance of Cotton since 1st May 1861 is that from Peyton to the bottom of the Imampoor Ghat. It is at present a cleared track or fair-weather road, forty miles long: the expenditure upon it has been as follows:—

	Rs.
Before the 1st May 1861 ...	„
1861-62	8,365
1862-63	613
Total ...	8,978

This road is an important Cotton Road and Rs. 30,291 have been entered in the Local Fund Budget for 1863-64 for completing it as a Moorum road, and for building drains and culverts.

Besides the abovementioned road there are many other roads in the Central Division by which Cotton is conveyed to the coast. The subjoined Table shews the length of road open for traffic all the year round, the number of miles open for fair-weather traffic, the distance opened before 1st May 1861, the length of road opened since the 1st May 1861, the length of road in progress, the expenditure in 1861-62, and the expenditure in 1862-63 up to 31st January 1863.

I am to request that you will express to the Subscribers the gratification which the Lieutenant-Governor feels at the cordial manner in which they have responded to his invitation to them to co-operate with Government in providing a Fund for an organized system of sanitary relief in the Districts in question.

3. A sum of Rupees 13,000 has already been expended by the Officers entrusted with the duty of supervising these operations, and there is every reason to believe that it has been disbursed carefully and judiciously, and in a manner calculated to produce the most satisfactory results. Much, however, remains to be done, but it will probably be necessary to suspend the works during the rainy season; but any balance which may remain in hand will be devoted to the purpose for which it was intended at the commencement of the cold season.

JUDICIAL.

Simla, the 29th June 1863.

Notification.—The following Rules for the admission of Pleaders in the Courts of the Central Provinces are published for general information:—

Rules for the admission of Pleaders in the Courts of the Central Provinces.

Rule I.—No person will be allowed to practise in the Courts of the Central Provinces, or in any way to interfere in any suit (unless a party or a recognized Agent under No. 2 of the Special Rules prescribed by the Governor General in Council, on the 6th August 1861) till he has received a Certificate under the following Rules, and any person interfering contrary to this provision will be treated as guilty of a contempt. Barristers or other persons who may by Law be entitled to plead can alone be exempt from these Rules.

Rule II.—Candidates for a Certificate enabling them to plead in the Courts must lodge with the Commissioner of the Division on or before a fixed date, at a reasonable time, before the day appointed for examining Candidates, trustworthy testimony in writing, showing the sufficiency of their general education and the respectability of their character, from which it may be judged whether they are fit persons to be admitted as Candidates. Applications will be submitted in the form annexed, (A.)

Rule III.—The general education of a Candidate must be shewn under the preceding Rule by a Certificate from some Public Officer, or from the Principal of some known Educational Institution, or from some other person whose testimony is evidently sufficient. Respectability of character must be shewn by a Cerficate or Certificates of such a nature that there can be no doubt of their sufficiency. They must certify to the character of the Candidate for a period of at least three years before the date of the application. If the Candidate is or has been at any time employed in the service of the Government, he must produce satisfactory evidence to shew that his character has always been considered by his official superiors to be respectable. If he has left any appointment in the service of Government otherwise than on promotion to a higher office, the reasons for which he left such appointment must be only certified.

Rule IV.—The Commissioner will, after such inquiry as may be deemed necessary, admit or reject the Candidate, and shall not be bound to specify reasons for rejection. But a rejected Candidate may appeal to the Judicial Commissioner, who may call for a report of reasons, and whose order on the subject will be final.

Rule V.—A list of the persons admitted as Candidates by the Commissioner will be submitted to the Judicial Commissioner, who will have a *veto* thereupon.

Rule VI.—Periodical Examinations will be held at such times and at such places as the Judicial Commissioner may appoint. The Examinations will be conducted by a Committee, of which the Commissioner of the Division will ordinarily be the President, and the other Members of which will be nominated by the Judicial Commissioner. At these Examinations all persons admitted as Candidates may present themselves.

Rule VII.—The following will be the subjects of examination. The Hindoostanee or Mahratta language, as spoken and written, or both of these languages, if so ordered by the Judical Commissioner. The Indian Penal Code; the Code of Criminal Procedure, the Code of Civil Procedure, Act X. of 1859; Act X. of 1862; and other laws of the British Government actually in force in the Central Provinces. The Mahomedan and Hindoo Laws, affecting persons and property, as administered in the British Courts. The Punjab Principles of Law. The principal local Laws and customs of the Central Provinces. The printed Circulars of the Judicial Commissioner.

Rule VIII.—A set of questions and papers will be transmitted in manuscript under seal by the Judicial Commissioner to the Committee, who will open them at the time of examination, read out question by question, and, with due precaution against communication, require each Candidate to to answer each question in writing, and file the answer. The Committee will further examine each Candidate *vivâ vôce* in the language, and in the conduct of a case, and will record its opinion of his performance in each branch. They may also put such further questions to him as they think fit. They will then examine and value the written papers, and, after classifying the Candidates in order of merit, will record their opinion, which are qualified to receive a Certificate, and making a list of the same in the form annexed, (B.) will submit it (with the papers, in case they should be required for reference) to the Judicial Commissioner for his approval. On being approved by the Judicial Commissioner, the Candidate will receive a Certificate in the form annexed, (C.) Any Candidate who may have been considered qualified by the Committee may be rejected by the Judicial Commissioner, whose order of rejection will be final.

Rule IX.—Persons admitted as Candidates, who may fail to pass the examination, shall be entitled, with the permission of the Commissioner and Judicial Commissioner, to offer themselves again at subsequent examinations.

Rule X.—No holder of a Certificate granted under Rule VIII shall be allowed to practice in any Court in the Central Provinces until he shall sign upon the said Certificate, in the presence of the Commissioner or Deputy Commissioner, a declaration in the following form. The declaration will be attested by the signature of the Officer before whom it is made.

"I, A. B., hereby solemnly declare and promise "that in my practice before the Courts I will not "act as Counsel for the prosecution of any suit "which I know to be deliberately false or fraudu-"lent; that neither in the prosecution nor in "the defence of any case in which I may be "employed will I utter any thing which I know "to be false or contrary to the laws and regula-"tions of the Government or to public morality; "and that I will, on all occasions, act in the "Courts in the support of truth and justice."

Rule XI.—After making the declaration prescribed in the preceding Rule, the holders of Certificates will be free to practise in the Courts of the Central Provinces. There will ordinarily be no limitation on the number of persons allowed to practice in any Court, but the Judicial Commissioner may pass an order limiting the number of Pleaders in any Court, if for any reason he consider it necessary to do so.

Rule XII.—The Certificates of Pleaders guilty of any misconduct in any Court will be liable to be cancelled with the sanction of the Judicial Commissioner.

Hydrographic Notice.

CHINA SEA

CORAL SHOAL OFF VICTORY ISLAND—PYRAMID ROCKS OFF THE WEST COAST OF THE GREAT NATUNA—FRENCH ROCK OFF THE NORTH NATUNA.

SURVEY OF THE CATWICK ISLANDS AND ADJACENT DANGERS, &c.

All the places are referred to in the order they occur in Horsburgh.

(All bearings are Magnetic.)

AFTER leaving Singapore on the 3rd of April we proceeded first to Victory Island to thoroughly examine the five fathom patch off the S. W. end of the Island (*see* Hydrographic Notice of *Rifleman's* Survey of the Island between Singapore Straits and Borneo published on the 6th March last) over which one of our boats had passed during our recent Survey, and which circumstances prevented us from examining at that time; and also to search for the "Doubtful Reef" of Horsburgh. The following is the result:—

The ship was anchored on the shoal,—the Island bearing N. E. ¾ E., distant half a mile, in 3½ fathoms (reduced to low water spring tides.) This was the least water found after a careful search with all our boats. The shoal is coral, one-third of a mile long in a N. E. and S. W. direction and a quarter of a mile broad. Its outer edge in 8 fathoms lies S. W. ½ W., three quarters of a mile from the Island.

There is great probability that this is the "Doubtful Reef" of Horsburgh, which is thus mentioned in that work, Vol. 1., page 305.

"Said to have been seen in the grab Brig *Bombay Merchant*, Captain Hughes, in January 1825, and was nearly in one with Victory Island, bearing N. E. 5 or 6 miles."

It is possible that this account may mean that the ship was distant from the Island 5 or 6 miles when the breakers were seen in one with the Island. However that may be, after a careful search under favorable circumstances, the water being so clear that we could very distinctly see the formation of the coral all over the shoal upon which the ship was anchored, we could not find the least indication of any other danger in that direction.

Believing, therefore, that the shoal explored by us is, in all probability, the same that was seen by Captain Hughes in 1825, we have named it 'Hugnes' shoal in our Chart.

From Victory Island a line of soundings was carried to the position of a doubtful rock placed on the Admiralty Chart a few miles S. E. of the Pyramid Rocks off the west coast of the Great Natuna. We passed close to the spot without discovering any danger, and had soundings in 33 fathoms.

We passed within four miles of the Pyramid Rocks, but it was getting too dark to examine them closely. They appeared to be just as they are described in Horsburgh, and their position on the Chart agreed within a mile of what we made it to be by bringing up our noon reckoning and P. M. sights.

From the Pyramid Rocks we carried a line of soundings to the position of the French Rocks shewn on the first sheet of the Admiralty Chart of the China Sea as three rocks above water lying N. N. W. ½ W. of Pulo Laut or the North Natuna; we approached their position on a W. by N. ½ N. bearing, and at noon were 2 miles due North of it. We then steered South 7¾ miles, N. W. 9 miles, and N. E. 6¾ miles, without discovering any signs of the rocks. The soundings about the spot were from 35 to 40 fathoms.

These rocks are not mentioned in Horsburgh, and we are not in possession of any particulars respecting them.

HOLLAND BANK.—Captain Ross has placed this bank in its correct relative position with Pulo Ceicer de Mer, and so far as his examination went has given an accurate description of it. *Vide* Horsburgh, Vol. 2, page 337.

It is an extensive coral bank with very various depths of water upon it. Its greatest length under a depth of 10 fathoms is 6¼ miles in an E. N. E. and opposite direction, and its breadth 4 miles.

The shoalest patches are towards its N. E. end. From the centre of them in Lat. 10° 39' 17" N. Long. 108° 43' E, the S. W. apex of Pulo Ceicer de Mer bears about E. S. E., distant fifteen miles; and high rock about E. by S. distant 10½ miles.

The soundings on these shoal patches are very irregular, the least water we could find being 2¼ fathoms, reduced to low water springs.

The S. W. apex of Ceicer de Mer bearing S. E. by E. ½ E., leads just outside 10 fathoms, on it N. E. end; and bearing E. by S. ½ S., leads outside the same depth on its south end.

Therefore vessels passing northward of the Holland Bank should not bring the S. W. or high and sloping apex of Ceicer de Mer to the eastward of S. E.; and those passing south of that danger, should not bring the same apex to the southward of east.

The soundings round the bank are very irregular and afford no certain guide, but the bank is much steeper on its eastern edge than elsewhere. The lead is not at all to be relied upon in approaching that edge of the bank, for 20 fathoms may be had one cast, and 4 fathoms the next. Excepting the eastern part, however, as Horsburgh remarks:—"If the lead be attended to and hove quickly it will point out the edge of the bank before a ship gets into danger."

Horsburgh's directions to avoid this bank on its western side are "not to raise Pulo Ceicer de Mer more than to have the summits of the two hills visible from the poop of a large ship when the Island is bearing betwixt E½. S. and S. E.; for if the low part of the Island between the hills be *in sight from the poop*, bearing from E. by S. to E. S. E., you will be near the edge of the bank." These are valuable remarks and we cannot improve upon them.

PULO CEICER DE MER.—This Island is wrongly described in Horsburgh. The two small hills which are there said to form its extremities, and which are shewn on the charts, one upon the north and one upon the south end, are, in fact, both situated towards the north end of the Island, and bear E. N. E. and W. S. W., distant a mile from

each other. The S. W. and higher hill of the two is in Lat. 10° 32' 36" N. Long. 108° 56' 30" E. It is 360 feet high, has a round top, and slopes gradually until it joins the low land. It is visible 24 or 25 miles. The N. E. hill is 306 feet high, of a conical form, rising abruptly from the low land, and has several irregular masses of rock near its summit, which give it a somewhat remarkable appearance.

The Island is 3¼ miles long in a N. E. and S. W. direction, and 1½ miles broad. Half a mile off its S. E. end is a smaller Island lying in a north and south direction, the highest point of which is 133 feet above the water. The S. E. part of the large Island is nearly the same height, and both present steep rugged cliffs to the eastward.

In the middle of the channel between the Islands lies a mass of rocks just above the water, between which and the small Island is a channel for boats.

A quarter of a mile S. E. of the small Island is a conspicuous black rock about 30 feet high with smaller rocks round about it; two cables S. E. of which again are two rocks awash.

The small Island therefore should not be approached within a mile when bearing to the westward of north.

Nearly half a mile off the N. E. end of the Island are several masses of rocks with foul ground round them. The most conspicuous is a large black rock 60 feet high.

The N. E. part of the Island should not be approached in a large ship nearer than a mile and a half or two miles, nor in a small one nearer than a mile.

In a case of emergency it is possible, perhaps, to gain shelter from the S. W. Monsoon by anchoring off the N. E. end of the island in 14 or 15 fathoms; but the bottom is rocky and bad, holding ground, and by no means to be recommended as an anchorage.

On the east side of the Island is a sandy bay which has the appearence of affording convenient anchorage, but a coral reef not only fills it completely up but projects in such a manner that the five fathom line of sounding forms an arc of a circle convex to seaward more than a mile distant from the depth of the bay, and approaching within a cable or two of the N. E. and S. E. points of the Island. Ship, should be extremely cautious in approaching this very treacherous bay, as the soundings decrease so suddenly from no bottom with 40 or 50 fathoms to 4 or 5 fathoms, that the lead cannot be relied upon to give warning of the danger in sufficient time to avoid it.

A sandy beach extends along the whole west and S. W. coasts of the Island, the S. W. point being formed by a number of black rocks. There is fair anchorage in from 13 or 16 fathoms—with a bottom of sand and shells all along these shores; but the best is just to the southward of the S. W. point, where vessels may conveniently anchor in from 10 to 14 fathoms. It is necessary, however, to be careful in coming to, as shoal water and rocks extend about a third of a mile from the Island, and the depths rapidly decrease from 11 to 4 fathoms.

Our Observatory Station was on the S. W. point of the Island which we made to be in Lat. 10° 31' 6" N. Long. 108° 56' 30" E. or 1° 51' 5." east of the lighthouse on Cape St. James.

The Island is inhabited by poor Fishermen and others, and is well cultivated, but we could not obtain any supplies there. The natives brought off a few fowls upon one occasion which they made us a present of and seemed very pleased to receive some empty bottles, biscuit, &c., in return. But they refused all offers of money and would not be prevailed upon to sell us anything. They were much disturbed at our remaining so long in their neighbourhood, and kept up an almost incessant noise with drums and gongs all the time we were at anchor there. They always lined the beach armed with spears and other Chinese weapons when any of us landed, but did not attempt to molest us in any way. They evidently feared that we had some designs upon their island.

High Rock.—A white rock 60 feet high, the resort of sea birds, and named 'High Rock' in the charts, lies N. W. ½ N. nearly 5 miles from the N. W. point of Pulo Ceicer de Mer. Nearly half a cable north if it is a small rock a few feet above water; close to the northward of which is a rock awash.

In the channel between the Island and High Rock the depths vary from 8 to 12 fathoms, and the bottom is coral. Near the rock we found some patches of 5 and 6 fathoms, but no danger was discovered.

The channel between Pulo Ceicer de Mer and Holland bank is about 12 miles wide. The depths in it are very irregular, varying from 26 to 10 fathoms. The bottom was generally sand or sand and shells at the deep sounding, and rocky at the shoal ones.

Caution.—Vessels should keep a good look out when passing between Pulo Ceicer de Mer, and High Rock or the Holland bank. For although we got many hundreds of soundings in the neighbourhood and the result of our work affords reasonable assurance that these channels are quite safe, yet with depths so irregular and the bottom mostly of coral, the possibility of some small patch having escaped the lead, even in the most careful Survey, should always be borne in mind and guarded against as far as possible.

THE CATWICK ISLANDS are not nearly so large as they are represented to be in the Charts.

Pulo Sapatu, or Shoe Island.—The summit by our observations is in Lat. 9° 58' 23" N., Long. 109° 6' 00" E., and bears S. 17° 30' E., 35½ miles from the S. W. apex of Pulo Ceicer de Mer. It is well described in Horsburgh. Under very favorable circumstances it certainly is possible to effect a landing upon the rocks at its base, and we succeeded in doing so; but otherwise it is an inaccessible barren Rock 346 feet high, one-third of a mile long in a north and south direction, and about half as broad. It is visible 22 or 23 miles.

A rock awash lies a quarter of a cable to the eastward of its south end, with this exception, it is bold close to.

We got 16 and 17 fathoms about 2 cables to the eastward of it, and half a mile off in that direction, 25 to 30 fathoms. On the west side the soundings are a few fathoms deeper.

The Pyramid or Little Catwick.—N. W. by W. ½ W., 2¼ miles from Pulo Sapatu is a small peaked rock, which can be seen about 9 or 10 miles. It is steep close to, with no danger near it.

The channel between it and Pulo Sapatu is perfectly safe and free from any danger. The soundings in it are very deep, 50 to 65 fathoms.

The following observations of Horsburgh are very valuable:—"Although this passage seems to be safe with a commanding wind, it ought not to be adopted excepting in a case of emergency, for

it is contracted and the currents are strong and irregular about these islands."

"Ships passing here in the night, during the N. E. Moonsoon, ought to make proper allowance for a S. W. current, which is liable to deceive, and to carry them down upon the Islands, particularly if the wind is strong at the time."

Round Island or Great Catwick.—In Lat. 10° 3' N., Long 108° 55'E., bearing W.N.W. from Pulo Sapatu, distant 11¾ miles, and nearly south from Pulo Ceicer de Mer, about 80 miles, is a barren rock 196 feet high, about a cable and a half in diameter. It is bold close to with from 30 to 50 fathoms at a short distance from it in all directions.

The Yoosun Shoal—Is a very small coral patch of 4 fathoms, lying in the fairway of the channel between Pulo Ceicer de Mer and the Catwicks. From it in Lat. 10° 16' N., Long. 109° 2' 15" E., the S. W. apex of the former bears N. by W. ½ W. 17¾ miles, the Great Catwick S. S. W. ¼ W., 14¾ miles, and Pulo Sapatu S. by E. ¼ E., 18 miles which is very nearly the position assigned to it by its discoverer; close round it is 45 and 50 fathoms, which is the general depth of the middle of the channel, but about a mile W. N. W. of the shoal is a patch of 24 fathoms.

In fine weather the Yoosun is not easily seen, but when blowing hard in the strength of the monsoon, the sea has been frequently observed to break heavily upon it.

There is good reason to believe that the Yoosun is the only danger in the channel betwixt Pulo Ceicer de Mer and the Catwick, which is otherwise, as described in Horsburgh, "spacious and safe." The soundings in the channel are irregular and will be better understood by a reference to the Chart which these observations are intended to accompany than by a description here.

The channel betwixt the Great and Little Catwick may be considered safe, with the exception of the following danger:—

The La Paix Rock.—Is a small spot with a pinnacle awash, which lies nearly in the fairway of the channel. From it the Great Catwick bears west a little northly distant 4¼ miles; and the Little Catwick seen open to the right of Pulo Sapatu, S. E. by E. a little eastly, 5½ miles. Ross' bearings and description, as given in Horsburgh, coincide almost with our observations; although from the fact of the position of the Catwick and Pulo Sapatu not being placed correctly upon the Charts, the bearing of Pulo Sapatu would not agree with the angle between it and the Little Catwick. Some mistake was therefore supposed to have been made in the bearing, and it was rejected accordingly. Hence the rock as shewn upon the Chart according to Ross' bearings is very much out of its true position; the position marked in the Chart from Horsburgh being much nearer the truth.

Except in exceedingly fine weather the sea always breaks upon this rock, but vessels should not attempt the channel at night, unless their position is very exactly known, and circumstances otherwise favorable.

Julia Shoal.—A small coral patch about a quarter of a mile in extent having only 2½ fathoms water at low tides upon it, lies S. E. by E., distant 8¼ miles from Pulo Sapatu.

Pyramid Rock or the Little Catwick exactly in line with the left extreme of Pulo Sapatu leads over 10 fathoms on the S. W. edge of the Julia; and the same rock in line with the right extreme of Pulo Sapatu clears it to the N. eastward.

When Pyramid rock is just lost behind the left extreme of Pulo Sapatu, and the angle of elevation of that Island is 1° 22', or more, (the height of the eye being 15 feet) ships will be one mile or more inside the Juila. When the angle of elevation is 0° 45' or less, under the same circumstances, they will be one mile or more outside the shoal.

It is strange that no mention of this important danger is made in Horsburgh. In 1836 Captain Thomas, of the Bombay Ship *Good Success*, observing a rippling upon it sent a boat to examine it, and found a sharp pinnacle rock to which the boat was held by a boat hook. In 1847 it was examined in the *Julia*, also of Bombay, but no less water than 3 fathoms could be found, which is no doubt the usual depth of the water upon the shoal, although it is not safe to depend upon finding more than 2½ fathoms.*

From the examination made in the Julia the danger obtained a position on the Charts, which position was very nearly the same as that ascribed to it by Captain Thomas. We also agree with both in bearing, but make the distance from Pulo Sapatu—which with them must have been a matter of judgment only—a mile less than they.

I believe the existence of this shoal to have been the cause of more anxiety, perhaps than any other in the China Sea. No doubt many of the reported positions of dangers in that locality—for instance the Hopkin's bank—have proceeded from this shoal having been seen and its position wrongly estimated. Farther on are given my reasons for believing that the *Christopher Rawson*—the only vessel I have heard of coming to grief near Pulo Sapatu—struck and was lost upon the Julia; and that from the impossibility of correctly calculating the ship's position at the time of the accident the navigation of the China Sea has for twenty years been encumbered with the

Christopher Rawson Shoal,—which appears on the Charts and in Horsburgh as a doubtful danger about 20 miles E. S. E. of Pulo Sapatu. It was hereabouts that vessel was supposed to have struck. But when it is borne in mind that the accident occurred in the middle of the night, when the ship was running under double reefed topsails before a strong N. E. Monsoon, and that she went down a few minutes after striking, the crew having barely time to save their lives by taking to the boats; it is manifest that under such circumstances it was not possible to determine the position of the ship when the accident occurred with any degree of certainty. It must have been a matter of mere conjecture.

It happens that the Gunner's Mate of the *Rifleman* belonged to the *C. Rawson* when she was lost. Overhearing him speak of the wreck in the passage out from England, I questioned him as to the circumstances. He asserted that they had seen no land before the vessel struck, but shortly after they had taken to the boats, which were running before the wind—an Island was seen upon the starboard quarter about 4 or 5 miles off. I have since examined him very

* It is possible that the *Christopher Rawson* when she struck knocked off the pinnacle mentioned by Captain Thomas. She struck with great force, dragging the stern post clean out of her.

closely as to this Island. He adheres to the same statement and declares that he is quite positive on the point.

If this statement be true, and I see no reason to doubt it, the *Rawson* could not have been lost in the position shewn in the Charts, for the Island is only visible from the Bridge of the *Rifleman* at a distance of 22 miles.

He describes the *Christopher Rawson* as a vessel which could hardly be steered within four points either way when running before the wind.

We were steaming about the position of the *Rawson* a whole day, but could find no appearance of danger. The soundings upon the spot were 162 fathoms, with similar depths round about it.

We also passed over the spot some years ago in the *Saracen*, and saw no danger. It has also to my knowledge been passed over by many other vessels with the same result.

A day was spent in searching about the Hopkin's bank, no sign of danger was met with in this case either.

For these reasons, therefore, and considering also that I have not since met with any authentic account of danger having been seen near the position, I think it may be fairly inferred that the *Christopher Rawson* was lost on the Julia; and that there is no good reason for believing that any other danger exists in that locality.

The Raglan.—is another doubtful danger which we were unable to find, and when upon the spot had no bottom with 300 fathoms.

The *Lightning* Steamer also passed over this position recently without observing any appearance of danger, although circumstances were very favorable for doing so.

In the report of this shoal it is said that no soundings were obtained in the Raglan; and the danger is assumed from appearances merely, which it is quite possible were deceptive.

The Forth, Columbia, and Alexander Shoals—A day was spent in carefully searching for each of these doubtful dangers, but nothing of the sort could be met with. Upon the positions of the Forth and Alexander we had no bottom with 500 fathoms; and no bottom with 350 fathoms upon that of the Columbia.

Captain White, late of the *Lanrick* and *Fiery Cross*, a gentleman of great experience in the China Sea, in a very able paper communicated to the *Nautical Magazine* in 1853, thus mentions these shoals:—

"The Shepherdess, Christopher Rawson, Forth, "and Alexander "Shoals I do not believe to exist.

"The Rawson was no doubt bilged on the "3 fathom patch lately found a few miles S. E. of Pulo Sapatu.

"The Fourth Rock is said to have been seen at "2 A. M. in a dark squally night; and the Alexan- "der's wreck is asserted to have been seen on the "western reef. Nor need we be much surprised "at this latter discrepancy, when it is known that "in the strength of the S. W. Moonsoon observa- "tions are often not to be had for 36 or 48 hours "and the current in that season often runs from 30 "to as much as 56 miles in 24 hours, varying in "directions from E. by S. to N. E. by E."

Captain Crockett, now of the Steamer *Clan Alpine*, who has had similar experience in the China Sea to Captain White, informs me that he has passed over the positions of all these supposed shoals and has never seen any sign of danger. I have also received many similar statements from other Captains not so well known as those I have referred to, but in every way worthy of credit.

Of course such a search as we were able to make for these dangers would be very far from sufficient to decide absolutely as to their existence or otherwise. Yet when considered in conjunction with the fact of the very slight evidence upon which they are assumed to exist at all, and also the fact that no vessel amongst the hundreds that proceed to and from China by this route every year has ever met with any accident; I think I shall be justified in recommending the Hydrographer to the Admiralty to remove them from future editions of the Charts.

At the expense of running to a much greater length than I think usually desirable on nautical subjects, I have endeavored to make familiar to the minds of all those interested such facts and considerations as have led me to incur this responsibility.

In conclusion, I would put forward as the result of our recent work that the main route to China does not appear to be fraught with so much difficulty and danger as has been imagined. And that, with the exception of the Julia, there is no good reason for believing in the existence of any dangers between Pulo Sapatu and the western edges of the reefs known to extend from the north danger, far to the southwestward.

The Minerva Bank.—On our way from the Alexander Shoal to Pulo Ceicer de Mer we tried for soundings on the spot where this bank is said to be, and got no bottom with 200 fathoms. There is no doubt, however, that it exists somewhere near there. But as 28 fathoms is the least water reported upon it, I did not deem it sufficiently important to occupy our time in making a close search for it.

Corsair Rock.—The existence of this rock has been frequently denied, and we passed so close to its reported position, that we must have seen it had it been there.

It is probable that the report arose from a sail being mistaken for a rock; and singularly enough our look-out man reported a small Island exactly on the bearing of the Corsair, which turned out to be a large ship.

Royal Bishop Bank.—From near the Great Catwick we carried a line of soundings for this bank until we came to a coral patch having 10 fathoms as the least water upon it in Lat. 9° 40' N., Long. 108° 14' E. Its extent is 3½ miles long in a W. N. W. and E. S. E. direction, and about a mile and a half broad. There are 28 to 30 fathoms all round it.

Circumstances did not permit us to make further search for the shoal patches, which it is said are to be found on the Royal Bishop, and which will probably be discovered to northward of the bank we examined.

CHANGE OF MONSOONS.—After leaving Singapore on the 3rd of April we had light variable airs until we were to the northward of the Royal Charlotte Bank, when we got the wind from the N. E., and entered Saigon River with a strong monsoon.

The N. E. Monsoon continued with variable, but generally with too great strength for us to work in the boats, until the 20th of April, when it ceased entirely. We then had lights southerly and S. E. breezes for a few days, which were again succeeded by calms and occasional light southerly airs, until we arrived at Singapore on the 21st of May.

CURRENTS.—The current was so strong from the north-eastward all the time the monsoon lasted from that quarter that we could scarcely work over it. Immediately we had southerly winds, we also had the current from the same direction. We came down between the Anambas and Natunas, where we experienced a set of one knot an hour to the northward.

THIRD APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JULY 8, 1863.

Circular Order of the Board of Revenue, L. P.

No. 22.

Dated Fort William, the 5th May 1863.

To ALL COMMISSIONERS AND DISTRICT REVENUE OFFICERS.

With reference to Act XXIII. of 1863, and to orders of Government, the following alterations must be made to the Rules for the Sale of Waste Lands in fee-simple, promulgated with the Board's Circular Order No. 63, dated 14th October 1862.

Land Revenue.
A. GROTE and E. T. TREVOR } Esqrs.

2. The following to be *substituted* for Supplementary Rule E:—

E.—"The sum to be deposited for Survey, &c., will be calculated at the rate of 6 annas an acre for Grants estimated at less than 1,000 acres in area, and at the rate of 4 annas for larger Grants. The sums so calculated will be taken in full payment of the expense of actually surveying the lands; but the cost of clearing the boundaries, which will be estimated by the Collector, is to be deposited in addition to the Survey expenses calculated as above."

3. New Rule to be *substituted* for Rule 7.

7.—"The day of Sale under Section I., Act XXIII. of 1863, must not be less than three months after the issue of the notice. Collectors will on no account, except under special instructions from the Board, fix a later date than the first monthly sale day, after the expiration of the third month from the issue of the notice."

No more Sales can be held under the new Rules without the issue of a three months' notice under the Act; such notices must be issued even in pending cases in which notices of Sale after one month have been published and are now current.

4. To be *added* to Rule 8.

"Although not provided for in the Act, it is no doubt intended that if no claim or objection be preferred under the first Section, within the period mentioned in the Advertisement, such period being not less than three months, the Collector should proceed with the sale precisely in the same way as if a claim or objection had been made and disallowed. Nothing short of a claim to proprietary right in the land is a claim which, if well founded, will of itself operate to stay a sale. Claims of occupancy or user if proved may be met, and will probably in most cases be met by selling the land, subject to condition or reservation. But if objections be taken to the sale on the ground that it will interfere with the due exercise of such claims of occupancy or user, the question whether such objection ought to operate as a bar of sale, subject to condition or reservation, is a question for the Collector to decide under Section IV. of the Act. Collectors, however, in deciding such questions should take

care that no unnecessary obstruction is thrown in the way of the free disposal of Waste Lands belonging to the State, and that no such objection be allowed to stop a sale unless it be clearly shewn that the interests of the objectors will be materially and injuriously affected by the transfer of the land from the Government to a private purchaser. Collectors should also endeavour to facilitate compromise between intending purchasers and objectors of this class."

5. To be introduced after the above Rule 8.

8*A*.—The Collector will be careful, at the time of selling, to make known the rights, subject to which the lot is sold, and also that the Government reserve the right of using all streams and canals for public traffic, for which purpose a tow-path, twenty feet in width, will be reserved on each side of each stream and canal, as defined in the Forms of Deeds of Transfer referred to in Supplementary Rule H.

6. Five Forms of Deeds of Conveyance, &c., are annexed, mark ed F. G. H. I. K.

To be substituted for Supplementary Rule H.

H.—The following Forms to be used in the Sale of Waste Lands, and, in the commutation to rent-free of existing Grants, will be found annexed to Circular Order No. 22 of 5th May 1863 :—

Form F.—For sale of Waste Lands where the consideration is paid in full at the time, and where no limited rights whatever are reserved.

Form G.—For sale of Waste Lands where the consideration is paid in full at the time, some right of occupancy or user being reserved.

Form H.—To be endorsed on Forms F. and G., and their counterparts in cases where the whole purchase money is not paid at the time of sale, but is secured as provided by Rule 15.

Form I.—For redemption of Land Revenue.

Form K.—To be endorsed on Form I., and its counterpart in cases where the whole commutation money is not paid at the time of redemption, but is secured.

7.—The following Rule will be substituted for Rule 10 :—

10.—" If, before the day of sale, a claim of proprietary or occupative right in any part of the land be preferred, the Collector shall proceed as directed in Sections 2, 3, and 5, Act XXIII. of 1863. In Non-Regulation Districts where the duties of Judge as well as Collector are vested in the Deputy Commissioner, it will generally be convenient that the preliminary enquiry be carried on by the Assistant Commissioner, vested with the powers of a Deputy Collector, as the Deputy Commissioner may subsequently be required to sit as a Judge in the same case in a Court constituted under Section 7.

8. To be introduced after the above new Rule 10.

10*A*.—Should the Sale have been deferred under Section III., in consequence of an objection having been made, and should such objection be eventually overruled either by an order of the Revenue Authorities which has become final under Section V., or by a decision of the Special Court, the Collector shall issue a second Notification of Sale in the annexed Form D. This Notification shall be issued in the manner prescribed for the first notice by Rule 5, and Supplementary Rule D. above, and shall be at the expense of the applicant A., Form of Notice E. is annexed, intimating to a claimant or objector, as required by Section V. of the Act, that his claim or objection has been rejected by the Collector."

9. To be substituted for Rule 11.

11.—If the Collector or other Officer shall consider the claim or objection to be established, and that the sale or other disposition of land should not take place, he shall stop the sale or other disposition of land, as directed in Section IV. of the Act.

10. In Rule 12 *dele* all from the beginning down to " exclusive of the area in which such rights exist."

11. The annexed Form C. of first Advertisement of Sale will be substituted for the Form C. appended to Circular Order No. 63, and referred to in Supplementary Rule D.

12. The Commissioners of Nuddea, Dacca, and Assam, and the Superintendent of Darjeeling, are requested to propose the names of Members to constitute a Court under Section VII. of the Act in each of the Districts noted in the margin. The Judge or Deputy Commissioner, as Officer presiding in the principal Civil Court of original jurisdiction in the District, must be one of the Court; and it is desirable that the Members associated with him should be non-official. The grounds for recommending each gentlemen whose name may be proposed should be stated.

13. Instances have come under the Board's notice in which applications for Waste Lands and similar communications have been admitted by Collectors on unstamped paper; but the Special Rule for Bengal contained in Article 10, Schedule B., distinctly requires that such applications shall be on stamped paper of 8 annas value. The practice of making exceptions in favor of English applications written in the form of a letter is objectionable. No applications should be received on unstamped paper in these or other cases, except such as are exempted from Stamp Duty in the Schedules annexed to Act X. of 1862.

By Order of the Board of Revenue, L. P.,

Secretary.

Revenue.

Simla, the 30th June 1863.

Notification.—The following Rules for the sale of Waste Lands in the Province of British Burmah, together with a Schedule of the upset prices per acre, are published for general information:—

Rules for the sale of unassessed Waste Lands and for the redemption of the Revenue of such lands already granted for a term of years in the Province of British Burmah.

Rule 1. All unassessed Waste Lands in which no right of proprietorship or exclusive occupancy is known to exist, or to have existed and to be capable of revival, are available for purchase under these Rules, unless specially reserved under Rule 25.

2. No greater quantity of land than five thousand acres shall be sold in one lot, except with the express sanction of the Chief Commissioner. If for special reasons, in particular localities, a lower maximum area than five thousand acres should be determined upon, it will be duly notified hereafter. There is no prohibition against the same person applying for two or more lots of land, provided that each application comprises no more than five thousand acres, or such other maximum as may be prescribed.

3. Every lot shall be compact, and shall include no more than one tract of land in a ring fence; and when the lot touches a public road or navigable river the length of the road or river frontage shall not exceed one-half of the depth of the lot; provided that if, for any special reasons, the Chief Commissioner shall see fit to relax this restriction it shall be competent to him to do so. No lot will be sold unless it has been previously surveyed and demarcated, or until it shall have been surveyed and demarcated in consequence of an application for purchase. The survey need only be sufficient detail to ensure the ready indentification of the boundaries of the lot, and to ascertain its gross area. If on completion of the survey it shall appear that the area of the land applied for exceeds the prescribed maximum the excess shall be excluded.

4. If it should appear from the survey or otherwise that the application does not comply with the conditions, the Deputy Commissioner may call for an amended application, and in the event of a revised application not being given in within fifteen days the application shall be held to be cancelled and the deposit shall be returned to the applicant, less the amount of expenses actually incurred for advertisement, survey, and the like.

5. Applications for the purchase of Waste Land shall be made to the Deputy Commissioner of the Districts, and every application shall contain the following particulars:—

1*st*.—The estimated area of the land applied for.

2*nd*.—The situation of the land and its boundaries as accurately as can be ascertained.

Applications shall immediately be entered in a Register in the Form A. attached to these Rules.

6. If the Deputy Commissioner be satisfied that the land applied for is available for purchase and within the conditions prescribed in Rules 2 and 3, and if it have been previously surveyed and demarcated, he shall advertise the lot for sale on a given day at an upset price of not less than one Rupee an acre on the whole area. The Advertisement shall be published in the Deputy Commissioner's Office, in the Court of the principal Judicial Officer of the District, and at the Revenue and Police posts nearest to the property, as well as in any villages on the land or adjoining thereto.

An Advertisement shall also be published in the local Newspaper. The form of Advertisement is given in annexure B. A sum of 16 Rupees to cover all estimated expenses connected with advertising shall be paid by the applicant in advance at the time of application.

7. If the Deputy Commissioner be satisfied as above, and if the land have not been surveyed, he shall cause it to be surveyed and its boundaries demarcated, the estimated cost of such survey and demarcation being first deposited by the applicant. On the completion of the survey the Advertisement of sale shall be published as above.

The sum to be deposited will include the estimated cost of clearing the boundaries for survey, but is not, under any circumstances, to exceed four annas an acre.

8. The day of sale to be named in the Advertisement shall not be less than thirty days from the date of publication, and the sale shall be held at the Deputy Commissioner's Office. The sale may be postponed if in the Deputy Commissioner's judgment it should be necessary, due notice being always given of the date on which the sale will be held.

9. Sales shall be held quarterly on the 2nd of May, 2nd of August, 2nd of November, and 2nd of January, or on the first day after those dates on which the Deputy Commissioner's Office may be open. Where a sale is deferred the notice of the date fixed for it will be given by an Advertisement at the Deputy Commissioner's Office. If the day to which the sale is postponed be more than fifteen days after the date originally fixed the date to which it is deferred shall be published in the manner prescribed by Rule 6 for the original notification of the day of sale. In this case all expenses of advertisement shall be borne by the Government.

10. If before the sale no claim of proprietary or occupative right in the land be preferred, the lot shall be sold by auction to the highest bidder above the upset price or to the applicant at the upset price if there be no higher bid.

11. The cost of survey and advertisement will be payable by the highest bidder in addition to the upset price. Immediately on the conclusion of the sale the highest bidder (if he be not the original applicant) shall deposit a sum equal to four annas an acre on the whole area of the lot. In default of immediate payment of this deposit the Deputy Commissioner may at once re-sell the lot. If he thinks it necessary he may refuse to recognize any bid which is not supported by the deposit of the amount required by this Rule. Immediately a sale is made it shall be entered in a Register in the Form C. annexed.

12. On payment of one-tenth of the purchase money and of all expenses of survey, demarcation, advertisement and sale the purchaser shall receive a Deed in the Form D. annexed, signed by the Deputy Commissioner, conveying to him the lot, in full hereditary and transferable proprietary right, free for ever from all demand on account of Land Revenue; but subject, nevertheless, to all general taxes and local rates imposed by Law, and to the provisions of Act XXIII. of 1863 and any other legislative enactment which may hereafter be passed for disposing of the claims of third persons subsequently preferred.

13. If before the day of sale a claim of proprietary or occupative right in any part of the land be preferred the Deputy Commissioner shall investigate the claim, and if satisfied that it is groundless shall reject it and proceed with the sale.

14. If on investigation any such claim should appear to be well grounded the Deputy Commissioner may either reject the application for purchase of the lands or refer it for the orders of the Commissioner. In the former case the applicant may appeal to the Commissioner.

15. The Commissioner may direct the Deputy Commissioner either to reject the application or to proceed with the sale of the land either unreservedly on the conditions prescribed in Rule 12, or if any claim to right of proprietorship, occupancy, or use in any part of the lands be established to the satisfaction of the Commissioner, with a special reservation of such right, or exclusive of the area in which such right exists. If the application for purchase of the land be rejected the amount deposited shall, at the discretion of the Court, and according to the circumstances of the case, be forfeited or returned, less the amount of expenses actually incurred for advertisement, survey, and the like.

16. On being put in possession of the lot the purchaser shall be bound to erect as many substantial boundary marks of masonry, and within such given time, as the Deputy Commissioner may think necessary, failing therein the Deputy Commissioner may cause the boundary marks to be erected and recover the cost thereof from the purchaser under the ordinary procedure for recovery of arrears of revenue.

17. If the land be purchased by any person other than the applicant the estimated cost of survey deposited by the applicant shall be returned to him.

18. The purchaser may, if he choose, pay the whole of the purchase money when the lot is sold or the Deed delivered to him. Or if he choose he may pay a portion, not being less than ten per cent., at the time of sale, and the remainder in instalments at any future time, not being more than ten years from the date of sale. In the latter case simple interest at the rate of ten per cent a year will be charged on the unpaid portion of the purchase money, and the whole lot will remain hypothecated as security for the full discharge of the amount, including principal and interest, and be liable to sale by order of the Deputy Commissioner if the said amount be not paid within the stipulated period.

19. The interest due for any year or part of a year under the above Rule shall be payable on or before the 15th of May, and if the amount be not

paid on that date the Deputy Commissioner may realize the amount by sale of the lot under the Rules in force at the time for sale of Estates on account of arrears of Revenue due from other Estates. Any balance of the purchase money which may not have been paid up before the 15th of May of the tenth year following that of the sale may be realized in the same manner as an arrear of interest outstanding on that date. The proceeds of the sale shall be applied, in the first instance, to the payment of costs of sale, and to the satisfaction of the demand of Government; the surplus shall be payable to the late registered proprietor or proprietors on their joint receipt.

20. If the purchaser fails to pay one-tenth of the purchase money and all other expenses within three months from the day of sale, the lot will be put up to sale again on the same conditions as before and sold at the risk of the first purchaser, whose deposit will also be forfeited.

21. The upset price as given in the annexed Schedule will be calculated on the whole area of the lot without any deduction on any account whatsoever.

22. If it should at any time be found that the same land has been included in more than one lot it shall be held to belong to the lot first sold, and all subsequent sales shall, as regards such land, become null and void. In the event of any dispute regarding the boundary of two or more adjoining lots, the Deputy Commissioner may, on the application of any one of the parties, re-adjust the boundaries of the lots, and his decision shall be final. The price paid by any subsequent purchaser for land thus excluded from his lot will be refunded to him with simple interest at ten per cent.

The sum to be refunded will be calculated on the average price paid per acre, excluding the cost of survey and advertisement.

23. Grants which have already been given for a term of years at progressively increasing rents will be treated as if the land were permanently settled if the holder wishes to redeem the future land revenue at the highest rate fixed for any year during the currency of the grant, provided there is no right of occupancy other than that of the lessee or that derived from him. The rates for redemption will be calculated according to the market rate of four per cent. Government Securities at the time being as directed in paragraph 75 of the Despatch of Her Majesty's Secretary of State, dated 9th July 1862.

24. All sales of Waste Land and all the redemption made under these Rules in each Division will be reported immediately to the Chief Commissioner in the form of an abstract of the entry from Register B. prescribed in Rule 11 above; but no sale of Waste Land once made by a Deputy Commissioner in conformity with these Rules will be distributed by any higher Executive Authority.

25. Reserves of inland fisheries and forest land, of land for the growth of firewood near Towns and Stations, of building sites, parks, recreation grounds, and the like, and of land required for other special purposes are not to be sold under these Rules without the express sanction of the Chief Commissioner. A list of these lands is under preparation by the Chief Commissioner, and when it has been approved by Government it will be published. In the Districts of Prome, Myanoung, Rangoon, Bassein, Toungoo, Martaban, and Amherst certain tracts of forest land are reserved and no grant will be made therein until the Deputy Commissioner shall, on each application, have communicated with the Deputy Superintendent of Forests, who will refer to the Superintendent, and that Officer and the Commissioner of the Division will proceed under the special Rules marked E. attached hereunto.

26. Lands for the purchase of which application has been made under the Resolution of the 17th October 1861 will, if such application were duly registered, be dealt with in accordance with the terms of the said Resolution so far as the law allows.

All proceedings taken in conformity with the Resolution of 17th October 1861 will be recognized, and the pending proceedings will be continued under the provisions of that Resolution. Where the application has only been made and registered, the next step will be the issue of the Advertisement required by paragraph 17 of the Resolution. If the Advertisement have already been issued and the term of it have expired the Deputy Commissioner will proceed to give the applicant a Certificate of allotment under paragraph 18, unless others have come forward with offers to purchase the land, in which case the lot must be put up to auction under paragraph 30 of the Resolution. In all such cases the sales will be regulated by the present Rules.

Rules for redemption of Land Tax.

27. Under paragraph 26 of the Despatch of Her Majesty's Secretary of State, dated the 9th July last, a discretion is granted to Government to allow redemption of the Land Revenue in respect of "lands required for dwelling houses, factories, gardens, plantations, and other similar purposes."

Under this authority the Chief Commissioner will be prepared to receive applications from the proprietors of lands of the nature above indicated for the communication, by a single payment for ever, of the Land Revenue assessed thereon.

28. The price to be paid will, under paragraph 75 of the same Despatch, be fixed according to the actual value at the time being of Government four per cent. Securities.

29. Under paragraphs 35 and 75 of the Despatch redemption will only be allowed, where the Revenue is found to be fairly assessed, otherwise "a full, fair, and equitable rent" will be imposed as a necessary preliminary to the measure.

Rules for the Management of the Wards' Institution at Calcutta.

Object and Constitution

1. The Wards' Institution is established for the Boarding and Education of minors under the Court of Wards, and of such other boys as may, from time to time, be sent to it by the Board of Revenue.

2. The ordinary age of admission shall be from eight years to fourteen years.

3. The management of the Institution is vested in a Director, subject to the supervision of the Visitors, and to the control of the Board of Revenue in its jurisdiction as Court of Wards.

Admission, Privileges, and Discipline.

4. Each boy shall be sent to Calcutta in charge of a trustworthy agent, who will make him over immediately on his arrival to the Director. The Superintendent shall take an early opportunity of presenting him before the Board of Revenue.

5. Each boy shall have the right to bring with him an establishment of two personal attendants and a cook. Those boys for whom, owing to caste considerations, cooks cannot easily be procured in Calcutta, will be permitted to bring two cooks.

6. One horse with the necessary servants may be kept by each boy whose income exceeds Rupees 5,000 per annum.

7. Servants of whatever description attached to the Institution shall be under the control of the Director, and liable to fine or dismissal at his discretion.

8. A separate bed-room and kitchen shall be allowed to each boy, the drawing-room and reading-room being used in common.

9. From the time of his admission each boy shall be considered to be under the guardianship of the Director, who shall exercise entire control over him.

10. Exercises and deprivation of indulgences shall be the ordinary punishments, and these shall be inflicted at the discretion of the Director. He may also subject the boys to restraint, noting his proceedings in the Order Book prescribed in Rule 36 below.

11. Corporal punishment shall be resorted to only in aggravated cases.

12. Each boy shall be vaccinated as soon as practicable after his admission, unless he be already protected.

13. The Director shall prescribe bounds beyond which no boy shall be allowed to go without permission or unattended.

14. Boys wishing to visit any friend or relation must apply to the Director for leave. A servant attached to the Institution will, in these cases, accompany the boy. Any friend or relation wishing to visit a Ward at the Seminary may be admitted in the presence of the Director, before whom the interview may be held.

Routine.

15. The boys shall rise at gun-fire, from which time half an hour will be allowed for dressing, after which they shall take exercise till 7 A. M.

16. At this time the boys shall take a walk of not less than a mile, or a ride, or shall practise gymnastics, or take similar exercise, provided always that the boys shall not be unattended or beyond supervision.

17. After the morning exercise the boys shall assemble at 7 A. M. in summer, and 7-30 A. M. in winter, to prepare their lessons, and shall study in separate classes for at least one hour, after which

time they shall invariably, except in cases of sickness, bathe and perform their devotional services, and breakfast.

18. At 10 A. M. the boys shall attend the College or School. Absence will be allowed only in cases of sickness.

19. When the boys return from College or School they shall be encouraged to spend their time in active games, riding, and gymnastics.

20. At least one hour in the evening shall be devoted to study with the Director or Teachers.

21. The hour for the evening meal shall be fixed by the Director with due regard to the season of the year.

22. The hour for retiring to rest shall be similarly determined, and at that hour the Jemadar shall see that the house is properly secured, and that each boy is in his bed.

23. A carriage shall be kept for the conveyance of the boys to and from the College, and, if the funds suffice, for the purpose of recreation also.

General Conduct.

24. There shall be no distinction of rank among the boys. All will be treated as gentlemen; but it must be impressed practically on their minds that regularity, obedience, morality, and diligence only will give them position over their fellows.

25. To this end truth, honesty, and straightforwardness shall be first encouraged, and diligence rewarded; while duplicity, cunning, mere surface-polish of manners, and effeminacy shall be discountenanced in every way possible.

The Director.

26. To enforce and utilize the foregoing regulations will be the chief duty of the Director.

27. He shall live in the Institution.

28. He shall on no account leave the boys alone in the Institution. In cases of necessity he shall delegate a temporary authority to a properly qualified person. In any case of absence for more than seven days the person so nominated shall be approved by the Board of Revenue.

29. He shall keep every boy's room furnished with the necessary furniture, which shall be selected with a view to cleanliness and comfort, shew and luxury being avoided.

30. He shall strictly refrain from offending any of the Wards' prejudices which relate to food and drink, and, though prohibited from interference in the matter of religion, he shall not give in to the follies of individuals, or to the whims of families, such, for instance, as the idea that vaccination displeases *Mâta*, or that boys should not walk on foot because their parents may not have walked.

31. He shall encourage a taste for manly exercise, such as riding and swimming, cricket, archery, fives, quoits, croquet, &c.

32. He shall allow no one to live within the precincts of the Institution who is not connected with it, and he shall take care that no objectionable persons find admittance on any pretext whatsoever.

33. He shall take care that the quality of the provisions is good, and the supply regular.

34. The English Writer attached to the Institution shall act as an Assistant to the Director.

Relations between the Board of Revenue and the Director.

35. The Director shall act under the direction of the Board of Revenue and report to them at once all matters of importance.

36. He shall keep an Order Book, in which shall be recorded all orders which he may pass affecting the internal economy of the Institution, and also any punishments severer than exercises or temporary deprivation of indulgences which he has found it necessary to inflict. The Order Book shall be submitted monthly to the Board of Revenue. To save correspondence the pages of this Book shall be divided into two columns, one for the orders of the Director, the other for the remarks of the Board.

37. The Director shall keep an Account Book, which shall distinctly exhibit under different heads the general charges of the Institution and the individual charges of each boy.

38. A monthly abstract of these accounts, prepared by the Director, shall be submitted, in the form of a bill, to the Board of Revenue in their capacity of Court of Wards.

The Committee of Visitors

39. The Member of the Board of Revenue, nominated by the Government, the Secretary to the Board, the Director of Public Instruction, and all Commissioners of Divisions shall be ex-officio Members of the Committee. The remaining Members will be appointed by the Government.

40. The Members of the Committee who reside in Calcutta will visit the Institution in rotation, provision being made that the visits shall not be less frequent than once in each month; but any Member may visit the Institution whenever he wishes to do so.

41. A visiting Member will make such an inspection of the Institution and the boys as shall satisfy him that the Rules are attended to, and that all is going on satisfactorily. The Order Book and Account Book shall be laid before each Visitor, and a Book shall be kept in which each Visitor shall record the result of his visit, with any remarks and suggestions which he may wish to make. This Book shall be kept by the Director and shall be laid before each Visitor at the conclusion of his inspection. The Director may record his explanation at the foot of any remarks entered in this Book by the Visitor, being careful to confine himself strictly to *explanation*, and to enter into no discussion.

42. This "Visitor's Remark Book" shall be submitted monthly for the inspection of the Board of Revenue with the Director's Order Book.

43. When necessary Visitors will address the Board of Revenue specially.

44. Members of the Visiting Committee will strictly abstain from commenting on, or discussing the propriety of the Director's arrangements in the presence of the boys. The object of supporting the Director's authority will always be borne in mind. The Visitor's remarks will be recorded in the Book as addressed to the Board of Revenue, who, as the immediate superiors of the Director, will issue such instructions on them as may be necessary.

Government of India, Foreign Department.

Trade Statistics of the Upper Godavery District.

From CAPTAIN HECTOR MACKENZIE, Secretary to Chief Commissioner, Central Provinces, to COLONEL H. M. DURAND, C. B., Secretary to the Government of India, Foreign Department, with Governor General's Camp,—(dated the 8th June 1863.)

I AM directed to submit a Report by Captain Glasfurd of the Trade Statistics of the Upper Godavery District from October 1862 to May 1863, which Statistics have been collected under the orders recently issued by the Officiating Chief Commissioner.

2. The Officiating Chief Commissioner hopes shortly to submit a General Report on the Trade Statistics of the Central Provinces; but he believes that this particular Report may be interesting under existing circumstances relating to the Godavery River. The figures may be said to represent the present trade of the Godavery Valley during seven months, and are the first Statistics of the kind that have been procured.

3. The value of trade during these seven months is set down at—

Exports	...	Rs. 1,20,879
Imports	...	„ 2,41,126
Total	...	Rs. 3,62,005

or nearly 3¾ lakhs, or £ 36,200. This amount may appear inconsiderable; but the Officiating Chief Commissioner trusts that it is but the germ of a traffic which may be rapid in its growth. If, with the river virtually closed to traffic, and in the absence of roads, there is still a nascent traffic struggling into life, what, the Officiating Chief Commissioner observes, will be the extent of future trade when the river shall be open and the roads made?

4. If the Viceroy should be pleased to approve, Mr. Temple would suggest that this information, such as it is, might be interesting to the Chamber of Commerce.

From CAPTAIN C. L. R. GLASFURD, Deputy Commissioner, Upper Godavery District, to CAPTAIN H. MACKENZIE, Secretary to Chief Commissioner, Central Provinces, Nagpore,—(dated Sironcha, the 16th May 1863.)

I HAVE the honor to submit my Report on the Trade Statistics of this District for the year 1862-63. I regret the delay which has taken place in doing so, but I was under the impression, from the concluding paragraph of the Supplement to the *Central Provinces Gazette* of the 14th February, that the subject was to be incorporated with the Annual Revenue Report, and in this District, where the distance of the Trade Statistics Writers from the Sudder Station is, in some instances, six and eight days journey, some time is necessary to collect the Report.

2. In accordance with the instructions conveyed in Assistant Secretary's letter No. 1070, dated 24th September last, the sanctioned Establishment* was entertained, and all arrangements necessary for the regular registry of articles of export and import were completed by the 15th October.

3. The information thus collected is given in tabulated Statements. *Statement No.* 1 gives the quantity and estimated value of Exports from or through the District to other parts *not* belonging to the Central Provinces. *Statement No.* 2 gives the amount of Exports and Imports by the Godavery Transit Department for the past year; a portion of the Trade herein shewn is of a local character being from one part of this District to another. *Statement No.* 3 gives the total amount of Exports, both those of a local character and those shewn in the two preceding Statements. *Statement No.* 4 gives the total amount of Imports both by land and by water. *Statement No.* 5 shews the amount of timber exported by the Godavery and its Tributaries.

4. The total amount, therefore, of Export Trade is Rupees 1,20,879-5-10. Of this the half, or Rupees 60,316-8-0, is the estimated value of the timber floated down the Godavery, principally to the Coast. The remainder, Rupees 60,562-13-10, is the estimated value of other articles as particularized in the Statements. Of this sum there were exported by the Godavery Transit Rupees 38,749-13-11, and by land Rupees 21,812-15-11, the value of Exports to other territory being Rupees 32,719-1-11, while there was a local trade in this District to the extent of Rupees 27,842-11-11. I much doubt whether the full amount under the latter head could, under the circumstances, be correctly shewn; much produce finds its way out by remote paths and in small quantities. Of the Exports cotton is the largest item; it was exported by the Godavery, and besides it not Rupees 50 of this valuable staple has been exported from the District. The next important item is baggage rice and oil seed follow next. Neither linseed nor hemp appear amongst the articles of Export.

5. The Imports amount to Rupees 2,41,126-15-8. Of this Government stores alone amount to Rupees 1,32,128-10. Most of this was on account of the Godavery works, for only Rupees 5,000 of Commissariat and Rupees 5,000 of Ordnance stores appear to have been conveyed up river. The other Imports of importance are—

	Rs.	As.	P.
Salt	33,888	0	0
English piece goods ...	7,024	0	0
Country manufactured goods ...	7,000	2	7
Baggage	5,446	0	0
Rice	5,253	0	0
European Spirits, Wine, and Beer	4,400	0	0

Provisions for the Godavery works also form a large item. Of these Imports Rupees 1,94,201-3-0 were imported by the Godavery; Rupees 46,925-12-8 by land.

6. The local trade, that is, articles exported from one part of the District to the other, such as supplies for Sironcha from the outlying villages, have not been shewn among Imports. Their being shewn among the Exports was necessary to arrive at a conclusion on the subject, and it may fairly be assumed that these would have swelled the List of Exports had they not been used in the District; they have, therefore, been shewn under that heading, with an explanation that they form the local trade of the District.

7. The export of timber has increased notwithstanding the measures that have been adopted to put a stop to the felling of undersized teak, and which, it was sometimes said, would injure the timber trade. The increase is in the export of other timber besides teak; it is therefore evident that the effect of the lately imposed restrictions has been to lead the Traders to make use of the many excellent descriptions of timber with which the Forests on the Godavery abound, and thereby to develop the resources of the country.

8. Of the localities to which Exports are made Rajamundry and Cocanada are the only ones worthy of notice. Imports are made chiefly from Coconada, Rajahmundry, and Ellore; Masulipatam and the Nizam's Territory stand next; and last come Chanda and the rest of the Central Provinces.

9. One large item of Export has been lost to these Returns by the fact of their only embracing the period between October and 30th April. I allude to the large exportations of rice, wheat, and other grains which are made from the Raepore District to the south. The amount this year, owing to the scarcity at and around Hyderabad, will probably much exceed those of former years. I have received no complaints of the conduct of the Registrars, which has been, as far as I have seen, satisfactory; traders have been put to no inconvenience or annoyance as far as I have been able to learn in the collection of these Statistics. No attempt has been made to register their names, nor have passes ever been granted.

10. In accordance with Circular No. 1300 of the 9th April, four of the five Registrars employed during the past season will be removed after the 30th proximo, and re-appointed when the season opens.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to create an Office of Official Trustee, and to provide securities for the due fulfilment of its duties. It is principally intended for the relief of Europeans holding property in India and for the relief of both Europeans and Natives holding property in the Presidency Towns. The Bill is so framed as to be applicable to Trusts governed by English Law, but other Trusts are not expressly excluded from its benefits.

English Law, as a general rule, considers a Trust an arrangement between friends, and therefore forbids the Trustee to receive remuneration beyond his actual expenses. In India, however, the frequent changes in European society render it difficult or impossible to find private Trustees who can be depended upon to remain long enough to discharge the duties of Trustee for any considerable period, and thus the primary objects of a Trust, stability and regularity, are defeated. The proper remedy seems to be to create an office of Public Trustee with perpetual succession, so that a change in the incumbency shall not affect the duties. With respect to such a Trustee, the principle which denies remuneration to Trustees must of course be waived.

The principle of the Bill has been already recognized in a Law (Act XVII of 1813), which enabled the Supreme Court to vest Trust-money in one of its own Officers who was to be remunerated by a percentage. This Act is, however, very briefly framed, it does not create an *Office* of Official Trustee, and it applies only to the case of a Trust once established, which is likely to fail from the Trustee having gone out of the Court's jurisdiction. What is most wanted, however, is a Public Trustee who can undertake Trusts from their commencement. The great increase of property in European hands, and the growing frequency of marriages in India render it desirable that there should be the means of securing the stability of Trusts from the very first, and it is believed that the provisions of this Bill will remedy an inconvenience which has been strongly and extensively felt, though it has not been much canvassed publicly. It has been thought expedient to enable the Official Trustee to undertake *charitable* Trusts—

a phrase of very wide signification in English Law. He is, however, expressly debarred from undertaking Trusts for religious purposes. It has been thought that such Trusts, when undertaken by a Public Trustee, would be within the principle of the prohibition contained in the Act just passed for severing the connection of the State with religious endowments.

The Bill, in defining the duties of the Official Trustee and regulating the mechanism of his Office, follows in many parts the model of the Administrator General's Act, which is understood to have worked on the whole exceedingly well The security to be given by the Official Trustee is to be determined by the Chief Justice who is to appoint him. It is difficult to conjecture before hand what property will be confided to him, and therefore what security should be required from him. As regards the remuneration he is to receive, his percentage on Trust money transferred to him by the High Court has been settled partly with reference to the Administrator General's remuneration, and partly by reference to the charges of mercantile houses. Very diverse opinions are found to prevail on the point, which will doubtless be much discussed in Select Committee.

Under Section VIII, when the Official Trustee undertakes a Trust from its commencement, he is to agree with the intending author of the Trust as to the rate of his remuneration, which must be recited in the Trust-deed. As Trusts are of all degrees of complexity, it seems impossible to lay down any scale of remuneration which shall be applicable to all. It is desirable too not to place the Official Trustee under any temptation to decline Trusts on the ground that the prescribed remuneration is not likely to compensate him for the difficulties or risks which are sought to be imposed on him.

THE object of this Bill is to introduce into the English Law of Trusts, as applied in India, most of the improvements which have been introduced into the corresponding province of Law in England. The Bill consolidates a variety of provisions taken from English Acts, and applies them to the circumstances of India.

As Europeans, holding property in India under English Law, are displaying an increasing tendency to hold it as a permanent investment, certain technical difficulties, occasioned by the English Law of Trust and Mortgage, are likely to occur with corresponding frequency. These difficulties the Bill is intended either to mitigate or to remove. The Statutes upon which it is based have been found of the utmost practical utility in England.

The Bill is of a technical nature, but its general object may be thus stated.

Trusts are usually created under English Law for two reasons—one, to enable certain persons to enjoy the income of property without having control over the capital—the other, to give to the beneficial interest in property greater plasticity, that is, a greater power of moulding itself to the circumstances of a family or class of persons, than the rules of law admit of in property which is not subject to a Trust. The first class of Trusts is usually (though not universally) created in personal property, and for the benefit of married women or minors; the second is for the purpose of carrying out the provisions of wills or marriage settlements, and is commonly (though not always) confined to real property. In both classes of Trusts, the fiduciary interest (that of the Trustee) is separated from the beneficial interest, and the two frequently devolve in different lines of descent. Hence a Trustee may sometimes be a lunatic, or a minor, or a married woman, and will therefore be incapable of acting; or he may have ceased to be within the jurisdiction of the only Court competent to enforce the Trust; or he may be undiscoverable; or he may wilfully refuse to discharge his duties. In all such cases, whether the Trustee be a sole Trustee or one of a number, the greatest possible inconvenience will probably result to the persons beneficially interested. The Bill takes in almost all conceivable contingencies in which a Trustee cannot or will not fulfil the duties of a Trust, and enables the High Court to act, or to provide others with the means of acting in his absence.

Under the English Law of Mortgage, a somewhat similar description of inconvenience occasionally arises. The representative of a Mortgagee may have a merely formal interest in the property mortgaged, and yet it may be impossible to deal with it effectually without his concurrence. The Bill provides the means of obtaining or dispensing with this concurrence in cases where the Mortgagee is unable or unwilling to give it.

A former Trustee Act, XI Geo. IV and 1 Will. IV ch. 60, is in force in this country, having been extended to India by Act XXIV of 1841, and to the Straits Settlement by Act XIV of 1852. As the English Statute has been practically superseded in England by 13 and 14 Vic. ch. 60, and by 15 and 16 Vic. ch. 55, upon which the present Bill is mainly founded, it is proposed to repeal Section III of Act XIV of 1852 (which is the part of that Act having application to Trustees), and so much of Act XIV of 1852 as extends that Section to the Straits. Permission is however given to continue proceedings under the old Law if the persons interested think fit to do so.

Some difficulty has been experienced in framing Section III, which describes the persons entitled to have the benefit of the present Bill. It was necessary to describe Europeans in India by reference to their relation to the jurisdiction of the High Court.

Political Department.—No. 279A.—*The 25th June* 1863.—The following Notification, No. 302, dated Simla, the 30th of May 1863, issued by the Government of India, in the Foreign Department, (Political,) is re-published for general information:—

His Excellency the Right Hon'ble the Viceroy and Governor General held a Durbar this day for the reception of the Chiefs of the Hill States between the Sutlej and Jumna.

The Chiefs with their nearest relatives and principal Ministers and the Civil and Military Officers of the Station having assembled, the Viceroy and Governor General accompanied by His Excellency the Commander-in-Chief entered and took his seat.

Each Chief and Native Gentleman present was introduced to the Viceroy and Governor General, and the usual offerings having been presented and accepted suitable Khilluts were bestowed.

His Excellency then addressed the Chiefs in the following words:—

"The Chiefs of the Hill States in this neighbourhood have at all times enjoyed in a special degree the favor and protection of the British Government.

"Of this a signal proof was given in the restoration of their Estates to your ancestors at the close of the War of 1814.

"I can undertake to promise that the same favor and protection shall be continued to you so long as you merit it by good conduct and loyalty

"I have it in my power, moreover, at the present time to illustrate by an example the interest which the British Government takes in your welfare.

"Some years ago Government was invited to charge itself with the management of the State of

Joobul, in consequence of the incompetence of the then ruling Rana.

"Government undertook this charge with reluctance, because it has no wish to assume the direct control of Native States, but rather desire to see them well administered by their own Chiefs.

"Nevertheless the able Officers on whom this task devolved acquitted themselves of their trust with so much success that in a short period, not by oppression or extortion but by prudence and economy, they restored the finances of the State to good order, and accumulated a considerable amount of surplus revenue.

"It was at one time proposed that this surplus should be expended by the British Government at its own discretion for the benefit of the State and people of Joobul, but it has now been resolved that it shall be transferred to the Rana, and that the responsibility of making a proper application of it shall devolve on him.

"I accordingly avail myself of this opportunity to place these accumulations in the Rana's hands, with the expression of my hope that he will make a judicious use of them.

"I trust also that the Chiefs who are assembled here to-day will learn from this example that to treat their dependants with consideration, and to abstain from wasteful and extravagant expenditure, is the surest way of advancing their own interests; and further, that the British Government is their true friend, not unwilling to help them in difficulty, but above all desirous to impart to them the knowledge which will enable them to help themselves.

"I shall only add that you will most effectually second the exertions of the British Government for your good if you do all in your power to provide a useful education for your own children."

After the concluding ceremonies His Excellency left his seat* and the assembly broke up.

North-Western Provinces.

Report on the Botanical Gardens at Saharunpore.

From WILLIAM JAMESON, ESQ., Surgeon-Major, Superintendent, Botanical Gardens, North-Western Provinces, to R. SIMSON, ESQ., Officiating Secretary to the Government of the North-Western Provinces, Allahabad,—(dated the 4th May 1863)

IN laying before you for the information of His Honor the Lieutenant-Governor detailed lists shewing the distribution of Plants and Seeds from, and the presentation to, the Botanical Gardens, North-West Provinces during the last season, or from January 1862 to April 1863, I beg briefly to shew the manner in which the duties have during that period been conducted.

2. From the appended list (Appendix A.) it will be perceived that the large number of 1,57,068 Fruit Trees, 38,935 Timber and Flowering Shrubs, &c., 1750 packages of Seeds have been distributed to different Institutions and to parties public and private.

3. From Calcutta to Peshawar most of the public Horticultural Institutions have received supplies of Seeds, as the public Gardens of Calcutta, Neilgherries, Deyrah Dhoon, Jullunder, Amritser, Rawul Pindee, &c. To the rising Institutions, the Agri-Horticultural Societies of Lucknow, Nagpore and Lahore large supplies of Fruit, Timber, Flower, Shrub Vegetable, &c., Seeds have been forwarded.

4. To numerous Civil Officers in charge of Districts; to the Medical Officers in charge of Jails; to Commissariat Officers in charge of Gardens worked for public purposes; to Canal Officers; to Railway Officers; to the Great Government Gardens of Kew Edinburgh and Dublin fine collections have been transmitted.

5. To Soldier's Gardens from Benares to Peshawar large collections of hot weather and rain seeds, and cold weather seeds have been furnished. To prevent mistakes being made in sowing, particularly by parties belonging to Regiments that have recently entered India, and at the same time ensure the distribution of new and fresh seeds, I have deemed it necessary to send out the hot weather seeds in February, March, and the seeds intended for sowing in the cold season in May, June, or when the new seeds of the season have been gathered.

6. To several parties in the Continent as Messrs. Valmorin, of Paris; Van Haiette of Ghent, Belgium, &c., fine collections of seeds have been forwarded, and by them seed of useful and ornamental kinds will be reciprocated. From the former a very fine collection has already been received.

7. To the Reporter on Indian Vegetable Products, Dr. Forbes Watson, White-Hall, London, large collections of Pine and other valuable seeds have been transmitted to enable him to effect exchanges with other Institutions, both public and private.

8. It is a well known fact that many vegetable seeds grown in India degenerate, and thus required to be renewed from time to time. This is particularly the case with the Brassicaceæ or Cabbage Tribe, which are liable to spurt, and if not carefully cultivated will revert to their original type, and which is more liable to occur in small gardens where the different varieties are mixed with each other. To keep up therefore a supply of good kinds of seeds, and enable the gardens to distribute acclimated seeds of first-rate quality of the first and second year's growth, it is absolutely necessary to renew the stock. To enable me to do so Her Majesty's Secretary of State for India, in compliance with the requisition of the Right Hon'ble the Governor General in Council, has this season, through Doctor Forbes Watson, sent seven small boxes of seeds, a supply ample to meet the wants of the Department. These seeds as soon as they have been propagated in the Gardens in the Hills and Plains will be distributed to applicants, and from

them vegetables will be obtained nearly equal, if not equal to those obtained from imported seeds. Acclimated seeds always germinate. Imported seeds, on the other hand, at times do not germinate in larger proportions than 10 or 20 per cent. For Soldier's Gardens, therefore, they are not adapted. Acclimated seeds on the other hand always germinate, and if of the first and second year's growth, their produce is admirably fitted for the table.

9. For Soldier's Gardens, men who look for a reward for their toil and labour acclimated seeds ought alone to be distributed, as it is to a degree disheartening to receive no reward in the form of vegetables, when much time has been spent by them in their gardens. That they were amply supplied last season will be seen by the list which shews a distribution of 676 parcels to them.

10. Nor have other valuable and important plants, in an economical point of view, been neglected.

11. Of Hop sets, two large Boxes.

Yams	Dioscorea	1	Box.
Sweet Ipomea	Chesnuts Batatas	1	„
Kidney	Potatoes	1	„
Grafted Fruit Trees		4	Boxes.

have been received from Dr. Forbes Watson. The most of these interesting collections have reached the gardens in admirable order.

12. The Kidney Potatoes packed in a plain Deal Box arrived at Saharunpore on the 13th March in as good order and as fresh as the day on which they were packed in London. A highly interesting fact, as it shews that the stock now met with in the Hills, which in many localities has become watery and waxy, and therefore much requires renewal, can be re-placed by English seeds at a very small expense.

13. The Yams Dioscorea, Sweet Potatoes, and Horse Radish Roots, Cochlearea, were all in excellent order, some being packed in dry moss and others in charcoal, the former proving to be much the better packing in a ½ inch Deal case.

14. The Fruit Tree grafts entirely free of earth were merely packed in dry moss, and the boxes were plain Deal cases 1½ foot long, 10 inches wide by 6 inches deep. On opening them they presented a very extraordinary and interesting appearance, many of the plants having made shoots two and three inches in length. Blanched the shoots no doubt were, but in a few days exposed to light they recovered their colour. Ten days after their arrival upwards of 180 plants had broken and thrown out fine healthy shoots. The plan adopted by us to make them strike was as follows: all the plants were transplanted into flower pots, a third filled with broken bricks, &c., to ensure a dry bottom. The pots were then filled with compost, consisting of one part of sand, one part of vegetable and leaf mould, and one part of loam. Round the stems of the plants moss was bound, and with a fine syringe they were watered three times daily, and thus the bark kept moist. By this treatment 180 of the 400 plants had struck ten days after their arrival. All have been forwarded to the Nurseries at Mussoorie and Chegoria in West Gurhwal. By this simple method parties anxious to import fine fruit trees from England on their own account can do so at a cheap rate and with little trouble. Nor was any particular care taken to ensure the safety of the grafts en route from England, the boxes being mixed up with other baggage in the hold of the Steamer. The Sweet Chesnuts arrived in bad order caused by the seeds heating en route. Had they been packed in moss or dry sand they would no doubt have reached in good order. For the above valuable acquisitions Government is indebted to Her Majesty's Secretary of State for India and to Dr. Forbes Watson by whom they were so judiciously packed.

15. Of Cereals, a sample of a fine kind of Barley, and a sample of pedegree wheat have from the India Office been received, but too late for sowing, they will therefore be reserved for sowing in the ensuing Rubbee season.

16. Hops. Of these there are now about an acre under cultivation at Kowlaghir, in the Dehra Dhoon, and the Hops obtained from them last season were of very fine quality. To many parties large supplies have been distributed.

17. Of Flowering Shrubs and useful Timber Trees opportunity was taken to introduce from the Royal Gardens, Calcutta, a number of species desiderated by two Gardeners sent to Calcutta to receive the Cinchona plants. By them Dr. Anderson, Officiating Superintendent, Botanical Gardens, sent two wardian cases filled with a number of valuable plants which have proved great acquisitions to the noble collection already contained in the Saharunpore Gardens. See Appendices C. and D.

18. *Cinchona Plants.*—On the requisition of the Hon'ble the Lieutenant-Governor a collection of Cinchona plant contained in four (4) Wardian cases were by the Madras Government sent from the Neilgherries. These plants had been raised from cuttings by Mr. McIvor, and many of them were then small and of little strength; on reaching the Saharunpore Gardens the following was their condition, thus :—

	Dead	Sickly.	Healthy.
No. 1 Case, Cinchona Condaminea or Rusty Brown Bark ...	2	7	21
No. 2 Case, Cinchona Succirubra, Red Bark ..	2	3	19
No. 3, Condaminea, Rusty Brown Bark ...	5	4	21
No. 4, Micranta or C Nitida ...	0	0	6
C. Peruviana, Finest Grey Bark ...	1	8	9
Total ...	10	22	76-108

On the 11th April they were forwarded to Western Gurhwal, and on the 17th they were removed from the cases, transplanted into flower pots, and placed in temporary hot beds at Chejourie and Mussoorie, and were then found to be in the following state :—

	Dead.	Healthy.	Total.
No. 1, Cinchona Condaminea ...	5	25	30
No. 2, Cinchona Succirubra ...	5	19	24
No. 3, C. Condaminea ...	7	23	30
No 4, C. Peruviana ...	3	15	24
C. Nitida and Micranta ...	0	6	
Total ...	20	88	108

Many of the plants are strong and healthy and growing vigorously. Three cases were transplanted at Chejourie in Western Gurhwal, and one case, C. Condaminea, in the Government Garden, Mussoorie, preparatory to being afterwards forwarded to Dhumowltie where proper arrangements, in form of hot beds, have been made for their reception. These valuable and important plants have now been fairly established in Western Gurhwal, and will, I trust, soon be met with throughout the Kohistan of the Western Himalyas as common as the Tea plant, as there are numerous localities in Western and Eastern Gurhwal, and in Kumaon, well adapted for its growth.

Since their removal to the mountains, many of the plants have thrown out strong shoots, from which cuttings will soon be able to be taken. To propagate them rapidly and extensively no attention on our part will be wanting, and we trust ere long to see Cinchona, like Tea, becoming one of the staple articles of exportation from the Kohistan of the North-West Provinces and Punjaub.

19. Of valuable Trees in an economical point of view, which have been extensively propagated and distributed, we may mention a few here.

Morus Multicaulis and M. Sinensis to parties anxious to try the rearing of silk worms as the Agri-Horticultural Society of Oude. Mr. Cope, of Amritser, the Kangra Tea Company at Holta, and several other parties in the Dehra Dhoon, large number of cuttings of Morus Multicaulis and Morus Sinensis, a fine grafted variety received from China, have been given.

20. *Stillingia Sebifira.*—Tallow Tree of China. This highly useful and important tree has been extensively distributed during the season, many maunds of seeds having been distributed to Officers in the North-West Provinces and Punjaub. From its seeds a useful Tallow and Oil are pressed, and from its leaves a dye prepared, its timber, too is white and close grained and hard, and thus fitted for printing blocks. In China in some districts it is cultivated on a scale so large as to enable the cultivators to pay their revenue from the produce. In the North-West Provinces it is found to grow equally well at Saharunpore, in the Deyrah Dhoon, and in the Kohistan, at altitudes of from 4,000 to 5,000 as at Hawal Baugh, and Ayar Tolic in Kumaon, Paoree in Gurhwal, and Holta in the Kangra Valley. In all these localities it yields fruit in quantity.

21. Sweet or Spanish Chesnuts (Castanea Vesca.) This valuble nut, which in the Central and Southern Department of France forms the food of a considerable portion of the rural population, introduced some years ago into the Kohistan of the North-West Provinces, is now fruiting freely in the Deyrah Dhoon and in Kumaon at altitudes of from 4,000 to 5,000 feet, and will ere long prove a valuable acquisitive to the poorer classes. It was much to be regretted that the large case of nuts sent by the Indian Home Government in March last reached Saharunpore in bad order, as the plants now growing throughout the Dhoons and Hills prove that its extensive introduction would be attended with most beneficial results. I have therefore again solicited that another supply packed in moss or dry sand be forwarded.

22. *Carob Tree.*—Ceratonia Silaqua. The Carob, or St. John's Bread Fruit Tree, has been extensively propagated and distributed. But though it flourishes well it has not yet yielded pods in such quantity as it does in Malta, Italy, &c. This, however, may be owing to the trees being too young.

23. *Fruit Trees.*—The fine supply of Fruit Tree grafts, &c., consisting of Apples, Pears, Plums, Apricots, Peaches, &c., received by the Overland route in March last, from Her Majesty Secretary of State for India, will improve much the extensive and valuable collection of Fruit Trees already existing in the Government Gardens, and thus enable me to distribute a greater number of varieties to applicants.

24. Of Indigenous or acclimated Fruit Trees, Mangoes, Leeches, Wampees, Loquats, Golaub Jamun, large numbers have been distributed, and the demands for plants are greatly on the increase.

25. Of plants useful in the Arts, Flax has received more than any other our attention during the last season. In the land assigned by Government for an experiment, a fine crop of Flax has this year been grown, some of it being from 3 to 4 feet in height. But to procure good long fibre it is absolutely necessary that the land be strong or well manured, and that irrigation be employed, and the seed sown from 15th September to 15th October. It, too, is necessary to use good acclimatized Russian Seeds. From the crop grown about 20 maunds of seeds will be available for distribution to Zemindars and other private parties, and as soon as the fibre has been scutched a sample will be forwarded to you for submission to the Hon'ble the Lieutenant-Governor. Of the plant as procured from the Farm, I beg to transmit a specimen for examination. With the Russian Flax Seed a quantity of native Flax Seed was also grown. But as far as fibre was concerned it was found to be a failure, as most of it was not more than 1½ feet in height. A quantity of the Flax Seeds imported in 1861, and reserved for sowing owing to its late arrival at Saharunpore failed to germinate, shewing that in India Flax Seed will not keep in good condition for any length of time. In the Punjaub the greater part of the Flax Seeds imported by the Belfast Flax Company has again failed to germinate. The quantity, therefore, of good acclimated Russian Flax Seed in India is still limited. I would therefore venture to suggest that a half of the acclimated Russian Flax Seed now in store be reserved for applicants, and that the other half be again sown in the experimental Farm in the ensuing season.

26. By Mr. D. Robertson, Officiating Collector of Saharunpore, the cultivation of Flax has been taken up most warmly, and I doubt not but that he will be able to induce many Zemindars, who have good means at their disposal, such as Canal irrigation, &c., to try it. For this purpose I solicit the sanction of Government to place at his disposal 15 or 20 maunds of acclimated Russian Flax Seeds for distribution to Zemindars, and that Zemindars return in kind the value of the seeds allotted to them on the same terms as the Zemindars of Sealkote return to the Belfast Flax Company the value of the acclimated seeds received by them to cultivate, *viz.*, Rupees 57 per maund for acclimated seeds, which is returned in kind, or in the form of Flax Straw at the rate of four maunds per Rupee. To the Zemindars who present the

finest Straw small rewards ought, by the Collectors, to be assigned, and thus produce emulation amongst them.

27. *Cotton Seeds.*—The demand for fine varieties of American Cotton Seeds is now great, and in order to meet it, it is my intention, pending the sanction of the Hon'ble the Lieutenant-Governor, to bring under cultivation with the finer kinds of Cotton, such as new Orleans, Upland Georgean, &c., twenty acres of the experimental Flax Farm land. In the gardens a small quantity has for years been cultivated, and acclimated new Orleans Seed given to Mr. L. Berkeley, in charge of the Government Gardens at Delhi, and others, from which he has raised some Cotton, which has been highly prized in the Home markets. But as stated, the quantity at our disposal for distribution is limited and quite unequal to meet the demands. The dearth, too, of Cotton prevailing in the English markets must long remain so, and the demands on India be more heavy for years to come. That many parts of the North-West Provinces, particularly those districts that are watered by the Canals, are admirably adapted for the finer kinds of American Cotton has been proved by many parties. But all the attempts made to bring about the cultivation on an extensive scale has ended in failure, partly because there was no available local market from whence the cultivator could get a ready sale for his produce, as foreign or exotic Cottons were not in much request with the native weaver, owing, as it is asserted, to its want of strength. But now it is different, and were Government to establish an experimental Cotton Farm for the cultivation of the finer kinds of exotic Cottons, and for the distribution of good acclimated seeds on an extensive scale, it would, I am confident, be attended with the most beneficial results, the more so, as there is not a Collector in the country who is not fully convinced of the urgency and necessity of taking advantage of the state of affairs in America to improve the condition of India, and as in the production of Cotton a capital of from £40,000,000 to £50,000,000 is invested, a vast field for enterprise is presented, and offered to the cultivators of India. But spirit and enterprise amongst the native community is at the lowest ebb, and if ever any thing on an extensive scale be undertaken with exotic seed it must be initiated by Government. The present opportunity ought not therefore to be neglected, and any measure tending to incite native cultivators to action ought to be adopted, and there is none in the hands of District Officers more advantageous than having the power of distributing to diligent native cultivators good acclimated seed. I say acclimated seed, as in Flax, so in Cotton, exotic Cotton when newly imported is liable not to germinate. For the North-West Provinces one or more experimental Farms of New Orleans Cotton, &c., ought to be established, and to clean the Cotton and remove the seeds a few Forbes' Gins ought to be available on the Farm.

28. Nor are other fibre stuffs during the present crisis unworthy of more attention, particularly the fibres obtained from the Bohmaria's or Hill stingless nettles, and for the cleaning and preparing of which a machine has been invented and patented by Mr. G. Sandford, of New York. The different kinds of Agaves are too well worthy of attention, and in the Jail of Deyrah, the Director, Dr. Hutchinson, is now extensively employing the fibres of the American Agave. Agave Americana, and A. Cantala in making mats for which they are admirably adapted.

29. From several Bohmarias strong fibre is obtained, which might be most usefully employed in the arts, and which abound in the Kohistan of the North-West Provinces at altitudes of from 4,000 to 5,000 feet. When we look to the vast trade that has sprung up within the last ten years in Bengal with Jute (Corchorus Alitories), which before that time was comparatively little known, and when we consider that we have in the Sunns and Putsuns of the North-West Provinces, and in the Allahs and Raes of the Kohistan, fibres much superior to it, that the Rail will within two years be close to the base of the Himalayas, and thus afford a cheap means of transport to the Sea board; the time we may safely predict is not far distant when these fibres will attract the attention they merit, and form an extensive export trade. Jute has risen from a few hundred maunds to 52,000 tons. The looms in England are languishing for raw material. India has it to an unlimited extent, or can produce it, if capital and hands to direct are forthcoming, and by the rail the means to transport the raw produce to distant ports will shortly present themselves. For India therefore, particularly the North-West Provinces and Punjab, there is a bright future looming.

30. For the use of the public service large quantities of extract and dried leaves of Hyoscyamus have been prepared, *viz.*, lbs. 240-8 of extract and lbs. 149-12 of dried leaves of Hyoscyamus, and transmitted to the Chief Medical Storekeeper, Calcutta, and the Medical Store-keepers of Allahabad, Saugor, Amballah and Sealkote. To the same parties for the use of the public service the large quantity of lbs 1,122-8 of Atees Tubers aconitum heterophyllum collected at altitudes of from 12,000 to 13,000 feet in the Himalayas has been transmitted. This valuable anti-periodic, second only to quinine itself in its action on the system, is daily coming more into notice and taking the place of the much more expensive drug quinine, and thus now extensively employed in the treatment of intermittent and remittent fevers.

31. The Tea Plant, the cultivation of which in the North-West Provinces and Punjab has now become of national importance, will form the subject of another communication, and need not therefore be here noticed in detail.

32. *Conservatory.*—The roofing of the Conservatory with glass is rapidly progressing, and will soon be completed. The old roof was found to be entirely rotten. It was therefore necessary to renew it.

33. *Museum.*—Materials for commencing the building are now being collected, and in the ensuing month the work will be commenced on as soon as the building is sufficiently advanced towards completion as to admit of the reception of specimens, I shall take the liberty to lay before you for the consideration of His Honor the Lieutenant-Governor a plan by which the specimens of the raw Botanic materials of the North-West Provinces may be brought together.

34. From the above rapid sketch I trust it has been shown that the gardens have, during the last season, been worked with efficiency.

35. In conclusion, I beg to state that in carrying out the works in the gardens I have been ably assisted by the Head Gardener Mr. W. Bell, whose efficient services I beg to bring to notice.

36. To the following parties thanks are due for valuable donations of Seeds and Plants, &c., made by them to the gardens:—

Her Majesty's Secretary of State for India through Dr. Forbes Watson.

His Highness the Maharajah of Putealah.

Dr. Anderson, Officiating Superintendent, Botanical Gardens, Calcutta.

Captain Pearson, Superintendent of Forests, Central India.

Dr. Cleghorn, Superintendent of Forests, Madras, on special duty, Punjab.

Major Cracroft, Deputy Commissioner of Rawul Pindee.

Major Mercer, Deputy Commissioner, Jullunder.

Government of Madras and J. Scott Elliott, Esquire, Calcutta.

From R. SIMSON, ESQ., Secretary to the Government of the North-Western Provinces, to W. JAMESON, ESQ., Superintendent of the Botanical Gardens, North-Western Provinces,—(dated Nynee Tal, the 23rd June 1863.)

I AM directed to acknowledge the receipt of your letter No. 300, dated 4th ultimo, with its enclosures, being a Report on the working of the Botanical Gardens at Saharunpore during the year 1862.

2. In reply, I am desired to state that this interesting Report will be published in the "Selections" of this Government, and that a copy will also be forwarded to the Government of India for publication in a Supplement to the *Calcutta Gazette*.

3. The Hon'ble the Lieutenant-Governor sanctions the proposal contained in paragraph 26 of your letter, to make over to the Collector of Saharunpore 15 or 20 maunds of acclimated Russian Flax Seeds for distribution among the Zemindars, to be returned by them in kind, or in the form of Flax Straw, on the terms given by the Belfast Flax Company at Sealkote, small rewards being given for the best Straw.

4. The proposal to cultivate 20 acres of the experimental Flax Farm land with some of the finer kinds of Cotton is also approved by His Honor; it is necessary in order that Government may be able to distribute good acclimated seed, of which there is a great want.

5. In conclusion, I am desired to convey to you the thanks of this Government for the care and attention bestowed by you on the Botanical Gardens during the past year.

A Bill to constitute an Office of Official Trustee.

Preamble.

WHEREAS it is expedient to amend the law relating to Official Trustees, and to constitute an Office of Official Trustee; It is enacted as follows:—

The expression "High Court" shall mean Her Majesty's High Courts of Judicature at Fort William in Bengal, Fort St. George, and Bombay respectively in the exercise of their original civil jurisdiction.

"Chief Justice."

The expression "Chief Justice" shall mean the Chief Justice or Acting Chief Justice for the time being of any of the said High Courts.

"Person."

The word "person" shall include a corporation.

Number.

Words importing the singular number shall include the plural, and words importing the plural number shall include the singular.

Gender.

Words importing the masculine gender shall include females.

Act XVII of 1843 repealed.

II. Act XVII of 1843 is hereby repealed except as to any proceedings pending or any Trusts now vested in an Official Trustee under it.

An Official Trustee to be appointed in each Presidency.

III. In each of the Presidencies of Fort William in Bengal, Fort St. George, and Bombay there shall be an Official Trustee. The said Official Trustees shall be called the Official Trustee of Bengal, the Official Trustee of Madras, and the Official Trustee of Bombay respectively.

Appointment, suspension, and removal of such Trustee.

IV. Every Official Trustee appointed under this Act shall be appointed and may be suspended or removed from his office by the authorities hereinafter named; that is to say:—

The Official Trustee of Bengal by the Chief Justice of Her Majesty's High Court of Judicature at Fort William in Bengal.

The Official Trustee of Madras by the Chief Justice of Her Majesty's High Court of Judicature at Fort St. George.

The Official Trustee of Bombay by the Chief Justice of Her Majesty's High Court of Judicature at Bombay.

Administrator General may be appointed Official Trustee.

V. The Administrator General or Officiating Administrator General for the time being of any of the said Presidencies shall be eligible for the Office of Official Trustee of that Presidency. Every Official Trustee appointed under this Act shall give security for the due execution of the duties of his Office in such manner and to such amount as the Chief Justice by whom he is appointed shall direct.

Security to be given by Official Trustee.

Provision for leave of absence to be granted to Official Trustee, and for appointment of a person to officiate.

VI. It shall be lawful for the Chief Justice of the High Court at any of the Presidencies, from time to time, to grant leave of absence to the Official Trustee of that Presidency, but subject always to such and the like rules as may be for the time being in force as to leave of absence of the Officers attached to such High Court. Whenever any Official Trustee shall obtain leave of absence, it shall be lawful for the Chief Justice to appoint some person to officiate as Official Trustee, and such person while so officiating shall be subject to the same conditions

and be bound by the same responsibilities as the Official Trustee, and he shall be deemed to be the Official Trustee for the time being under this Act, and shall be liable to give security for the due execution of the duties of his Office in like manner as if he had been appointed Official Trustee.

Official Trustee may, with his consent, be appointed by any person, Trustee of a settlement made by him.

VII. If any person shall be about to grant, assign, or settle any property moveable or immoveable, of what nature or kind soever, upon or subject to any Trust, whether for a charitable purpose or otherwise, it shall be lawful for such person, with the consent of the Official Trustee, to appoint him, by the deed creating the Trust, to be the Trustee of such settlement; and upon such appointment the property so granted, assigned, or settled shall vest in such Officer and his successors in Office, and shall be held by him and them upon the Trust declared and contained in the said deed. Provided always that the consent of the Official Trustee shall be recited in the said deed, and that the deed shall be duly executed by the Official Trustee: Provided also that no Trust for any religious purpose shall ever be held by the Official Trustee, under this or under any other section of this Act.

Official Trustee appointed under last preceding Section to receive the remuneration specified in the deed.

VIII. Every Official Trustee appointed Trustee of any property under the last preceding Section shall be entitled to receive by way of remuneration in that behalf such sum or sums only as he shall by the deed of settlement be declared to be entitled to receive.

Under what other circumstances Official Trustee may be appointed Trustee of any property.

IX. If any property is subject to a Trust, whether for a charitable purpose or otherwise, and there shall be no Trustee willing to act or capable of acting in the Trusts thereof, who is within the local limits of the ordinary or extraordinary original civil jurisdiction of the High Court, or property is subject to a Trust, and all the Trustees, or the surviving or continuing Trustee, and all the persons beneficially interested in the said Trust, shall be desirous that the Official Trustee shall be appointed in the room of such Trustees or Trustee, then and in any such case it shall be lawful for the High Court on petition, and with the consent of the Official Trustee, to appoint the Official Trustee to be the Trustee of such property: and upon such appointment such property shall vest in the Official Trustee and his successors in office, and shall be held by him and them upon the same Trusts as the same were held previous to such appointment.

Rate of commission under last preceding Section.

X. The Official Trustee shall be entitled by way of remuneration, in respect of all Trust property transferred to him under the last preceding Section, to a commission the rate of which shall be as follows; that is to say:—

On all capital monies received and invested by him, a commission of one-quarter per cent on investment;

On all sums received by him by way of interest or dividends in respect of monies invested, a commission of one-half per cent.

On all rents collected by him, a commission of three per cent.

What expenses, &c., commission is to cover.

XI. The Official Trustee shall defray all the expenses of the establishment necessary for his office, and all other charges to which the said office shall be subject, except those for which express provision is made by this Act, and except those costs of litigation and the like which a Trustee would, under ordinary circumstances, be entitled to pay for out of the Trust-monies in his hands. The commission to which the Official Trustee shall be entitled, is intended to cover all the expenses and risk and responsibility of management, collection, and distribution.

In all cases, Official Trustee to be sole Trustee.

XII. It shall in no case be lawful to appoint the Official Trustee to be a Trustee along with any other person; but the Official Trustee shall always be sole Trustee.

Official Trustee to invest Trust money in Government securities, &c.

XIII. The Official Trustee shall cause all capital monies received by him to be invested in Government securities, or otherwise as the Court shall direct: and if in any case the Trust funds or any part of them shall at the time of their vesting in the Official Trustee be invested otherwise than as provided in the deed or will creating the Trust, or than as ordered by the Court, it shall be the duty of the Official Trustee, as soon as he reasonably can, to realize the funds so improperly invested, and to invest the same in Government securities, or otherwise as the Court shall direct.

High Court may pass orders regarding Trust property.

XIV. The High Court may make any such orders as shall seem to it necessary respecting any Trust property vested in the Official Trustee, or the interest or produce thereof. All such orders shall be made on petition, unless the Court shall direct a suit to be instituted.

Unless otherwise provided in deed, Trust property may be re-transferred to original or other Trustees.

XV. Nothing in this Act shall prevent the re-transfer of any Trust property which may have become vested in the Official Trustee, to the original or any subsequently appointed Trustee, or to such person as the Court shall direct, unless otherwise provided by the deed or will creating the Trust.

Appointment of Official Trustee to be by name of office. Authority granted by such appointment.

XVI. All orders which shall be made, appointing any Official Trustee to act as Trustee in virtue of his office, shall appoint him by his name of office, and shall authorize the Official Trustee for the time being of the same Presidency to act as Official Trustee of the property to which such order shall relate: and all property and interests which at the time of the death, resignation, or removal from office of any Official Trustee shall be vested in him by virtue of such order, shall upon such death, resignation, or removal cease to be vested in him, and shall vest in his successor in office immediately upon his appointment thereto, and all books, papers, and documents kept by such Official Trustee by virtue of his

On death, &c., of Official Trustee, property to vest in successor, and office books to be transferred.

office shall be transferred to and vested in his successor in office.

Official Trustee to sue or be sued in his official character by his name of office. Suit not to abate by death, &c.

XVII. All actions, suits, or other proceedings which shall be commenced by or against any Official Trustee in his official character, may be brought by or against him by his name of office, and no suit, action, or other proceeding already commenced or which shall be commenced by or against any person as Official Trustee either alone or jointly with any other person, shall abate by reason of the death, resignation, or removal from office of any such Official Trustee, but the same may by order of the Court and upon such terms as to the service of notices or otherwise as the Court may direct, be continued against his successor immediately upon his appointment in the same manner as if no such death, resignation, or removal had occurred. Provided that nothing herein contained shall render any such successor personally liable for any costs incurred prior to the order for continuing the action or suit against him, or shall release an Official Trustee who has resigned or been removed from his office, or the heirs, executors, administrators, or representatives of a deceased Official Trustee from being liable for any such costs.

Official Trustee to keep a separate account of each Trust, to be open to the inspection of the Chief Justice and any person authorized by him.

XVIII. Every Official Trustee appointed under this Act shall enter into books to be kept by him for that purpose, separate and distinct accounts of each Trust of which he is the Trustee, and of all such sums of money and securities for money, goods, and things, as shall come to his hands, or to the hands of any person employed by him, or in Trust for him, under this Act, and likewise of all payments made by him on account of such Trust, and of all debts due by or to the same, specifying the dates of such receipts and payments respectively, which said books shall be kept in the Official Trustee's office, and shall be at all times open for the inspection of the Chief Justice and of any person authorized by him to demand inspection thereof.

Chief Justice may make and alter rules and orders for custody of Trust Funds, &c.

XIX. The Chief Justice shall have power, from time to time, to make and alter any general rules and orders consistently with the provisions of this Act, for the safe custody of the Trust Funds and securities which shall come to the hands or possession of the Official Trustee, and for the remittance to Europe or elsewhere of all sums of money which shall be payable or belong to persons resident in Europe or elsewhere, or in other cases where such remittances shall be required, and generally for the guidance and government of the Official Trustee in the discharge of his duties; and may by such rules and orders, amongst other things, direct what books, accounts, and statements in addition to those mentioned in this Act, shall be kept by the Official Trustee, and in what form the same shall be kept, and what entries the same shall contain, and where the same shall be kept, and where and how the funds and securities and other the property belonging to the Trust of which the Official Trustee is the Trustee shall be kept or invested or deposited, and how and at what rate or rates of exchange any remittances thereof shall be made.

Publication of orders, &c.

XX. Such orders shall be published in the Official Gazettes of the several Presidencies, and it shall be the duty of the several Official Trustees to obey and fulfil the same, and the same shall be a full authority and indemnity for all persons acting in pursuance thereof.

Official Trustee to furnish annual Schedules which shall be filed in the Court, and may, by order of the Chief Justice, be inspected by any person so authorized.

XXI. The Official Trustee of each of the said Presidencies shall once in every year, that is to say, on the first day of March, or on such other day as the Chief Justice shall direct, deliver to the Chief Justice a true Schedule showing the gross amount of all sums of money received or paid by him on account of each Trust of which he is the Trustee, and the balances during the year ending on the thirty-first day of December next before the day of delivering such Schedule, and a true list of all securities received on account of each of the said Trusts during the same period; and also a true Schedule of all Trusts which shall have come to an end, or of which the Official Trustee shall have ceased to be the Trustee and the property subject to which shall have been paid or made over to the persons entitled to the same or to new Trustees during the same period, specifying the nature and amount or value of such property and the persons to whom paid or made over. The Chief Justice shall cause the said Schedules to be filed as record in the High Court; but it shall not be lawful for any person to inspect the same or to make copies thereof or of any part thereof, except on an order granted by the Chief Justice permitting him so to do.

Chief Justice to appoint Auditors

XXII. The Chief Justice shall from time to time appoint an Auditor or Auditors to examine the accounts of the Official Trustee at the time of the delivery of the said Schedules, and also at any other time when the Chief Justice shall think fit.

Auditors to examine Schedule, and report to Chief Justice.

XXIII. The Auditor or Auditors shall examine the Schedules and accounts, and report to the Chief Justice whether they contain a full and true account of every thing which ought to be inserted therein, and whether the books which by this Act are, or which by any such general rules and orders as aforesaid shall be, directed to be kept by the Official Trustee, have been duly and regularly kept, and whether the Trust funds and securities have been duly kept and invested and deposited in the manner prescribed by this Act, or which shall be prescribed by any such rules and orders to be made as aforesaid.

Auditors to have power to summon witnesses, and to call for books, &c.

XXIV. Every Auditor shall have power to summon as well the Official Trustee as any other person or persons whose presence he may think necessary, to attend him from time to time; and to examine the Official Trustee or other party or parties, if he shall think fit, on oath or solemn affirmation, to be by him administered; and to call for all books, papers, vouchers, and documents which shall appear to him to be necessary for the purposes of the said reference; and if the Official Trustee or other person or persons when summoned shall refuse, or without reasonable cause neglect, to attend or to produce any book, paper, voucher, or

document required, or shall attend and refuse to be sworn or make a solemn affirmation, when by law an affirmation may be substituted for an oath, or shall refuse to be examined, the Auditor or Auditors shall certify such neglect or refusal in writing to the High Court; and every person so refusing or neglecting shall thereupon be punishable, in like manner as if such refusal or neglect had been in contempt of the said High Court.

Penalty for non-attendance, &c.

XXV. The costs and expenses of preparing the said Schedules and accounts and of every such reference and examination as aforesaid shall be defrayed by all the Trust estates to which such Schedules or accounts shall relate, which costs and expenses, and the portion thereof to be contributed by each of the said Trust estates, shall be ascertained and settled by the Auditor or Auditors, subject to the approval of the Chief Justice, and shall be paid out of the said estates accordingly by the Official Trustee.

Costs of preparing Schedule, &c., how to be paid.

XXVI. If upon any such reference and examination, the Auditor or Auditors shall see reason to believe that the said Schedules do not contain a true and correct account of the matters therein contained, or which ought to be therein contained, or that the Trust funds and securities have not been duly kept and invested or deposited in the manner directed by this Act, or which shall be directed by any such rules and orders as aforesaid, or that the Official Trustee has failed to comply with the provisions and directions of this Act, or of any such rules and orders, he or they shall report accordingly to the Chief Justice.

Auditors to report specially to Chief Justice if accounts appear not correct.

XXVII. The Chief Justice may refer every such report as last aforesaid to the consideration of the Advocate General for the Presidency, who shall thereupon, if he shall think fit, proceed summarily against the defaulter or his personal representative in the High Court by petition for an account, or to compel obedience to this Act or to such rules and orders as aforesaid, or otherwise as he may think fit, in respect of all or any of the Trust estates then or formerly under the charge of such defaulter; and the Court shall have power, upon any such petition, to compel the attendance in Court of the defendant or defendants, and any witnesses who may be thought necessary, and to examine them orally or otherwise as the said Court shall think fit, and to make and enforce such order or orders as the Court shall think just.

Proceedings upon such report.

XXVIII. The costs, including those of the Advocate General, and of the reference to him, if the same shall be directed by the Court to be paid, shall be defrayed either by the defendant or defendants, or out of the Trust estates rateably as the said Court shall direct; and whenever any costs shall be recovered from the defendant or defendants, the same shall be repaid to the estates by which the same shall have been in the first instance contributed; and the Court shall have power to order the Official Trustee or other person or persons, defendants, to receive his or her costs out of the said estates, if it shall think fit.

Costs of reference, &c., how to be defrayed.

XXIX. Any orders which shall be made by any of the said High Courts shall have the same effect, and be executed in the same manner as decrees.

Orders of the Court to have same effect, and to be executed in the same manner as decrees.

XXX. Any order under this Act may be made on the application of any person beneficially interested in any Trust property, or of any Trustee thereof whether under disability or not.

Who may apply.

XXXI. If any Infant or Lunatic shall be entitled to any gift or legacy, or residue or share thereof, it shall be lawful for the Executor or Administrator by whom such legacy, residue, or share may be payable or transferable, or the party by whom such gift may be made, or any Trustee of such gift, legacy, residue, or share, to pay or transfer the same, to the Official Trustee appointed under this Act: provided that the leave of the High Court to make such payment or transfer shall be first obtained by motion made on petition. STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to create an Office of Official Trustee, and to provide securities for the due fulfilment of its duties. It is principally intended for the relief of Europeans holding property in India, and for the relief of both Europeans and Natives holding property in the Presidency Towns. The Bill is so framed as to be applicable to Trusts governed by English Law, but other Trusts are not expressly excluded from its benefits.

English Law, as a general rule, considers a Trust an arrangement between friends, and therefore forbids the Trustee to receive remuneration beyond his actual expenses. In India, however, the frequent changes in European society render it difficult or impossible to find private Trustees who can be depended upon to remain long enough to discharge the duties of Trustee for any considerable period, and thus the primary objects of a Trust, stability and regularity, are defeated. The proper remedy seems to be to create an office of Public Trustee with perpetual succession, so that a change in the incumbency shall not affect the duties. With respect to such a Trustee, the principle which denies remuneration to Trustees must of course be waived.

The principle of the Bill has been already recognized in a Law (Act XVII of 1843), which enabled the Supreme Court to vest Trust-money in one of its own Officers who was to be remunerated by a percentage. This Act is, however, very briefly framed; it does not create an *Office* of Official Trustee, and it applies only to the case of a Trust once established, which is likely to fail from the Trustee having gone out of the Court's jurisdiction. What is most wanted, however, is a Public Trustee who can undertake Trusts from their commencement. The great increase of property in European hands, and the growing frequency of marriages in India render it desirable that there should be the means of securing the stability of Trusts from the very first, and it is believed that the provisions of this Bill will remedy an inconvenience which has been strongly and extensively felt, though it has not been much canvassed publicly. It has been thought expedient to enable the Official Trustee to undertake *charitable* Trusts—

a phrase of very wide signification in English Law. He is, however, expressly debarred from undertaking Trusts for religious purposes. It has been thought that such Trusts, when undertaken by a Public Trustee, would be within the principle of the prohibition contained in the Act just passed for severing the connection of the State with religious endowments.

The Bill, in defining the duties of the Official Trustee and regulating the mechanism of his Office, follows in many parts the model of the Administrator General's Act, which is understood to have worked on the whole exceedingly well The security to be given by the Official Trustee is to be determined by the Chief Justice who is to appoint him. It is difficult to conjecture before hand what property will be confided to him, and therefore what security should be required from him. As regards the remuneration he is to receive, his percentage on Trust money transferred to him by the High Court has been settled partly with reference to the Administrator General's remuneration, and partly by reference to the charges of mercantile houses. Very diverse opinions are found to prevail on the point, which will doubtless be much discussed in Select Committee.

Under Section VIII, when the Official Trustee undertakes a Trust from its commencement, he is to agree with the intending author of the Trust as to the rate of his remuneration, which must be recited in the Trust-deed. As Trusts are of all degrees of complexity, it seems impossible to lay down any scale of remuneration which shall be applicable to all. It is desirable too not to place the Official Trustee under any temptation to decline Trusts on the ground that the prescribed remuneration is not likely to compensate him for the difficulties or risks which are sought to be imposed on him.

Court to declare what parties are Trustees of lands comprised in any suit, and as to the interests of persons unborn.

XXXIII. Where any decree or order shall be made by the High Court for the specific performance of a contract concerning any lands, or for the partition or exchange of any lands, or generally when any decree shall be made for the conveyance or assignment of any lands, either in cases arising out of the doctrine of election or otherwise, it shall be lawful for the said Court to declare that any of the parties to the said suit wherein such decree is made are Trustees of such lands or any part thereof, within the meaning of this Act, or to declare concerning the interest of unborn persons who might claim under any party to the said suit or under the will or voluntary settlement of any person deceased who was during his life time a party to the contract or transactions concerning which such decree is made that such interests of unborn persons are the interests of persons who, upon coming into existence, would be Trustees within the meaning of this Act, and thereupon it shall be lawful for the High Court to make such order or orders as to the estates, rights, and interests of such persons, born or unborn, as the said Court might under the provisions of this Act make concerning the estates, rights, and interests of Trustees born or unborn.

Power to make directions how the right to transfer stock shall be exercised.

XXXIV. It shall be lawful for the High Court to make declarations and give directions concerning the manner in which the right to any stock, Government securities, or chose in action vested under the provisions of this Act shall be exercised, and thereupon the person or persons in whom such right shall be vested shall be compellable to obey such directions and declarations by the same process as that by which other orders under this Act are enforced.

Power to Court to make order appointing new Trustees.

XXXV. In all cases in which it shall be expedient to appoint a new Trustee or new Trustees, and it shall be found inexpedient, difficult, or impracticable so to do without the assistance of the High Court, it shall be lawful for the said Court to make an order appointing a new Trustee or new Trustees, whether there be any existing Trustees or not at the time of making such order: and the person or persons who, upon the making of such order shall be Trustee or Trustees, shall have

New Trustees to have powers of Trustees appointed by decree in suit.

the same rights and powers as he or they would have had if appointed by decree in a suit duly instituted.

Power to Court to vest lands in new Trustee.

XXXVI. It shall be lawful for the High Court, upon making any order for appointing a new Trustee or new Trustees, either by the same or by any subsequent order, to direct that any lands subject to the Trust shall vest in the person or persons who upon the appointment shall be the Trustee or Trustees for such estate as the Court shall direct; and such order shall have the same effect as if the person or persons who, before such order, were the Trustee or Trustees (if any) had duly executed all proper conveyances and assignments of such lands for such estate.

Power to Court to vest right to sue at law in new Trustees.

XXXVII. It shall be lawful for the High Court, upon making any order for appointing a new Trustee or new Trustees, either by the same or by any subsequent order, to vest the right to call for a transfer of any stock or Government securities subject to the Trust, or to receive the dividends, interest, or income thereof, or to sue for or recover any chose in action subject to the Trust, or any interest in respect thereof, in the person or persons who upon the appointment shall be the Trustee or Trustees.

Old Trustees not to be discharged from liability.

XXXVIII. Any such appointment by the High Court of new Trustees, and any such conveyance, assignment, or transfer as aforesaid, shall operate no further or otherwise as a discharge to any former or continuing Trustee than an appointment of new Trustees under any power for that purpose contained in any instrument would have done.

Who may apply.

XXXIX. An order under any of the hereinbefore contained provisions for the appointment of a new Trustee or Trustees, or concerning any lands, stock or Government securities, or chose in action subject to a Trust, may be made upon the application of any person beneficially interested in such lands, stock or Government securities, or chose in action, whether under disability or not, or upon the application of any person duly appointed as a Trustee thereof; and an order under any of the provisions hereinbefore contained concerning any lands, stock, Government securities or chose in action subject to a mortgage, may be made on the application of any person beneficially interested in the equity of redemption, whether under disability or not, or of any person interested in the monies secured by such mortgage.

Application may be by petition.

XL. When any person shall deem himself entitled to an order under any of the provisions hereinbefore contained, it shall be lawful for him to present a petition to the High Court for such order as he may deem himself entitled to, and he may give evidence by affidavit or otherwise in support of such petition before the said Court, and may serve such person or persons with notice of such petition, as he may deem entitled to service thereof.

What may be done upon petition.

XLI. Upon the hearing of any such petition it shall be lawful for the said High Court, should it be deemed necessary, to direct a reference to one of the Judges of the Court to inquire into any facts which require such an investigation, or it shall be lawful for the said Court to direct such petition to stand over, to enable the petitioner or petitioners to adduce evidence or further evidence before the Court, or to enable notice or any further notice of such petition to be served upon any person or persons.

Court may dismiss petition with or without costs.

XLII. Upon the hearing of any such petition, it shall be lawful for the High Court to dismiss such petition with or without costs, or to make an order thereupon in conformity with the provisions of this Act.

Power to make an order in a cause.

XLIII. Whensoever in any cause or matter, either by the evidence adduced therein, or by the admissions of the parties, or by report of one of the Judges of the Court, the facts necessary for an order under this Act shall appear to the High Court to be sufficiently proved, it shall be lawful for the said Court, either upon the hearing of the said cause or of any petition or application in the said cause or matter, to make such order under this Act.

Orders made by the High Court founded on certain allegations to be conclusive evidence of the matter contained in such allegations.

XLIV. Whenever any order shall be made under this Act by the High Court, for the purpose of conveying or assigning any lands, or for the purpose of releasing or disposing of any contingent right, and such order shall be founded on an allegation of the personal incapacity of a Trustee or Mortgagee, or on an allegation that a Trustee or the heir or devisee of a mortgagee is out of the jurisdiction of the High Court or cannot be found, or that it is uncertain which of several Trustees, or which of several devisees of a mortgagee was the survivor, or whether the last Trustee, or the heir, or last surviving devisee of a mortgagee be living or dead, or on an allegation that any Trustee or Mortgagee has died intestate without an heir, or has died and it is not known who is his heir or devisee, then in any of such cases the fact that the High Court has made an order upon such an allegation, shall be conclusive evidence of the matter so alleged in any Court of Civil Judicature upon any question as to the legal validity of the order: Provided always that nothing herein contained shall prevent the High Court directing a re-conveyance or re-assignment of any lands conveyed or assigned by any order under this Act, or a re-disposition of any contingent right conveyed or disposed of by such order; and it shall be lawful for the said Court to direct any of the parties to any suit concerning such lands or contingent right to pay any costs occasioned by the order under this Act, when the same shall appear to have been improperly obtained.

Trustees of charity.

XLV. It shall be lawful for the High Court to exercise the powers herein conferred for the purpose of vesting any lands, stock, Government securities, or chose in action in the Trustee or Trustees of any charity or society over which charity or society the High Court would have jurisdiction upon suit duly instituted, whether such Trustee or Trustees shall have been duly appointed by any power contained in any deed or instrument or by the decree of the said Court or by order made upon a petition to the said Court.

Money of Infants and persons of unsound mind to be paid into Court.

XLVI. Where any Infant or person of unsound mind shall be entitled to any money payable in discharge of any lands, stock, Government securities, or chose in action conveyed, assigned, or transferred under this Act, it shall be lawful for the person by whom such money is payable to pay the same into the High Court in Trust in any cause then depending concerning such money, or if there shall be no such cause, to the credit of such Infant or person of unsound mind, subject to the order or disposition of the said Court: and it shall be lawful for the said Court, upon petition in a summary way, to order any money so paid to be invested in Government securities, and to order payment or distribution thereof, or payment of the dividends or interest thereof, as to the said Court shall seem reasonable.

Court may make a decree in the absence of a Trustee.

XLVII. Where in any suit commenced or to be commenced in the High Court it shall be made to appear to the Court that diligent search and enquiry has been made after any person made a defendant, who is only a Trustee, to serve him with the process of the Court, and that he cannot be found, it shall be lawful for the said Court to hear and determine such cause, and to make such absolute decree therein against every person who shall appear to them to be only a Trustee, and not otherwise concerned in interest in the matter in question, in such and the same manner as if such Trustee had been duly served with the process of the Court, and had appeared at the hearing of such cause: Provided always, that no such decree shall bind, affect, or in any wise prejudice any person against whom the same shall be made, without service of process upon him as aforesaid, his heirs, executors, or administrators for or in respect of any estate, right, or interest which such person shall have at the time of making such decree for his own use or benefit or otherwise than as a Trustee as aforesaid.

Orders made under this Act to be chargeable with the same stamp duty as deeds of conveyance.

XLVIII. Every order to be made under this Act, which shall have the effect of a conveyance or assignment of any lands, or a transfer of any such stock, Government securities, or chose in action as can only be transferred by stamped deed or for the transfer of which stamp is necessary shall be chargeable with the like amount of stamp duty as it would have been chargeable with if it had been a deed executed or a transfer made by the person or persons seized or possessed of such lands, or entitled to such stock, Government securities, or chose in action and every such order shall be duly stamped for denoting the payment of the said duty.

Costs may be paid out of the estate.

XLIX. The High Court may order the costs and expenses of and relating to the petitions, orders, directions, conveyances, assignments, and transfers to be made in pursuance of this Act, or any of them, to be paid and raised out of or from the lands or personal estate, or the rents or produce thereof, in respect of which the same respectively shall be made, or in such manner as the said Court shall think proper.

Enquiry concerning person of unsound mind.

L. Upon any petition being presented under this Act to the High Court concerning a person of unsound mind, it shall be lawful for the said Court to make an order directing an enquiry whether such person is or is not of unsound mind and incapable of managing himself and his affairs: such orders shall have the same effect as the like order made under Section I of Act XXXIV of 1858 *(to regulate proceedings in lunacy in the Courts of Judicature established by Royal Charter)*, and the enquiry directed to be made shall be made in all respects in the manner declared and prescribed for making an enquiry under the last mentioned Act. The High Court may postpone making any order upon the petition presented as aforesaid until any enquiry directed to be made shall have been finally concluded.

Suit may be directed.

LI. Upon any petition under this Act being presented to the High Court, it shall be lawful for the said Court to postpone making any order upon such petition until the right of the petitioner or petitioners shall have been declared in a suit duly instituted for that purpose.

Indemnity to all persons obeying orders passed under this Act.

LII. Every order made or purporting to be made under this Act by the High Court shall be a complete indemnity to all persons whatsoever for any act done pursuant thereto; and it shall not be necessary for such persons to enquire concerning the propriety of such order, or whether the High Court has jurisdiction to make the same.

Orders under the Act to be executed as, and have the effect of, decrees.

LIII. Any order made by the High Court under this Act shall have the same effect and be executed in the same manner as a decree.

This Act extended to High Courts at Madras and Bombay, and the Court of Judicature of the Straits' Settlement.

LIV. The powers and authorities given by this Act to the High Court of Judicature at Fort William in Bengal, or any Judge or Judges of the said Court appointed as aforesaid, shall and may be exercised in like manner by, and are hereby given and extended to, the High Court of Judicature at Fort St. George and the High

Court of Judicature at Bombay, and any other High Court which may be hereafter constituted under the Statute 24 and 25 Victoria Chap. 104 respectively, and any Judge or Judges of the said Courts appointed in like manner as aforesaid, with respect to lands and personal estate, within the local limits of the ordinary or extraordinary orginal civil jurisdiction of the said Courts respectively: And the said powers and authorities shall and may be exercised in like manner by, and are hereby given and extended to, the Court of Judicature of Prince of Wales' Island, Singapore, and Malacca, with respect to lands and personal estate within the local limits of the jurisdiction of that Court.

Commencement of Act.

LVI. This Act shall come into operation on the 1st day of January 1864.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to introduce into the English Law of Trusts, as applied in India, most of the improvements which have been introduced into the corresponding province of Law in England. The Bill consolidates a variety of provisions taken from English Acts, and applies them to the circumstances of India.

As Europeans, holding property in India under English Law, are displaying an increasing tendency to hold it as a permanent investment, certain technical difficulties, occasioned by the English Law of Trust and Mortgage, are likely to occur with corresponding frequency. These difficulties the Bill is intended either to mitigate or to remove. The Statutes upon which it is based have been found of the utmost practical utility in England.

The Bill is of a technical nature, but its general object may be thus stated.

Trusts are usually created under English Law for two reasons—one, to enable certain persons to enjoy the income of property without having control over the capital—the other, to give to the beneficial interest in property greater plasticity, that is, a greater power of moulding itself to the circumstances of a family or class of persons, than the rules of law admit of in property which is not subject to a Trust. The first class of Trusts is usually (though not universally) created in personal property, and for the benefit of married women or minors; the second is for the purpose of carrying out the provisions of wills or marriage settlements, and is commonly (though not always) confined to real property. In both classes of Trusts, the fiduciary interest (that of the Trustee) is separated from the beneficial interest, and the two frequently devolve in different lines of descent. Hence a Trustee may sometimes be a lunatic, or a minor, or a married woman, and will therefore be incapable of acting; or he may have ceased to be within the jurisdiction of the only Court competent to enforce the Trust; or he may be undiscoverable; or he may wilfully refuse to discharge his duties. In all such cases, whether the Trustee be a sole Trustee or one of a number, the greatest possible inconvenience will probably result to the persons beneficially interested. The Bill takes in almost all conceivable contingencies in which a Trustee cannot or will not fulfil the duties of a Trust, and enables the High Court to act, or to provide others with the means of acting in his absence.

Under the English Law of Mortgage, a somewhat similar description of inconvenience occasionally arises. The representative of a Mortgagee may have a merely formal interest in the property mortgaged, and yet it may be impossible to deal with it effectually without his concurrence. The Bill provides the means of obtaining or dispensing with this concurrence in cases where the Mortgagee is unable or unwilling to give it.

A former Trustee Act, XI Geo. IV and 1 Will. IV ch. 60, is in force in this country, having been extended to India by Act XXIV of 1841, and to the Straits Settlement by Act XIV of 1852. As the English Statute has been practically superseded in England by 13 and 14 Vic. ch. 60, and by 15 and 16 Vic. ch. 55, upon which the present Bill is mainly founded, it is proposed to repeal Section III of Act XIV of 1852 (which is the part of that Act having application to Trustees), and so much of Act XIV of 1852 as extends that Section to the Straits. Permission is however given to continue proceedings under the old Law if the persons interested think fit to do so.

Some difficulty has been experienced in framing Section III, which describes the persons entitled to have the benefit of the present Bill. It was necessary to describe Europeans in India by reference to their relation to the jurisdiction of the High Court.

16	Baitool	„ ...	
17	Dumoh	„ ...	

If, for special reasons in particular localities, lower maximum areas should be determined upon due notice will be given.

Supplement.—*There is no prohibition against the same person applying for two or more lots of land provided that each application comprises no more than the maximum of acres prescribed for the District or locality in which the said lots are situate.*

Rule III.—Every lot shall be compact and shall include no more than one tract of land in a ring fence. No lot will be sold unless previously surveyed and demarcated. The survey need only be in sufficient detail to ensure the ready identification of the boundaries of the lot and to ascertain its gross area. If on completion of the survey it shall appear that the area of the lot applied for exceeds the prescribed maximum the excess shall be excluded.

Supplement.—*If it should appear from the survey or otherwise that the application does not comply with these conditions, the Deputy Commissioner may call for an amended application; and in the event of a revised application not being given in within fifteen days, the application shall be held to be cancelled and the deposit made under Rule VI. and its supplement shall be returned to the applicant, less the amount of expense actually incurred for advertisement, survey, and the like.*

Rule IV.—Applications for the purchase of Waste Land shall be made to the Deputy Commissioner of the District, and every application shall contain the following particulars:—

1*st.*—The estimated area of the land applied for.

2*nd.*—The situation of the land and its boundaries as accurately as can be ascertained.

Rule V.—If the Deputy Commissioner is able to satisfy himself that the land applied for is available for purchase under Rule I, and within the conditions prescribed in Rules II. and III., and if the land shall have been previously surveyed and demarcated, he shall advertise the lot for sale on a given day at an upset price as hereinafter specified. The advertisement shall be published in both the English language and the Vernacular of the District in the Deputy Commissioner's Office; in the Offices of the Tehsseldars of the District; and in the Police Station within the limits of which the land may be situated.

Supplement.—*An advertisement shall also be published in the* Central Provinces' Gazette. *The form of advertisement will be hereafter prescribed.*

Rule VI.—If the Deputy Commissioner is satisfied as above, and if the land have not been surveyed, he shall cause it to be surveyed and its boundaries demarcated, the estimated cost of such survey and demarcation being first deposited by the applicant. On the completion of the survey the advertisement of sale shall be published as above.

Supplement.—*The sum to be deposited will include the estimated cost of clearing the boundaries for survey; but it is not, under any circumstances, to exceed four annas an acre.*

Rule VII.—The day of sale to be named in the advertisement shall not be less than thirty days from the date of publication of the advertisement of sale in the Office of the Deputy Commissioner. The sale shall be held at the Deputy Commissioner's Office. The sale may be postponed if, in the Deputy Commissioner's judgment, it be necessary, due notice being always given of the date on which the sale will be held.

Rule VIII.—If before the day of sale no claim of proprietary or occupative right in the land be preferred, the lot shall be sold by auction to the highest bidder above the upset price, or to the applicant at the upset price if there be no higher bid.

SUPPLEMENT.—*If the Deputy Commissioner think it necessary he may refuse to recognise any bid which is not supported by the deposit of the amount required by Rule XVII. Immediately as sale is made it shall be entered in a Register in a form to be hereafter prescribed.*

Rule IX.—The upset price of the lands to be sold will ordinarily be as follows; but in special cases the Deputy Commissioner, with the sanction of the Commissioner, may put a higher upset price on any lot, provided that in no case shall the upset price exceed four times the ordinary rates:—

(1.) In the Raepore, Belaspore, and Mundla Districts, eight annas per acre.

(2.) In the Sumbulpore and Upper Godavery Districts, 1 Rupee per acre.

(3.) In the Hoshungabad, Nagpore, Chanda, Bhundara, Wurda, Jubbulpore, Nursingpore, Chindwarra, Seonie, Saugor, Baitool, and Dumoh Districts, Rupees 2-8 per acre.

The upset price will be calculated on the whole area of the lot without any deduction on any account whatever.

SUPPLEMENT.—*In considering the upset price to be fixed in special cases Deputy Commissioners will not overlook the value of the trees on the land applied for.*

Rule X.—On payment of one-tenth of the purchase money, and of all expenses of survey, demarcation, advertisement, and sale, the purchaser shall receive a deed (in a form which will hereafter be issued by the Chief Commissioner), signed by the Deputy Commissioner, conveying to him the lot in full hereditary and transferable proprietary right free for ever from all demand on account of Land Revenue, but subject, nevertheless, to all general taxes and local rates imposed by Law or by the Local Government, and to any other claim, whether of the Government or otherwise, that may have been or may hereafter be established in any Court of competent jurisdiction.

Rule XI.—If before the day of sale a claim of proprietary or occupative right in any part of the land be preferred the Deputy Commissioner shall investigate the claim, and if satisfied that it is groundless shall reject it and proceed with the sale.

Rule XII.—If on investigation any such claim should appear to be well-grounded the Deputy Commissioner may either reject the application for purchase of the lands, or refer it for the orders of the Commissioner. In the former case the applicant may appeal to the Commissioner.

Rule XIII.—The Commissioner may direct the Deputy Commissioner either to reject the application, or to proceed with the sale of the land, either unreservedly, or on the conditions prescribed in Rule X; or if any claim to right of proprietorship, occupancy, or use in any part of the lands be established to the satisfaction of the Commissioner, with a special reservation of such right, or exclusive of the area in which such right exists. If the application for purchase of the land be rejected the amount deposited as cost of survey, after deduction of any expenses which may have been incurred in survey, demarcation, advertisement, or any other way incident to the transaction, will be forfeited or refunded, as the Deputy Commissioner may direct, according to the circumstances of the case.

Rule XIV.—On being put in possession of the lot the purchaser shall be bound to erect as many substantial boundary marks of masonry as the Deputy Commissioner may think necessary, provided it be not made incumbent on the purchaser to erect more than at the rate of four marks per mile of boundary line.

Rule XV.—If the land be purchased by any other person other than the applicant the estimated cost of the survey deposited by the applicant under Rule VI. shall be returned to him, and the actual cost of survey and demarcation shall be charged against the purchaser in addition to the price of the land.

Rule XIV.—The purchaser may, if he choose, pay the whole of the purchase money when the lot is sold or the deed delivered to him. Or if he choose he may pay a portion, not being less than 10 per cent., at the time of sale, and the remainder, in instalments at any future time, not being more than ten years from the date of sale. In the latter case simple interest at the rate of 10 per cent. a year will be charged on the unpaid portion of the purchase money, and the whole lot will remain hypothecated as security for the full discharge of the amount, including principal and interest, and be liable to sale by order of the Deputy Commissioner if the said amount of either principal or interest be not paid within the stipulated period. Should such sale take place the defaulter will have no claim for improvements against the Government or on any other account except for the one-tenth of the purchase money paid, and for that only, in the event of the amount realised at the second sale at least equalling the amount of the original sale plus any interest due to Government by the original purchaser on the unpaid portion of the purchase money.

SUPPLEMENT.—*The interest due for any year or part of a year under this Rule shall be payable on or before the 15th of May, and if the amount be not paid on that date the Deputy Commissioner may realise the amount by sale of the lot under the Rules in force at the time being for the sale of Estates on account of arrears of Revenue due from other Estates. Any balance of the purchase money which may not have been paid up before the 15th of May of the tenth year following that of the sale may be realised in the same manner as an arrear of interest outstanding on that date. The proceeds of the sale shall be applied, in the first instance, to the payment of the costs of sale and to the satisfaction of the demand of Government; the surplus shall be payable to the late registered proprietor or proprietors on their joint receipt.*

Rule XVII.—If the purchaser fails to pay one-tenth of the purchase money and all other expenses within three months from the day of sale, the lot will be put up to sale again on the same conditions as before and sold at the risk of the first purchaser, whose deposit will also be forfeited.

Rule XVIII.—No sale of Waste Lands once made by a Deputy Commissioner in conformity with these Rules will be disturbed by any higher executive authority, but all such sales shall be immediately reported to the Supreme Government.

Rule XIX.—Reserves of grazing and forest land; of land for the growth of firewood near Towns and Stations; of building sites, parks, recreation grounds; of tracts possessing mineral

wealth, stone quarries, and the like, and of land required for other special purposes are not to be sold under these Rules without the express sanction of the Chief Commissioner. A list of these lands is under preparation and will be published hereafter in the *Calcutta Gazette*.

Rule XX.—Lands for the purchase of which application has been made under the Resolution of the 17th October 1861 will, if such application were duly registered, be dealt with in accordance with the terms of the said Resolution so far as the Law allows.

Rule XXI.—From and after the date of the promulgation of these Rules no fresh applications for grants of Waste Lands under any previous Rules will be entertained.

Rule XXII.—The Rules relating to the disposal of claims to land for the purchase of which application may be made will be subject to the provisions of any Law which may hereafter be passed for regulating the disposal of such claims.

Rule XXIII.—The above Rules will continue in force for two years from the 1st January 1863.

Supplementary Rule XXIV.—If it should at any time be found that the same land has been included in more than one lot it shall be held to belong to the lot first sold, and all subsequent sales shall, as regards such land, be null and void. In the event of any dispute regarding the boundary of two or more adjoining lots the Deputy Commissioner may, on the application of any one of the parties, re-adjust the boundaries of the lots, and his decision will be final. The price paid by any subsequent purchaser for land thus excluded from his lot will be refunded to him with simple interest at (10) ten per cent. The sum to be refunded will be calculated on the average price paid per acre, excluding the cost of survey and advertisement.

No. 3200.

Fort William, the 16th July 1863.

Read a letter from the Officiating Civil Pay-Master, Fort William, No. 14, dated the 6th July 1863, enquiring, with reference to the new Rules for leave of absence to Uncovenanted Servants, whether a Deputy Magistrate who has been absent twice on sick leave for short periods, amounting in the aggregate to six months and eight days, is to be denied further leave, or to be allowed leave without pay on the third occasion of his applying for Medical leave for three months, on the ground that, by the new Rules, sick leave for three years has to be taken in neither more nor less than two periods.

RESOLUTION.—The Hon'ble the President in Council observes that, under the strict letter of the Rules for leave of absence to Uncovenanted Officers recently promulgated, an Uncovenanted Officer may be allowed leave of absence, on Medical Certificate, for a third period, *but without any allowances*. But His Honor in Council, having no doubt that the limitation of sick leave to two periods *without allowances* was intended by the Secretary of State to apply only to cases of leave of absence to England, or to places beyond Indian limits, is pleased accordingly to rule that leave of absence, on Medical Certificate, taken for short periods by Uncovenanted Officers within Indian limits shall not bar a further leave of absence either in India or elsewhere, provided that the whole of the periods of absence shall not exceed three years during their entire service under Government. The allowances to be given during such Medical leaves shall be regulated by the existing Rules for sick leave, that is to say, half salary not exceeding £600 a year shall be given during the first fifteen months taken from time to time, and after the completion of fifteen months one-fourth of salary not exceeding £300 per annum for all other periods up to the limit of three years.

Notification.—The following Rules, in modification of those laid down in the Public Works Code in regard to the test prescribed for members of the Upper Subordinate Branch of the Public Works Department, are notified for general information. The paragraphs will be interpolated in the new Edition of the Code in the order indicated by the number :—

(After paragraph 21, Chapter II.)

21*A*.—The examination in surveying prescribed in paragraph 2 for Assistant Overseers may be dispensed with on the candidate giving evidence that he possesses a satisfactory acquaintance with some special branch of practical Engineering. In such cases a Report will be furnished by the Principal of the Engineering College, specifying in detail the nature of the qualifications possessed by the candidate in this respect, and it will rest with the Government of India to decide whether the qualifications of the candidate as described in the Report which will be submitted for perusal with the usual certificate of qualification in the other subjects of examination are sufficient to make it desirable that he should enter the Department without possessing a knowledge of surveying.

(After paragraph 30, Chapter II.)

30*A*.—The Government of India reserves to itself the right of admitting persons into any of the superior grades of the Upper Subordinate Establishment without requiring actual service in the lower grades. In such exceptional cases the power of appointment or promotion will rest with the Government of India, and the proposal of the Local Government or Administration, under this Rule, should state in specific terms the grounds on which it is desired to dispense with the regular test ; it must further be accompanied by a Report from the Principal of a Civil Engineering College of the same kind as that prescribed in paragraph 21A. (case of Assistant Overseers.)

30*B*.—The examination prescribed in paragraph 29 may be dispensed with in the cases of persons of good character who may possess special and superior qualifications as practical Engineers. But no one will be admitted to the Upper Subordinate Department who has not passed the test for Assistant Overseer, omitting surveying ; and in like manner no one will be admitted as a Sub-Engineer, or promoted to that grade, without, in addition to that test, fulfilling one or other of the alternative tests laid down for that grade in paragraphs 29 and 30A.

REPORT

BY THE

DIRECTORS OF THE BANK OF BENGAL

FOR HALF-YEAR ENDING 30TH JUNE 1863.

THE distinguishing features of the Money Market during the past half-year have been continued abundance and low rates of interest.

Simultaneously with a large influx of specie, as compared with the preceding six months, Her Majesty's Secretary of State, consequent on the improved position of the Finances of India, has, from week to week, drawn heavily on the General Treasury by the sale of Supply Bills in liquidation of Home disbursements. These Supply Bills are the same in effect as an addition to the ordinary specie remittances received from abroad.

Within the same period the Bank has purchased, on account of Government, and partly for the Head Commissioner of Currency, nearly one crore and a quarter of the public debt. Payment of the purchase price necessarily liberated a corresponding amount of capital, and materially contributed to the maintenance of low rates of interest.

From these combined causes, as well as from the exceptionally high prices realized on imported goods, and for some of the leading articles of export, an unusually large amount of capital was thrown on the market, and great difficulty was experienced in finding temporary employment for it. Money at call during the greater portion of the half-year was obtainable at rates somewhat lower than those charged by the Bank. The Directors, however, did not deem it expedient, nor for the interest of the Bank, to lower the Loan rates under five and a half per cent.

The Bank's operations for the past six months at the Head Office and Branches yield a clear profit of Rupees 8,26,860-7-9.

From this amount the Directors have set aside a sum sufficient to pay a dividend at the rate of fifteen per cent. per annum free of Income Tax, and have ordered the balance, amounting to Rupees 2,542-5, to be carried forward to the credit of Profit and Loss Account.

Before the Books were closed for the half-year the Directors, having regard to the established market value of Government Securities, added the sum of Rupees 3,01,937-8 to the Bank's investments, which are chiefly held in the five and a half per cents. The whole of the above sum has been transferred to credit of the Reserve Fund, which now amounts to Rupees 19,70,372-13.

The aggregate value of the investments is still, however, nearly two lacs under their market price, calculated according to the prevailing rates.

The Directors have the satisfaction of informing the Proprietors that the Branches continue to progress satisfactorily, and that arrangements are being made for immediately establishing two additional Agencies in the North-Western Provinces. The Directors, during the past six months, have purchased eligible Banking premises in Mirzapore, Benares, and Dacca, and are about entering into a contract for the erection of suitable buildings in Rangoon. The Directors have to add in conclusion that the amount of Securities transferred from Government, and of those held for ordinary constituents in the Agency Department, is nearly eight crores.

The Proprietors are referred for further particulars to the annexed Statements.

LEGISLATIVE.

The following Bill and the Statement of Objects and Reasons accompanying it are, under the 19th of the Rules for the Conduct of Business at Meetings of the Council of the Governor-General of India for the purpose of making Laws and Regulations, published for general information by order of His Excellency the Governor-General :—

A Bill to repeal Act VIII of 1861 *(for the levy of Port-dues in the Port of Amherst.)*

Preamble. Whereas it is expedient that Act VIII of 1861 *(for the levy of Port-dues in the Port of Amherst)* be repealed; It is enacted as follows :—

Act VIII of 1861 repealed. I. Act VIII of 1861 is hereby repealed.

Date on which Act comes into operation. II. This Act shall come into operation on the day of 1864.

Statement of Objects and Reasons.

From representations made by the principal Merchants of Moulmein, and seconded both by the Commissioner of the Tenasserim Provinces and the Chief Commissioner of British Burmah, it appears that the levy of Port-dues at Amherst has not proved beneficial. That Port has no trade—certainly none of any importance; and vessels almost invariably call there only for orders. The amount realized by the Port-dues does not exceed 1,200 rupees per annum: while much inconvenience is caused, and vessels are deterred from entering the Port merely by the fact of the existence of the duties. Moulmein is consequently placed in a worse position than Rangoon, for vessels may enter the Rangoon River for orders without becoming liable to the payment of any duty. Under these circumstances, it is desirable to repeal Act VIII of 1861; its repeal will enable ships to enter the Port of Amherst without charge, and the Moulmein river will thus be put on an equal footing with that of Rangoon. Amherst will still remain a Port within the meaning of Act XXII of 1855, and subject to the Rules which have been made in accordance with the provisions of that Act.

The following Bill and the Statement of Objects and Reasons accompanying it are, under the 19th of the Rules for the conduct of Business at Meetings of the Council of the Governor-General of India for the purpose of making Laws and Regulations, published for general information by order of His Excellency the Governor-General :—

A Bill to give to Trustees, Mortgagees, and others, in cases to which English Law is applicable, certain powers now commonly inserted in Settlements, Mortgages, and Wills, and to amend the Law of property and relieve Trustees.

Preamble. Whereas it is expedient that in cases to which English Law is applicable, certain powers and provisions usually inserted in Settlements, Mortgages, Wills, and other Instruments should be made incident to the estates of the persons interested, so as to dispense with the necessity of inserting the same in terms in every such Instrument, and that in such cases Trustees should be relieved; It is enacted as follows :—

Interpretation of terms. "Land." I. In the construction of this Act the term "land" shall be taken to include all tenements and hereditaments, and any part or share of or estate or interest in any tenements or hereditaments, of what tenure or kind soever; and

"Mortgage." The term "mortgage" shall be taken to include every instrument by virtue whereof land is in any manner conveyed, assigned, pledged, or charged as security for the repayment of money or money's worth lent, and to be re-conveyed, re-assigned, or released on satisfaction of the debt; and

"Mortgagor." The term "mortgagor" shall be taken to include every person by whom any such conveyance, assignment, pledge, or charge as aforesaid shall be made; and

"Mortgagee." The term "mortgagee" shall be taken to include every person to whom or in whose favor any such conveyance, assignment, pledge, or charge as aforesaid is made or transferred.

In all cases where by any Will, Deed, or other Instrument of settlement it is expressly declared that Trustees or other persons therein named or indicated shall have a power of sale, either generally or in any particular event, over any lands or hereditaments named or referred to in, or from time to time subject to, the uses or Trusts of such Will, Deed, or other Instrument, it shall be lawful for such Trustees or other persons, whether such lands and hereditaments be vested in them or not, to exercise such power of sale by selling such lands or hereditaments, either together or in lots, and either by auction or private contract, and either at one time or at several times.

Sale may be made under special conditions and Trustees may buy in, &c. III. It shall be lawful for the persons making any such sale to insert any such special or other stipulations, either as to title or evidence of title, or otherwise, in any conditions of sale, or contract for sale, as they shall think fit, and also to buy in the lands and hereditaments or any part thereof at any sale by auction, and to rescind or vary any contract for sale, and to re-sell the lands and hereditaments which shall be so bought in, or as to which the contract shall be so rescinded, without being responsible for any loss which may be occasioned thereby, and no purchaser under any such sale shall be bound to enquire whether the persons making the same may or may not have in contemplation any particular re-investment of the purchase money in the purchase of any other lands and hereditaments or otherwise.

Trustees exercising power of sale, &c., empowered to convey. IV. For the purpose of completing any such sale as aforesaid, the persons empowered to sell as aforesaid shall have full power to convey or otherwise dispose of the lands and hereditaments in question, in such manner as may be necessary.

Money arising from sales, to be laid out in the manner indicated in the will, &c. V. The money so received upon any such sale as aforesaid shall be laid out in the manner indicated in that behalf in the Will, Deed, or Instrument containing the power of sale, and until the money to be received upon any sale as aforesaid shall be so disposed of, the same shall be invested at interest in Government Securities for the benefit of the same parties who would be entitled to the benefit of the money and the interest and profits thereof, in case such money were then actually laid out as aforesaid.

Until it is so laid out, money to be invested in Government Securities

Leases.

Restriction on effect of license to alien.

XX. Where any license to do any act which without such license would create a forfeiture, or give a right to re-enter, under a condition or power reserved in any lease heretofore granted or to be hereafter granted, shall at any time after this Act comes into operation be given to any lessee or his assigns, every such license shall, unless otherwise expressed, extend only to the permission actually given, or to any specific breach of any proviso or covenant made or to be made, or to the actual assignment, under-lease, or other matter thereby specifically authorized to be done, but not so as to prevent any proceeding for any subsequent breach (unless otherwise specified in such license); and all rights under covenants and powers of forfeiture and re-entry in the lease contained shall remain in full force and virtue, and shall be available as against any subsequent breach of covenant or condition, assignment, under-lease, or other matter not specifically authorized or made dispunishable by such license, in the same manner as if no such license had been given; and the condition or right

of re-entry shall be and remain in all respects as if such license had not been given, except in respect of the particular matter authorized to be done.

Restricted operation of partial licenses.

XXI. Where in any lease heretofore granted or to be hereafter granted, there is or shall be a power or condition of re-entry on assigning or under-letting or doing any other specified act without license, and a license at any time after the passing of this Act shall be given to one of several lessees or co-owners to assign or under-let his share or interest, or to do any other act prohibited to be done without license, or shall be given to any lessee or owner, or any one of several lessees or owners, to assign or under-let part only of the property, or to do any other such act as aforesaid in respect of part only of such property, such license shall not operate to destroy or extinguish the right of re-entry in case of any breach of the covenant or condition by the co-lessee or co-lessees, or owner or owners, of the other shares or interests in the property, or by the lessee or owner of the rest of the property (as the case may be) over or in respect of such shares or interests or remaining property, but such right of re-entry shall remain in full force over or in respect of the shares or interests or property not the subject of such license.

Rent-charges.

Release of part of land charged not to be an extinguishment.

XXIII. The release from a rent-charge of part of the lands and hereditaments charged therewith shall not extinguish the whole rent-charge, but shall operate only to bar the right to recover any part of the rent-charge out of the lands and hereditaments released, without prejudice nevertheless to the rights of all persons interested in the lands and hereditaments remaining unreleased, and not concurring in or confirming the release.

Powers.

Mode of execution of powers.

A deed hereafter executed in the presence of and attested by two or more witnesses in the manner in which deeds are ordinarily executed and attested, shall, so far as respects the execution and attestation thereof, be a valid execution of a power of appointment by deed or by any instrument in writing not testamentary, notwithstanding it shall have been expressly required that a deed or instrument in writing made in exercise of such power should be executed or attested with some additional or other form of execution or attestation or solemnity: provided always, that this provision shall not operate to defeat any direction in the instrument creating the power that the consent of any particular person shall be necessary to a valid execution, or that any act shall be performed in order to give validity to any appointment, having no relation to the mode of executing and attesting the instrument; and nothing herein contained shall prevent the Donee of a power from executing it conformably to the power by writing or otherwise than by an instrument executed and attested as an ordinary deed, and to any such execution of a power this provision shall not extend.

Devisee in Trust may raise money by sale, notwithstanding want of express power in the will.

XXV. Where by any will which shall come into operation after the passing of this Act, the Testator shall have charged his real estate or any specific portion thereof with the payment of his debts, or with the payment of any legacy or other specific sum of money, and shall have devised the estate so charged to any Trustee or Trustees for the whole of his estate or interest therein, and shall not have made any express provision for the raising of such debt, legacy, or sum of money out of such estate, it shall be lawful for the said devisee or devisees in Trust, notwithstanding any Trusts actually declared by the testator, to raise such debts, legacy, or money as aforesaid by sale and absolute disposition by public auction or private contract of the said hereditaments or any part thereof, or by a mortgage of the same, or partly in one mode and partly in the other, and any deed or deeds of mortgage so executed may reserve such rate of interest and fix such period or periods of repayment as the person or persons executing the same shall think proper.

Powers given by last Section extended to survivors, devisees, &c.

XXVI. The powers conferred by the last Section shall extend to all and every person or persons in whom the estate devised shall for the time being be vested by survivorship, descent, or devise, or to any person or persons who may be appointed under any power in the will, or by the High Court, to succeed to the Trusteeship vested in such devisee or devisees in Trust as aforesaid.

Executors to have power of raising money, &c., where there is no sufficient devise.

XXVII. If any Testator who shall have created such a charge as is described in the twenty-fifth Section shall not have devised the hereditaments charged as aforesaid in such terms as that his whole estate and interest therein shall become vested in any Trustee or Trustees, the Executor or Executors for the time being named in such will (if any) shall have the same or the like power of raising the said moneys as is hereinbefore vested in the devisee or devisees in Trust of the said hereditaments, and such power shall from time to time devolve to and become vested in the person or persons (if any) in whom the Executorship shall for the time being be vested.

Purchasers, &c., not bound to enquire as to powers.

XXVIII. Purchasers or mortgagees shall not be bound to enquire whether the powers conferred by the last three preceding Sections of this Act, or either of them, shall have been duly and correctly exercised by the person or persons acting in virtue thereof.

Inheritance.

Descent how to be traced.

XXIX. Where there shall be a total failure of heirs of the purchaser, or where any land shall be descendible as if an ancestor had been the purchaser thereof, and there shall be a total failure

of the heirs of such ancestor, then and in every such case the land shall descend and the descent shall thenceforth be traced from the person last entitled to the land as if he had been the purchaser thereof. This Section shall be read as part of Act XXX of 1839 *(for the amendment of the Law of inheritance)*.

Assignment of Personalty.

Assignment to self and others.

XXX. Any person shall have power to assign personal property, now by law assignable, including chattels real, directly to himself and another person or other persons or corporation, by the like means as he might assign the same to another.

Purchasers.

Not to be bound to see to the application of purchase money, &c.

XXXI. The *bonâ fide* payment to and the receipt of any person to whom any purchase or mortgage money shall be payable upon any express or implied Trust shall effectually discharge the person paying the same from seeing to the application or being answerable for the misapplication thereof.

Investments of Trust Funds.

On what Securities Trust funds may be invested.

XXXII. Trustees having Trust money in their hands which it is their duty to invest at interest shall be at liberty, at their discretion, to invest the same in any Government Securities, and such Trustees shall also be at liberty, at their discretion, to call in any Trust funds invested in any other Securities than as aforesaid, and to invest the same on any such Securities as aforesaid, and also from time to time, at their discretion, to vary any such investments as aforesaid for others of the same nature: provided always, that no such original investment as aforesaid, and no such change of investment as aforesaid, shall be made where there is a person under no disability entitled in possession to receive the income of the Trust Fund for his life, or for a term of years determinable with his life, or for any greater estate, without the consent in writing of such person.

Trustees and Executors.

Trustees may apply income of property of infants, &c., for their maintenance.

XXXIII. In all cases where any property is held by Trustees in Trust for an infant, either absolutely, or contingently on his attaining the age of twenty-one years, or on the occurrence of any event previously to his attaining that age, it shall be lawful for such Trustees, at their sole discretion, to pay to the Guardians (if any) of such infant, or otherwise to apply for or towards the maintenance or education of such infant, the whole or any part of the income to which such infant may be entitled in respect of such property, whether there be any other fund applicable to the same purpose, or any other person bound by law to provide for such maintenance or education, or not; and such Trustees shall accumulate all the residue of such income by way of compound interest, by investing the same and the resulting income thereof from time to time in proper Securities, for the benefit of the person who shall ultimately become entitled to the property from which such accumulations shall have arisen: provided always, that it shall be lawful for such Trustees at any time, if it shall appear to them expedient, to apply the whole or any part of such accumulations as if the same were part of the income arising in the then current year.

Provisions for appointment of new Trustees, on death, &c.

XXXIV. Whenever any Trustee, either original or substituted, and whether appointed by any of Her Majesty's Supreme or High Courts or otherwise, shall die, or be six months absent from British India, or desire to be discharged from or refuse or become unfit or incapable to act in the Trusts or powers in him reposed, before the same shall have been fully discharged and performed, it shall be lawful for the person or persons nominated for that purpose by the Deed, Will, or other Instrument creating the Trust (if any), or if there be no such person, or no such person able and willing to act, then for the surviving or continuing Trustees or Trustee for the time being, or the acting Executors or Executor or Administrators or Administrator of the last surviving and continuing Trustee, or for the last retiring Trustee, by writing, to appoint any other person or persons to be a Trustee or Trustees in the place of the Trustee or Trustees so dying, or being absent from British India, or desiring to be discharged, or refusing or becoming unfit or incapable to act as aforesaid; and so often as any new Trustee or Trustees shall be so appointed as aforesaid, all the Trust property (if any) which for the time being shall be vested in the surviving or continuing Trustees or Trustee, or in the Heirs, Executors, or Administrators of any Trustee, shall with all convenient speed be conveyed, assigned, and transferred so that the same may be legally and effectually vested in such new Trustee or Trustees, either solely, or jointly with the surviving or continuing Trustees or Trustee, as the case may require; and every new Trustee to be appointed as aforesaid, as well before as after such conveyance or assignment as aforesaid, and also every Trustee appointed by any of Her Majesty's Supreme or High Courts either before or after the passing of this Act, shall have the same powers, authorities, and discretions, and shall in all respects act, as if he had been originally nominated a Trustee by the Deed, Will, or other Instrument (if any) creating the Trust. Trustees' receipts to be discharges.

XXXVI. The receipts in writing of any Trustees or Trustee for any money payable to them or him by reason or in the exercise of any Trusts or powers reposed or vested in them or him shall be sufficient discharges for the money therein expressed to be received, and shall effectually exonerate the persons paying such money from seeing to the application thereof, or from being answerable for any loss or misapplication thereof.

XXXVII. Every Deed, Will, or other Instrument creating a Trust either expressly or by implication shall, without prejudice to the Clauses actually contained therein, be deemed to contain a Clause in the words or to the effect following; that is to say, "that the Trustees or Trustee "for the time being of the "said Deed, Will, or other Instrument shall be "respectively chargeable only for such moneys, "stocks, funds, and securities as they shall re- "spectively actually receive, notwithstanding their "respectively signing any receipt for the sake of "conformity, and shall be answerable and account- "able only for their own acts, receipts, neglects, "or defaults, and not for those of each other, nor "for any banker, broker, or other person with "whom any Trust moneys or securities may be "deposited, nor for the insufficiency or deficiency "of any stocks, funds, or securities, nor for any "other loss, unless the same shall happen through "their own wilful default respectively; and also "that it shall be lawful for the Trustees or Trustee "for the time being of the said Deed, Will, or "other Instrument to reimburse themselves or "himself, or pay or discharge out of the Trust "premises all expenses incurred in or about the "execution of the Trusts or powers of the said "Deed, Will, or other Instrument."

XXXVIII. It shall be lawful for any Executors to pay any debts or claims upon any evidence that they may think sufficient, and to accept any composition, or any security, real or personal, for any debts due to the deceased, and to allow any time for payment of any such debts as they shall think fit, and also to compromise, compound, or submit to arbitration all debts, accounts, claims, and things whatsoever relating to the estate of the deceased, and for any of the purposes aforesaid to enter into, give, and execute such agreements, instruments of composition, releases, and other things as they shall think expedient, without being responsible for any loss to be occasioned thereby.

Executors may compound, &c.

XXXIX. No Trustee, Executor, or Administrator making any payment or doing any act *bonâ fide* under or in pursuance of any power of Attorney shall be liable for the moneys so paid or the act so done, by reason that the person who gave the power of Attorney was dead at the time of such payment or act, or had done some act to avoid the power; provided that the fact of the death, or of the doing of such act as last aforesaid, at the time of such payment or act *bonâ fide* done as aforesaid by such Trustee, Executor, or Administrator, was not known to him: provided always, that nothing herein contained shall in any manner affect or prejudice the right of any person entitled to the money against the person to whom such payment shall have been made; but that such person so entitled shall have the same remedy against such person to whom such payment shall be made as he would have had against the Trustee, Executor, or Administrator if the money had not been paid away under such power of Attorney.

Trustee, &c., making payment under power of Attorney, not to be liable by reason of death of party giving such power.

XL. As to liability of Executor or Administrator in respect of rents, covenants, or agreements.

XLI. In like manner, where an Executor or Administrator liable as such to the rent, covenants, or agreements contained in any conveyance on chief rent or rent-charge (whether any such rent be by limitation of use, grant, or reservation,) or agreement for such conveyance, granted or assigned to or made and entered into with the Testator or intestate whose estate is being administered, shall have satisfied all such liabilities under the said conveyance, or agreement for a conveyance, as may have accrued due and been claimed up to the time of the conveyance hereafter mentioned, and shall have set apart a sufficient fund to answer any future claim that may be made in respect of any fixed and ascertained sum covenanted or agreed by the grantee to be laid out on the property conveyed, or agreed to be conveyed, although the period for laying out the same may not have arrived, and shall have conveyed such property or assigned the said agreement for such conveyance as aforesaid, to a purchaser thereof, he shall be at liberty to distribute the residuary personal estate of the deceased to and amongst the parties entitled thereto, respectively, without appropriating any part or any further part (as the case may be) of the personal estate of the deceased to meet any future liability under the said conveyance or agreement for a conveyance; and the Executor or Administrator so distributing the residuary estate shall not, after having made or executed such conveyance or assignment, and having, where necessary, set apart such sufficient fund as aforesaid be personally liable in respect of any subsequent claim under the said conveyance, or agreement for

As to distribution of the assets of Testator or intestate after notice given by Executor and Administrator

XLII. Where an Executor or Administrator shall have given such or the like notices, as in the opinion of the Court in which such Executor or Administrator is sought to be charged would have been given by the High Court in an administration suit, for creditors and others to send in to the Executor or Administrator their claims against the estate of the Testator or intestate, such Executor or Administrator shall, at the expiration of the time named in the said notices, or the last of the said notices, for sending in such claims, be at liberty to distribute the assets of the Testator or intestate, or any part thereof, amongst the parties entitled thereto, having regard to the claims of which such Executor or Administrator has then notice, and shall not be liable for the assets or any part thereof so distributed to any person of whose claim such Executor or Administrator shall not have had notice at the time of distribution of the said assets or a part thereof, as the case may be; but nothing in the present Act contained shall prejudice the right of any creditor or claimant to follow the assets or any part thereof into the hands of the person or persons who may have received the same respectively.

Trustee, Executor, &c., may apply by petition to Judge of High Court for opinion, advice, &c., in management, &c., of Trust property.

XLIII. Any Trustee, Executor, or Administrator shall be at liberty, without the institution of a suit, to apply by petition to any Judge of the High Court, or by summons upon a written statement to any such Judge at Chambers, for the opinion, advice, or direction of such Judge on any question respecting the management or administration of the Trust property or the assets of any Testator or intestate, such application to be served upon or the hearing thereof to be attended by all persons interested in such application, or such of them as the said Judge shall think expedient; and the Trustee, Executor, or Administrator acting upon the opinion, advice, or direction given by the said Judge shall be deemed, so far as regards his own responsibility, to have discharged his duty as such Trustee, Executor, or Administrator in the subject matter of the said application; provided nevertheless, that this Act shall not extend to indemnify any Trustee, Executor, or Administrator in respect of any act done in accordance with such opinion, advice, or direction as aforesaid, if such Trustee, Executor, or Administrator shall have been guilty of any fraud or wilful concealment or misrepresentation in obtaining such opinion, advice, or direction; and the costs of such application as aforesaid shall be in the discretion of the Judge to whom the said application shall be made.

General Provisions.

Tenants for life, &c., may execute powers, notwithstanding incumbrances.

XLIV. For the purposes of this Act, a person shall be deemed to be entitled to the possession or to the receipt of the rents and income of land or personal property, although his estate may be charged or incumbered, either by himself or by any former owner, or otherwise howsoever to any extent; but the estates or interests of the parties entitled to any such charge or incumbrance shall not be affected by the acts of the person entitled to the possession or to the receipt of the rents and income as aforesaid, unless they shall concur therein.

Operation of Act.

XLV. The provisions contained in this Act shall, except as hereinbefore otherwise provided, extend only to persons entitled or acting under a Deed, Will, Codicil, or other Instrument executed after this Act comes into operation, or under a Will or Codicil confirmed or revived by a Codicil executed after that date, and only to property in British India and to cases to which English Law is applicable.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill is intended to introduce into the English Law of Property as applied in India a number of improvements which have from time to time been effected in that law by the Statutes known as Lord St. Leonard's Acts. The exact limits of the English Law of Property in India do not seem to have ever been accurately ascertained. But there can be no doubt that, through the purchase of land under the waste land rules, and through its acquisition by Englishmen in the Mofussil on tenures analogous to fee-simple, those limits must be constantly enlarging themselves. If in cases to which English law is applicable the conveyances by which rights are transferred are briefly or hastily framed, some of the provisions of this Bill will probably be found of special utility.

There may not appear to be much obvious connection between many of the subjects affected by the Bill, but this miscellaneous character belongs also to the English Statutes on which the Bill is founded, which were not directed to the general re-construction of any one department of law. The object of the learned author of these Statutes seems rather to have been to apply remedies to various defects which the practical working of the English law of property has disclosed, and to mitigate inconveniences which experience has shewn to be perpetually occasioned by errors and omissions in legal instruments.

Much of the Bill refers to improvements of a wholly technical character, but attention must be drawn to one or two points, on which the changes proposed to be effected are of considerable importance.

By Section VI every mortgage deed will be liable to be construed as if it conferred on the mortgagee a power to sell the mortgaged property if the interest secured be in arrear for six months. Or the mortgagee may, if he prefers it, in the like event appoint or obtain the appointment of a Receiver, who will collect the rents and profits of the property and apply them to the payment of overdue interest, paying over the balance to the mortgagor. The insertion in mortgage deeds of these powers (of sale and of appointing a Receiver) has become so nearly universal in England that their omission in any one deed may fairly be presumed to be the result of accident or neglect. Whether the same presumption arises in India is a point open to consideration, and one which will doubtless receive the attention of the Council.

Section XXXIII embodies a provision which works most beneficially in England. It enables Trustees to apply the income of Trust property to the maintenance and education of infants who may be entitled to it, without the necessity of applying to any Court and even though no power so to apply it has been inserted in the Trust-deed.

The succeeding Sections down to Section XXXVII further enlarge the powers of acting Trustees and relieve them from many risks to which they are at present exposed.

The provision in Section XLII has to a very great extent superseded, in England, the necessity of instituting suits in the Court of Chancery for the administration of deceased persons' estates. It enacts in effect that an Executor or Administrator shall be at liberty to give, by advertisement in the newspapers or otherwise, the same public notices which, in the case of an administration suit, the High Court would direct to be given. Having done this, and having satisfied the claims which have been preferred within a certain interval after the notices, he will be discharged from further liability.

It has been found useful in England to permit Trustees, Executors, and Administrators to apply in a summary way for the advice and guidance of the Court of Chancery. A power to make applications of this nature to the High Court is given by Section XLIII of this Bill.

The English Statutes which in this Bill are consolidated and adapted to this country are 22 and 23 Vic., Chap 35 (*An Act to further amend the Law of Property and to relieve Trustees*), and 23 and 24 Vic., Chap. 145 (*An Act to give to Trustees, Mortgagees and others certain powers now commonly inserted in Settlements, Mortgages and Wills*). Many of their provisions have been wholly omitted as inapplicable to India.

Read the Office Memorandum from the Home Department, No. 812, dated 3rd February last, requesting to be informed of the steps that may be taken in this Department in the preparation of a scheme of the tests, mode of examination, &c., relative to Staff employment in the Foreign Department.

Read also the General Order in the Military Department, No. 332, dated 10th April 1861, respecting the formation of a Staff Corps.

His Excellency the Viceroy and Governor-General observes that the appointments under the Foreign Office, to which Officers admitted into the Staff Corps are eligible, fall under two Departments,—the Civil and the Political. Each Department possesses its own special tests for regulating promotion and advancement within it which it is not necessary to supersede. The object of the Rules now framed is to determine whether the qualifications of the Officer for employment in the Department to which he is posted, as ascertained by the examinations to be held, afford a sufficient guarantee of successful employment therein, and so to settle his claims for permanent appointment to the Staff Corps.

As under this view, the Examinations will be necessarily preliminary, it is obvious that on some points the requirements of each Department of Staff employ will form a common ground to which one Rule will apply. These points would be the period of probation, the time during probation when the Candidates may be expected to come up for examination, the mode of conducting Examinations, the constitution of the Examination Committees, and generally the standard of Examination: while the differences would almost wholly be in the nature of the subjects of examination with which each Department may be concerned.

RESOLUTION.—In accordance with the above considerations, and after a careful comparison of

the opinions of the several Officers to whom reference was made on the subject, His Excellency the Viceroy and Governor-General is pleased to issue the following Rules for the employment of Officers under the Foreign Department:—

GENERAL RULES.

I. The period of two years is fixed as the limit within which Officers admitted to the Staff Corps on probation, and entertained in either the Civil or Political Department under this Office, are required to qualify themselves to undergo the examinations hereinafter mentioned, in passing which examinations Officers will have a claim to have their services retained, and, under the orders of the Military Department, to be permanently appointed to the Corps.

II. Candidates will be admitted to examination at the end of their first year of Civil or Political employ, and thereafter at intervals of six months. Considering the long period allowed for qualifying in the Civil and Political Departments, a high standard of attainment will be required.

III. As in the case of the local Civil Examinations, the questions will be issued by a Central Committee in each local Government, Administration or Agency. The Examinations will be held at such Stations as may be considered most convenient, and will be conducted by Local Committees consisting of three or more Officers of standing and experience, who will transmit the answers with their opinion to the Central Committee, whose decision will be final.

IV. The qualification tests in the examinations of both Departments will have reference to two branches (A) Languages (B) General and Special Subjects hereinafter specified.

RULES FOR CIVIL DEPARTMENT.

(A) Languages.

V. As under paragraph 80 of the General Order in the Military Department, No. 332, dated 10th April 1861, Officers must have passed the P. II. Examination before admission to the Staff Corps on probation, Candidates will be required before being confirmed in the Staff Corps to pass the High Proficiency test in the Vernacular Language used in the Courts of the Province to which they may respectively be attached. If the language of record in the Courts of the Province be the Hindoostanee, then, besides passing the High Proficiency test in Hindoostanee, Candidates will be required to pass an Ordinary Examination in one of the dialects spoken in the Province which may not be the language of the Courts, *e. g.*, in the Punjab, Punjabi or Pushtoo; in the Central Provinces, Mahratta, and so on.

(B.) General and Special Subjects.

VI. Candidates will be required to show a general knowledge of Indian History; Political Economy and Jurisprudence. It will be optional with them to choose any Works on these subjects in which they may prefer to be examined, but the titles of such Works must be communicated to the Central Committee three months previous to the date of Examination.

VII. Candidates will be required to show a special knowledge of the Penal Code, the Criminal Procedure Code, and the Civil Procedure Code, as well as a familiar acquaintance with Revenue details as contained in the Directions to Revenue and Settlement Officers and the Special Revenue Rules in force in the Province in which they may be employed.

RULES FOR POLITICAL DEPARTMENT.

(A.) Languages.

VIII. Officers having already passed the P. II. Examination before admission to the Staff Corps, on probation, will be required before being confirmed to pass the High Proficiency test in Persian or Arabic and also in Mahratta or Hindoostanee.

(B.) General and Special Subjects.

IX. Candidates will be examined in the General History of India, the Treaties and Engagements of the British Government with Native States as set forth in the Volumes* now in course of publication by this Office. A special knowledge of the History of the part of the Country in which the Candidates may respectively be employed will also be required.

* "A collection of Treaties, Engagements and Sunuds relating to India and neighbouring Countries."

X. Candidates will further be required to shew a thorough acquaintance with the Penal Code, the Criminal Procedure Code, and the Civil Procedure Code; and also a fair knowledge of International Law and the conflict of Laws. They may choose for themselves the Works on the General History of India, International Law and the conflict of Laws in which they may wish to be examined; but as contained in any standard Works which in each case may be selected, the titles of such Works must be communicated to the Central Committee three months previous to the date of examination.

FINANCIAL DEPARTMENT.

No. 3200.

Fort William, the 16th July 1863.

READ a letter from the Officiating Civil Pay-Master, Fort William, No. 14, dated the 6th July 1863, enquiring, with reference to the new Rules for leave of absence to Uncovenanted Servants, whether a Deputy Magistrate who has been absent twice on sick leave for short periods, amounting in the aggregate to six months and eight days, is to be denied further leave, or to be allowed leave without pay on the third occasion of his applying for Medical leave for three months, on the ground that, by the new Rules, sick leave for three years has to be taken in neither more nor less than two periods.

RESOLUTION.—The Hon'ble the President in Council observes that, under the strict letter of the Rules for leave of absence to Uncovenanted Officers recently promulgated, an Uncovenanted Officer may be allowed leave of absence, on Medical Certificate, for a third period, *but without any allowances*. But His Honor in Council, having no doubt that the limitation of sick leave to two periods *with allowances* was intended by the Secretary of State to apply only to cases of leave of absence to England or to places beyond Indian limits, is pleased accordingly to rule that leave of absence, on Medical Certificate, taken for short periods by Uncovenanted Officers within Indian limits shall not bar a further leave of absence either in India or elsewhere, provided that the whole of the periods of absence shall not exceed three years during their entire service under Government. The allowances to be given during such Medical leaves shall be regulated by the existing Rules for sick leave, that is to say, half salary not exceeding £600 a year shall be given during the first fifteen months taken from time to time, and after the completion of fifteen months one-fourth of salary not exceeding £300 per annum for all other periods up to the limit of three years.

Ordered, that the above Resolution be published in the *Calcutta Gazette* for general information.

No. 3171.

Fort William, the 17th July 1863.

Notification.—Notice is hereby given, that the Treasury of the Secretary of State for India in Council, and of Her Majesty's Indian Government at the Station of Nagpore will, on and after the 1st of August 1863, be established at the Branch Bank opened at that Station by the Bank of Bengal. All payments to be made by or to the Secretary of State in Council, or to the Government of India, or the Chief Commissioner of the Central Provinces at the Treasury of Nagpore

aforesaid, shall and may, on and after the above-mentioned date, be made at the said Branch of the Bank of Bengal.

2. The terms on which the business of the said Treasury shall be conducted by the Branch of the Bank of Bengal are contained in the following Agreement with the Bank of Bengal.

MEMORANDUM of Agreement made the 2nd day of July, in the year of our Lord one thousand eight hundred and sitxy-three, between the Secretary of State for India in Council of the one part, and the Bank of Bengal of the other part: Whereas by an Agreement bearing date the twenty-sixth day of September, one thousand eight hundred and sixty-one, and made between the parties hereto, certain terms were agreed to, having for their object the transfer to the said Bank of the business of the Government Treasury at Fort William, and the superintendence and management by the said Bank, for the Government of India, of the issue of the Government Paper Currency for the Circle of Issue of Calcutta; and it was thereby, amongst other things, agreed that if at any time during the continuance of that Agreement, the said Bank should establish a Branch Office at any Town or place other than Calcutta, and the Governor General of India should offer to the Directors of the said Bank for the time being, and they should, on behalf of the said Bank, accept the business of Bankers to the Government of India for the District or locality within which such Branch should be established, then, and in every such case, the business so arranged to be taken up and performed by the said Bank, should be carried on under, and subject to, the provisions of that Agreement, and on the basis of certain clauses cited in the margin thereof, being the third and fifth paragraphs of the Government Memorandum of the twentieth of March, one thousand eight hundred and sixty-one, relating to the establishment of such Branch Banks, except in so far as the provisions of that Agreement, or of the said Clauses, might be modified or altered by any Special Agreement, which the parties thereto might enter into, in reference to the business so to be carried on at the particular Branch Bank: And whereas the Bank of Bengal have established a Branch Bank at (amongst other places) Nagpore, in the Central Provinces, and the Governor General in Council has offered to the said Bank (who have accepted the same) the business of Bankers to the Government of India for the Central Provinces, and the terms on which such business shall be performed have been settled and arranged between the Governor General in Council (acting in the premises on behalf of the said Secretary of State) and the Directors of the said Bank of Bengal. Now, these Presents witness that, for the purpose of carrying out the said arrangement, and in consideration of the payments and covenants hereinafter respectively mentioned and contained, and by and on the part of the said parties to these Presents respectively to be paid and performed, each of them, the said Secretary of State in Council, and the said Bank of Bengal, doth and do hereby, for himself and themselves, and his and their respective successors, covenant and agree with the other of them and their and his respective successors in manner following, that is to say—

First.—That the Bank of Bengal shall and will, from and after the time when and during the term for which this Agreement shall come and continue in operation, as hereinafter provided, keep up a Branch Bank at Nagpore aforesaid, and provide suitable offices and buildings in the City of Nagpore in a situation as near to the Revenue and other Public Offices of Government at Nagpore as conveniently may be.

Second.—That from and after the day to be appointed by Notification, as hereinafter mentioned, the business of receiving and paying money on behalf of the Supreme Government of India, and the Chief Commissioner of the Central Provinces, respectively, heretofore transacted by the Deputy Commissioner of the said District of Nagpore, shall be carried on and transacted by the Branch Bank so established and to be kept up by the Bank of Bengal at Nagpore as aforesaid, subject to the provisions of this Agreement, and to such orders and directions, with regard to receipts and payments, as may from time to time be given to the said Branch Bank, or to the Bank of Bengal by the Governor General in Council, or the Chief Commissioner of the Central Provinces, or any of the Officers of the Government of India, authorized in that behalf; and for the purpose aforesaid, such account or accounts shall be opened in their Books by the said Branch Bank with the Government of India and the Chief Commissioner of the Central Provinces as the Government of India shall from time to time direct.

Third.—That from and after the day so to be appointed by Notification as aforesaid, the Cash Balance then in the Government Treasury at Nagpore, shall be deposited with the Branch Bank at Nagpore, who shall also thereafter receive and hold for the said Government of India, and the Chief Commissioner of the Central Provinces, respectively, and subject to the orders of the said Government, and Chief Commissioner, respectively, all Monies and Balances which, but for these Presents, would have been received or held by the Deputy Commissioner of the District of Nagpore; and the said Branch Bank at Nagpore shall transact all such business for the Government of India, and the Chief Commissioner of the Central Provinces, respectively, regarding the receipt, collection, payment, and remittance of money and Securities, and other matters as is usually transacted by Bankers for their Customers, or shall be *bonâ fide* required for the exigencies of Government and for all Departments of the Public Service at the Station of Nagpore; and also all such business regarding the receipt, collection, payment, and remittance of money and Securities for and on behalf of Officers in the different Government Departments as has heretofore been usually transacted by the Deputy Commissioner at Nagpore, and shall and will transact all such last-mentioned business in such manner in respect both of Government and individual Officers of Government as may be from time to time required by the orders for the time being of the Supreme or Local Government after due notice thereof given to the said Branch Bank.

Fourth.—That from and after the day appointed in the Notification aforesaid, the said Secretary of State in Council shall pay to the said Branch Bank the actual costs and expenses of packing and remitting specie under the preceding Clause, and for which costs and expenses, contingent bills shall from time to time be submitted to the Civil Pay Master of the Government of India for the time

being, and be passed by him on approval; and shall further pay to the Bank of Bengal the yearly sum of two thousand seven hundred and sixty Rupees in full of all costs and expenses attendant on the maintenance at the said Branch Bank of the Establishment of Clerks and Servants necessary for the carrying on of the said Government Banking Account and business at the said Branch Bank at Nagpore, and the Bank shall not charge any interest or commission on the said account.

Fifth.—That by way of remuneration the said Branch Bank shall be at liberty to use and employ for its own benefit and profit all Cash Balances and Monies placed at its disposal and received as foresaid, subject to the provisions of the Charter Act of the Bank of Bengal or any future Act relating to the said Bank, and to appropriate the profit arising from such employment without being charged with any interest in account. But the safe custody of the unemployed Cash Balance from time to time in the hands of the said Branch Bank at Nagpore, so long as the same shall remain uninvested, shall be at the exclusive risk of Government in case of loss from war, disturbance, or unavoidable cause.

Sixth.—That all Returns furnished by the said Branch Bank to the head Office of the Bank of Bengal, as also all Official Reports of the Bank's Inspector on the said Branch, shall, at all times be accessible to the Auditor appointed by the Government of India, under Clause 5 of the General Agreement with the Bank of Bengal, hereinbefore mentioned and in part recited; and it shall also be in the power of the Government of India, and the Chief Commissioner of the Central Provinces, respectively, at any time, and as often as they may think fit, to cause the accuracy of the Government balance in Cash or Securities to be inspected and verified by any Officer duly authorized for that purpose, but not otherwise to interfere with the ordinary Banking operations carried on at the said Branch; and the Report of such Officer, if such as to require on the part of the said Bank an explanation, shall first be laid before the Directors of the Bank of Bengal to enable them to furnish any explanation or further information touching any of the matters referred to in the Report, and such Report, together with the explanation, shall then be submitted to the Governor General in Council, whose order, decision, or finding on such Report shall be binding and conclusive on the said Branch Bank, and the Bank of Bengal, respectively.

Seventh.—That the whole responsibility for any loss or damage which may result from, or arise in respect of, any error or mistake committed by the said Branch Bank or by any of its Officers or Agents in conducting the Government Banking business at Nagpore aforesaid shall, as between the Secretary of State for India in Council and the said Bank of Bengal, rest solely and entirely with, and shall be borne by, the said Bank of Bengal, who shall have no claim upon the said Secretary of State in Council for compensation or indemnity for, or in respect of, any such loss or damage.

Eighth.—That this Agreement, and the powers and authorities herein contained, and the covenants hereby entered into, shall come into operation, and shall continue in operation for the term of five years, from and after a day to be fixed by the Governor General in Council by Notification in that behalf which shall be published in the *Calcutta* and *Local Government Gazette* within one calendar month from the date hereof, and at the expiration of the said term, the Agreement and the powers, authorities, and covenants herein contained may, by notice in writing, from the Governor General in Council to the Directors of the Bank of Bengal for the time being, be renewed with or without any modifications as may be agreed on between the Governor General in Council and the said Directors.

Extract from a Despatch from the Right Hon'ble the Secretary of State for India, addressed to the Government of India, in the Financial Department, dated the 2nd June 1863, *No.* 92.

Letter dated 25th February 1863, No. 27.

Para. 6.—With regard to the ruling that service on a salary of 10 Sicca Rupees a month gives no claim to Pension under the Rules, I must observe that, as it has long been the practice to allow Pensions to Uncovenanted Servants whose salaries, paid in Company's Rupees, have exceeded 10 Company's Rupees a month, it seems undesirable that a higher minimum rate of remuneration should be required, as a qualification for Pension, in the case

of those who have drawn their salaries in Sicca Rupees; and I accordingly authorize you to admit to the benefit of the Pension Rules Uncovenanted Servants whose monthly salary, though paid in Sicca Rupees, has exceeded, for the required period, 10 Company's Rupees in value.

Each Bill for Travelling Allowance must be countersigned by the Zillah Judge, or a Judge of a Court of Small Causes, previous to being submitted for audit to the Civil Pay-Master. In Districts where there is a Principal Court of Small Causes, Bills for Travelling Allowance of the Establishment of the Judges of Subordinate Courts will be submitted through, and countersigned by the Judge of the Principal Court.

Whenever it is considered necessary to specially depute a Ministerial Officer on the Establishment of an Uncovenanted Judge by Dawk, whether in company with his superior, or alone, such Officer is to draw an allowance of four annas per mile. Bills on this account will be passed in the manner described above.

Whenever practicable, Uncovenanted Judges and their Establishments should travel by Rail and not by Dawk.

When Travelling by Rail the actual cost of the Railway Ticket is to be allowed in lieu of mileage both to Uncovenanted Judges and their Ministerial Officers. The former will be entitled to First Class Tickets. Of the latter, Officers drawing salaries of Rupees 50 a month or upwards will be entitled to Second Class, and those drawing less than that sum to Third Class Tickets.

The 15th October is fixed as the latest date up to which articles for exhibition will be received, and all contributions should therefore be sent so as to reach Lahore by that date at latest, but in order to secure proper arrangements of the collection it is desirable that the latest date should be anticipated by some weeks.

Great inconvenience would be saved if the list could be prepared in a book form, not upon unwieldy sheets of paper in complicated folds.

PRIZE LIST

OF

THE PUNJAB EXHIBITION OF 1863.

FROM amongst the several classes of articles enumerated in the general Prospectus as suitable for admission into the Punjab Exhibition, the Committee have selected the following as those to which prizes will be awarded from the general funds, provided that sufficiently meritorious specimens should be exhibited; and they have entered also the ratios in which prizes will be allotted to the several classes here specified.

A certificate on parchment will accompany each prize, and with a view to give a greater value to the award where the amount available is small, it is in contemplation to give medals if they can be prepared in time.

At present, however, the entire amount at the disposal of the Committee for distribution in prizes is Rupees 2,000; and although they have restricted the prize classes to the smallest number which appears compatible with the attainment of the object in view, they cannot but feel that this sum is wholly insufficient for the purpose, and they are constrained, accordingly, to solicit the contributions of the public, in order to increase the value of the prizes, and perhaps, also, their number. If an increased income become available from the sale of admission tickets or otherwise, the Committee will gladly make such additions to the fund as may thus be rendered practicable; but without assistance from the Punjab public interested in the undertaking they cannot expect it to be raised to an amount worthy of the occasion.

The following is the selection and distribution of classes determined on by the Committee.

The sum of money allotted is supposed to be divided into 1,000 shares, and these will be distributed in the following proportions :—

The above Shares represent the limit that can be awarded by the jurors in any one class, but it will be left entirely to them to decide whether the sum allotted shall be given to one, or divided between two or more specimens of merit, and if, in the opinion of the Judges, sufficient merit is not shewn in any class, then it shall be competent for them to award a part only, or more, as the case may require.

The savings on this head will go to swell the prizes allotted to more meritorious specimens in other classes.

No prizes will be given for any specimen that has not in its manufacture or formation some distinct relation to the Punjab or its Dependencies.

It is not possible to specify beforehand what description of articles will be selected in each class for prizes; but in the allotment of these rewards, the following qualities will principally be considered, *viz.*, general excellence of manufacture, applicability to the purpose intended, and beauty of design; together with comparative cheapness in Sections A. B. and C. Any advantageous novelty, either in the material used, or in the mode of manufacture, will receive due consideration.

Besides the articles above enumerated, the following have been selected by private individuals, who have offered the prizes herein indicated for the several articles entered opposite the names of each, respectively:—

Should other individuals desire, in like manner, to offer prizes for articles, or classes of articles, not named in the foregoing schedule, the Committee would suggest the following as amongst those suitable for this purpose. Should the Committee find themselves hereafter to be in possession of a Prize Fund of larger amount than is contemplated at present, they will be prepared themselves to grant prizes for these or other articles. But, in the meantime, should any desire to connect their donation with particular articles, in preference to adding to the General Fund, their names and the amounts of the prizes offered, if communicated to the Secretary, will be entered in a list of additional prizes, which will from time to time be published in the *Gazette*; and a complete list will be circulated for the information of the Public at least a month before the last date fixed for the receipt of articles.

Notice

Is hereby given, that in terms of the Notifications of 18th June and 3rd July, published in the *Government Gazette* of the 20th June and 8th July respectively, and agreeably to the provisions of Section CLXII. of Act VI. of 1863, the Collector of Customs is prepared to receive from Cargo Boat owners and others applications for the licensing and registration of Cargo Boats.

2. Each application must contain particulars of the owner's name and residence, and the tonnage of the Boat.

3. The applications will be made over to the Marine Surveyor in order of priority of receipt, in order that the Boats may be surveyed and reported on by him. A Fee of 5 Rupees will be charged for the survey of each Boat.

4. Cargo Boats licensed for one year will be allowed to ply for that period without a fresh survey; but Cargo Boats licensed for a longer period will, if it be though necessary by the Authorities, be subject to re-survey after the expiration of twelve months from the last survey, and upon the report of the Surveying Officer will depend the continuance or withdrawal of their License.

5. The Licenses will be current for one year only from date of registration. A Fee of 1 Rupee will be charged on the issue of each License, and also on its renewal every year.

6. The License must be produced whenever demanded, and should, therefore, be in the custody of the Manjee of the Boat for the time being.

7. Cargo Boats the Manjees of which shall not produce their Lincenses when called upon will be treated as unlicensed Boats, unless good cause be shewn to the contrary.

8. Shippers, Landing Agents, and the Public generally are required to take notice that goods found on board of an unlicensed Boat are liable to confiscation unless covered by a *special* permit from the Officer in charge of the Custom House.

Government of Bengal.

Survey of the Khasyah Hills.

From the HON'BLE A. EDEN, Officiating Secretary to the Government of Bengal, to the Surveyor-General of India,—(No. 2971, dated the 24th November 1862.)

I AM directed by the Lieutenant-Governor to enquire if you can make arrangements for a Topographical Survey of the Spur of Hill Country lying between the Valley of Assam on the north, and Mymensing, Sylhet, and Cachar on the south, and extending from the western extremity of the Garrow Hills to the eastern boundary of North Cachar.

2. If this can be done, I am to request that you will report when the work can be undertaken, how long it will probably occupy, and what the cost will be; also, that you will submit a plan by which it may be most effectually completed in a moderate period.

From LIEUTENANT-COLONEL H. L. THUILLIER, Surveyor-General of India, to the Secretary to the Government of Bengal,—(No. 1, dated the 13th January 1863.)

I HAVE the honor to acknowledge the receipt of your letter No. 2971, dated 24th ultimo, enquiring whether a Topographical Survey of the Garrow, Cossyah, Jynteah, and Naga Hills can be arranged for; what time such a Survey would take; what it would cost; and by what plan it might most effectually be completed in a moderate period.

2. In reply, I beg to state, for the information of His Honor the Lieutenant-Governor, that a Topographical Survey of such a particularly hilly tract of country can only be made by Officers specially trained and employed for such description of work which demands a trigonometrical basis throughout, with the features sketched in by Plane Tablers competent to delineate difficult hilly ground.

3. The existing Topographical Survey parties under my orders, five in number, are already numerically weak, and composed to a considerable extent of new hands, owing to the recent formation of a new party for Rewah, so that I can hardly hope to be able to raise an entire new party next season of the strength required for the Survey of so difficult a tract of mountain country as the Lieutenant-Governor proposes to have surveyed.

4. But with the assistance of the Superintendent, Great Trigonometrical Survey, in furnishing a competent Officer, there will, I trust, be no great difficulty in organizing a small party to commence work in the ensuing season of 1863-64, and expanding it gradually to full strength afterwards, and Major Walker has been applied to accordingly on the subject. A copy of his reply, as per margin, is enclosed, from which it will be observed that the services of Captain Godwin Austen, an accomplished Officer of several years' experience in the Kashmir Survey, as well as one Assistant, will be available by the 1st October next, and with these as a nucleus of an Establishment I should have every hope of carrying the work forward systematically and well.

No. 4, dated 3rd January 1863.

5. Past experience has proved that cheap Surveys on the smaller scales of one-half and one-fourth inch to the mile only entail double expenditure, as it has invariably been necessary to re-do the work on the scale of one mile to one inch for Revenue and Engineering purposes. His Excellency the Governor-General in Council in sanctioning lately the Survey of Rewah declared in favor of the standard scale of one mile to the inch as the only one suited for Revenue, Military, and

Geological purposes; the adoption of the same scale for the Survey of the hills south of the Assam Valley will therefore be the most advisable.

6. The cost of the Survey on this scale, including the triangulation, would be, under favorable circumstances, about Rupees 18 per square mile, and the probable time such an area would occupy would be about five years.

7. A detail Estimate for a Topographical party of the usual strength is hereto annexed, amounting to the sum of Rupees 61,414 as per margin. This is similar to all the other parties, but the total expense might not be worked up to the first year or two. Every new party must commence by degrees, and work up to full strength as the capacity and experience of the Subordinates admit. If the new Survey is started in October 1863, the commencement of our professional season, there would be only six months' expenses to include in the Budget for 1863-64, as given in the margin.

8. With the above information, I await the further expression of His Honor's wishes on the subject.

From Major J. T. Walker, Superintendent, Great Trigonometrical Survey, to the Surveyor-General, Calcutta,—(No. 3, dated the 3rd January 1863.)

In reply to your No. 82, dated 20th ultimo, I have the honor to inform you that the services of Captain Austen can be made available for the charge of a party to survey the Garrow and Cossyah Hills, though I shall greatly regret the loss of such a valuable Officer, whom it will be very difficult for me to re-place. Captain Montgomerie is anxious to secure Captain Austen's services for the next Field Season in Kashmir, which would employ him up to the 1st October. But if his services are required at an earlier period for the proposed Survey, arrangements can be made to place them at your disposal from the 1st May.

2. I am unable to transfer any Sub-Assistants to the Topographical Department without serious detriment and inconvenience to this Department, nor any Uncovenanted Officer, but Mr. Civil Assistant W. H. Johnson, whom I recommended for appointment to the Gwalior Survey in my letter No. 1456, dated 29th July last. This would enable an Assistant to be transferred from the Gwalior to the Cossyah Survey.

H. L. Thuillier, *Lieut.-Colonel,*
Surveyor-General of India.

From S. C. Bayley, Esq., Officiating Junior Secretary to the Government of Bengal, to the Secretary to the Government of India, Home Department,—(No. 6[illegible], dated the 11th February 1863.)

I am directed by the Lieutenant-Governor to submit, for the consideration and orders of His Excellency the Governor-General in Council, the accompanying copy of correspondence marginally noted, relative to the survey of the spur of hill country lying between the Valley of Assam on the north, and Mymensing, Sylhet, and Cachar on the south, and extending from the western extremity of the Garrow Hills to the eastern boundary of North Cachar.

To Surveyor-General of India, No. 2971, dated 24th November 1862.
From Surveyor-General of India, No. 1, dated 13th ultimo.

2. I am to state that the Lieutenant-Governor strongly recommends the early commencement of this work, and begs that permission may be given to provide for Rupees 31,707 in the Budget of 1863-64 for this purpose.

Extract from the Proceedings of the Lieutenant-Governor of Bengal,—(No. 3230, dated the 30th April 1863.)

Read again letter No. 378, dated the 15th January last, from the Secretary to the Government of India, Home Department, regarding the proposed operations during the campaign in the Khasyah Hills.

Order.—Ordered, that Extract copy, paragraphs 1 and 7, be forwarded to the Revenue Department of this Office, with reference to the question of the survey of the country.

Extract from a Letter from the Secretary to the Government of India, Home Department, to the Secretary to the Government of Bengal,—(No. 378, dated the 15th January 1863.)

Para. 1.—I am directed to acknowledge the receipt of your Office letter dated the 9th ultimo, No. 5161, with an enclosure, regarding the proposed operations during the ensuing campaign in the Khasyah Hills; and in reply to state that the measures ordered by Brigadier-General Showers, so far as they can be judged without a map, appear to the Governor-General in Council to be judicious.

Para. 7.—His Excellency in Council is not aware what arrangements have been made for completing the survey of the country. The opportunity of doing it under the protection of the Troops, I am desired to state, should not be lost.

From S. C. BAYLEY, ESQ., Officiating Junior Secretary to the Government of Bengal, to the Secretary to the Government of India, in the Home Department,—(No. 1856, dated the 6th May 1863.)

WITH advertence to paragraph 7 of your letter No. 378, dated the 15th July last, I am directed to solicit the attention of His Honor the President in Council to the letter from this Office, No. 643, dated the 11th February last, in which permission to expend a sum of Rupees 31,707 on the survey of the Khasyah Hills was solicited.

2. The Lieutenant-Governor desires me to say that he attaches very great importance to the completion of the survey of that part of the country, and to request that the necessary sanction may be communicated as soon as possible, and that its cost for the first year, *viz.*, Rs. 31,707, may be met by a special grant.

From E. C. BAYLEY, ESQ., Secretary to the Government of India, Home Department, to S. C. BAYLEY, ESQ., Officiating Junior Secretary to the Government of Bengal, —(No. 4110, dated the 29th June 1863.)

I AM directed to acknowledge the receipt of your letters Nos. 643 and 1856, dated respectively the 11th February and 6th ultimo, conveying the strong recommendation of the Hon'ble the Lieutenant-Governor for "the survey of the spur "of hill country lying between the Valley of Assam "on the north, and Mymensing, Sylhet, and "Cachar on the south, and extending from the "western extremity of the Garrow Hills to the "eastern boundary of North Cachar;" and in reply to inform you, that concurring with the Lieutenant-Governor in opinion as to the importance of the proposed survey, the President in Council is pleased to sanction its being undertaken in the manner proposed.

2. The President in Council is not sure how far the tract of country which it is proposed to survey is likely to attract the attention of European Settlers, or to what extent the land is available for disposal to such persons; but if the Lieutenant-Governor should consider that the settlement of Europeans in the tract in question can be advantageously encouraged, he will doubtless cause the survey to be so conducted that it may be practically available in furtherance of that object.

3. The further orders required to give effect to this Resolution will be duly issued through the Financial Department.

LEGISLATIVE.

The following Bill and the Statement of Objects and Reasons accompanying it are, under the 19th of the Rules for the Conduct of Business at Meetings of the Council of the Governor-General of India for the purpose of making Laws and Regulations, published for general information by order of His Excellency the Governor-General:—

A Bill to repeal Act VIII of 1861 *(for the levy of Port-dues in the Port of Amherst.)*

Preamble. WHEREAS it is expedient that Act VIII of 1861 *(for the levy of Port-dues in the Port of Amherst)* be repealed; It is enacted as follows:—

Act VIII of 1861 repealed. I. Act VIII of 1861 is hereby repealed.

Date on which Act comes into operation. II. This Act shall come into operation on the day of 1864.

STATEMENT OF OBJECTS AND REASONS.

FROM representations made by the principal Merchants of Moulmein, and seconded both by the Commissioner of the Tenasserim Provinces and the Chief Commissioner of British Burmah, it appears that the levy of Port-dues at Amherst has not proved beneficial. That Port has no trade—certainly none of any importance; and vessels almost invariably call there only for orders. The amount realized by the Port-dues does not exceed 1,200 rupees per annum, while much inconvenience is caused, and vessels are deterred from entering the Port merely by the fact of the existence of the duties. Moulmein is consequently placed in a worse position than Rangoon, for vessels may enter the Rangoon River for orders without becoming liable to the payment of any duty. Under these circumstances, it is desirable to repeal Act VIII of 1861; its repeal will enable ships to enter the Port of Amherst without charge, and the Moulmein river will thus be put on an equal footing with that of Rangoon. Amherst will still remain a Port within the meaning of Act XXII of 1855, and subject to the Rules which have been made in accordance with the provisions of that Act.

A. G. MACPHERSON,
Offg. Depy. Secy. to the Govt. of India,

Leases.

Restriction on effect of license to alien.

XX. Where any license to do any act which without such license would create a forfeiture, or give a right to re-enter, under a condition or power reserved in any lease heretofore granted or to be hereafter granted, shall at any time after this Act comes into operation be given to any lessee or his assigns, every such license shall, unless otherwise expressed, extend only to the permission actually given, or to any specific breach of any proviso or covenant made or to be made, or to the actual assignment, under-lease, or other matter thereby specifically authorized to be done, but not so as to prevent any proceeding for any subsequent breach (unless otherwise specified in such license); and all rights under covenants and powers of forfeiture and re-entry in the lease contained shall remain in full force and virtue, and shall be available as against any subsequent breach of covenant or condition, assignment, under-lease, or other matter not specifically authorized or made dispunishable by such license, in the same manner as if no such license had been given; and the condition or right

of re-entry shall be and remain in all respects as if such license had not been given, except in respect of the particular matter authorized to be done.

Restricted operation of partial licenses.

XXI. Where in any lease heretofore granted or to be hereafter granted, there is or shall be a power or condition of re-entry on assigning or under-letting or doing any other specified act without license, and a license at any time after the passing of this Act shall be given to one of several lessees or co-owners to assign or under-let his share or interest, or to do any other act prohibited to be done without license, or shall be given to any lessee or owner, or any one of several lessees or owners, to assign or under-let part only of the property, or to do any other such act as aforesaid in respect of part only of such property, such license shall not operate to destroy or extinguish the right of re-entry in case of any breach of the covenant or condition by the co-lessee or co-lessees, or owner or owners, of the other shares or interests in the property, or by the lessee or owner of the rest of the property (as the case may be) over or in respect of such shares or interests or remaining property, but such right of re-entry shall remain in full force over or in respect of the shares or interests or property not the subject of such license.

Apportionment of conditions of re-entry in certain cases.

XXII. Where the reversion upon a lease is severed, and the rent or other reservation is legally apportioned, the assignee of each part of the reversion shall, in respect of the apportioned rent or other reservation allotted or belonging to him, have and be entitled to the benefit of all conditions or powers of re-entry for non-payment of the original rent or other reservation, in like manner as if such conditions or powers had been reserved to him as incident to his part of the reversion in respect of the apportioned rent or other reservation allotted or belonging to him.

Rent-charges.

Release of part of land charged not to be an extinguishment.

XXIII. The release from a rent-charge of part of the lands and hereditaments charged therewith shall not extinguish the whole rent-charge, but shall operate only to bar the right to recover any part of the rent-charge out of the lands and hereditaments released, without prejudice nevertheless to the rights of all persons interested in the lands and hereditaments remaining unreleased, and not concurring in or confirming the release.

Powers.

As to distribution of the assets of Testator or intestate after notice given by Executor and Administrator

XLII. Where an Executor or Administrator shall have given such or the like notices, as in the opinion of the Court in which such Executor or Administrator is sought to be charged would have been given by the High Court in an administration suit, for creditors and others to send in to the Executor or Administrator their claims against the estate of the Testator or intestate, such Executor or Administrator shall, at the expiration of the time named in the said notices, or the last of the said notices, for sending in such claims, be at liberty to distribute the assets of the Testator or intestate, or any part thereof, amongst the parties entitled thereto, having regard to the claims of which such Executor or Administrator has then notice, and shall not be liable for the assets or any part thereof so distributed to any person of whose claim such Executor or Administrator shall not have had notice at the time of distribution of the said assets or a part thereof, as the case may be; but nothing in the present Act contained shall prejudice the right of any creditor or claimant to follow the assets or any part thereof into the hands of the person or persons who may have received the same respectively.

Trustee, Executor, &c, may apply by petition to Judge of High Court for opinion, advice, &c, in management, &c, of Trust property.

XLIII. Any Trustee, Executor, or Administrator shall be at liberty, without the institution of a suit, to apply by petition to any Judge of the High Court, or by summons upon a written statement to any such Judge at Chambers, for the opinion, advice, or direction of such Judge on any question respecting the management or administration of the Trust property or the assets of any Testator or intestate, such application to be served upon or the hearing thereof to be attended by all persons interested in such application, or such of them as the said Judge shall think expedient; and the Trustee, Executor, or Administrator acting upon the opinion, advice, or direction given by the said Judge shall be deemed, so far as regards his own responsibility, to have discharged his duty as such Trustee, Executor, or Administrator in the subject matter of the said application; provided nevertheless, that this Act shall not extend to indemnify any Trustee, Executor, or Administrator in respect of any act done in accordance with such opinion, advice, or direction as aforesaid, if such Trustee, Executor, or Administrator shall have been guilty of any fraud or wilful concealment or misrepresentation in obtaining such opinion, advice, or direction; and the costs of such application as aforesaid shall be in the discretion of the Judge to whom the said application shall be made.

General Provisions.

Tenants for life, &c., may execute powers, notwithstanding incumbrances.

XLIV. For the purposes of this Act, a person shall be deemed to be entitled to the possession or to the receipt of the rents and income of land or personal property, although his estate may be charged or incumbered, either by himself or by any former owner, or otherwise howsoever to any extent; but the estates or interests of the parties entitled to any such charge or incumbrance shall not be affected by the acts of the person entitled to the possession or to the receipt of the rents and income as aforesaid, unless they shall concur therein.

Operation of Act.

XLV. The provisions contained in this Act shall, except as hereinbefore otherwise provided, extend only to persons entitled or acting under a Deed, Will, Codicil, or other Instrument executed after this Act comes into operation, or under a Will or Codicil confirmed or revived by a Codicil executed after that date, and only to property in British India and to cases to which English Law is applicable.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill is intended to introduce into the English Law of Property as applied in India a number of improvements which have from time to time been effected in that law by the Statutes known as Lord St. Leonard's Acts. The exact limits of the English Law of Property in India do not seem to have ever been accurately ascertained. But there can be no doubt that, through the purchase of land under the waste land rules, and through its acquisition by Englishmen in the Mofussil on tenures analogous to fee-simple, those limits must be constantly enlarging themselves. If in cases to which English law is applicable the conveyances by which rights are transferred are briefly or hastily framed, some of the provisions of this Bill will probably be found of special utility.

There may not appear to be much obvious connection between many of the subjects affected by the Bill, but this miscellaneous character belongs also to the English Statutes on which the Bill is founded, which were not directed to the general re-construction of any one department of law. The object of the learned author of these Statutes seems rather to have been to apply remedies to various defects which the practical working of the English law of property has disclosed, and to mitigate inconveniences which experience has shewn to be perpetually occasioned by errors and omissions in legal instruments.

Much of the Bill refers to improvements of a wholly technical character, but attention must be drawn to one or two points, on which the changes proposed to be effected are of considerable importance.

By Section VI every mortgage deed will be liable to be construed as if it conferred on the mortgagee a power to sell the mortgaged property if the interest secured be in arrear for six months. Or the mortgagee may, if he prefers it, in the like event appoint or obtain the appointment of a Receiver, who will collect the rents and profits of the property and apply them to the payment of overdue interest, paying over the balance to the mortgagor. The insertion in mortgage deeds of these powers (of sale and of appointing a Receiver) has become so nearly universal in England that their omission in any one deed may fairly be presumed to be the result of accident or neglect. Whether the same presumption arises in India is a point open to consideration, and one which will doubtless receive the attention of the Council.

Section XXXIII embodies a provision which works most beneficially in England. It enables Trustees to apply the income of Trust property to the maintenance and education of infants who may be entitled to it, without the necessity of applying to any Court and even though no power so to apply it has been inserted in the Trust-deed.

The succeeding Sections down to Section XXXVII further enlarge the powers of acting Trustees and relieve them from many risks to which they are at present exposed.

The provision in Section XLII has to a very great extent superseded, in England, the necessity of instituting suits in the Court of Chancery for the administration of deceased persons' estates. It enacts in effect that an Executor or Administrator shall be at liberty to give, by advertisement in the newspapers or otherwise, the same public notices which, in the case of an administration suit, the High Court would direct to be given. Having done this, and having satisfied the claims which have been preferred within a certain interval after the notices, he will be discharged from further liability.

It has been found useful in England to permit Trustees, Executors, and Administrators to apply in a summary way for the advice and guidance of the Court of Chancery. A power to make applications of this nature to the High Court is given by Section XLIII of this Bill.

The English Statutes which in this Bill are consolidated and adapted to this country are 22 and 23 Vic, Chap 35 (*An Act to further amend the Law of Property and to relieve Trustees*), and 23 and 24 Vic., Chap. 145 (*An Act to give to Trustees, Mortgagees, and others certain powers now commonly inserted in Settlements Mortgages, and Wills*). Many of their provisions have been wholly omitted as inapplicable to India.

FINANCIAL DEPARTMENT.

No. 3321.

Fort William, the 23rd July 1863.

Read again the Financial Resolutions, under date the 22nd August 1861 and 3rd January 1862, on the subject of the transfer of the business of the late General Treasury to the Bank of Bengal.

Read a letter from the Secretary and Treasurer of the Bank of Bengal, No. 2205, dated the 22nd June 1863, and a further letter, dated 20th July 1863, expressing the readiness of the Directors of the Bank to undertake the management of the Government Savings' Bank on the conditions named by him.

RESOLUTION.—On the 22nd August 1861 this Government remarked, with reference to the suggestions of the Committee appointed to report on the transfer of the duties of the late General Treasury, that, if the transfer of the Government Savings' Bank to the Bank of Bengal were made at all, it would only be fair to the Bank that they should be allowed to work it on their own system, and under the exclusive control of their own Officers; but, looking to the constitution of the Government Savings' Bank as set forth by the Committee, to the circumstances that the Bank of Bengal could not accommodate the Government Savings' Bank Establishment on its premises, and to the possibility of objections arising in connection with the delegation to the Secretary of the Bank of Bengal of the Judicial powers exercised by the Secretary to the Government Savings' Bank under Act XXVI. of 1855, this Government resolved to leave for a time the Government Savings' Bank under the charge of the Accountant-General to the Government of India, the Bank of Bengal merely acting as its Bankers.

The Secretary and Treasurer of the Bank of Bengal now expresses the readiness of the Bank to undertake the management of the Government Savings' Bank on the following conditions:—

I. That the Bank being responsible should be allowed to manage the Savings' Bank exclusively with their own Officers and employés.

II. That a sum equal to the present charge for the Office of the Government Savings' Bank, less charges on account of audit and the cost of Books and other bare disbursements for paper, &c., be allowed on audited Bills.

III. That the Secretary and Treasurer of the Bank of Bengal should act as Secretary of the Government Savings' Bank gratuitously, and that the monthly allowance for Establishment be divided among the Subordinates of the Bank of Bengal and a Native Staff.

IV. That the Savings' Bank be open, and attendance be given daily for the same number of hours as in the Bank of Bengal.

V. That the Government will retain power to exercise the right of audit and general supervision over the affairs of the Bank.

The Hon'ble the President in Council is accordingly pleased to sanction the transfer of the Government Savings' Bank at Calcutta to the Bank of Bengal from the 1st September on the conditions suggested by the Bank, and to direct that the allowance to the Bank, exclusive of bare disbursements for paper, &c., shall be limited to Rupees 750 a month, the remainder of the present charge for the Establishment of the Government Savings' Bank being reserved by Government as a provision for the expense of auditing the Accounts of the Savings' Bank.

ORDER.—Ordered, that a copy of the above Resolution be sent to the Secretary and Treasurer of the Bank of Bengal, the Accountant-General to the Government of India, the Deputy-Auditor and Accountant-General, Bengal, and to the Secretary of the Government Savings' Bank for information and guidance, and that the Accountant-General will arrange the details of the transfer with the Secretary and Treasurer of the Bank of Bengal.

Ordered also, that the above Resolution be published in the *Calcutta Gazette* for general information.

No. 3322.

The Secretary and Treasurer of the Bank of Bengal is appointed to be Secretary of the Government Savings' Bank from 1st September 1863.

Government of Bengal.

Annual Report of the Calcutta Eye Infirmary.

From DR. S. MCCLELLAND, Officiating Principal Inspector-General, Medical Department, to the HON'BLE A. EDEN, Secretary to the Government of Bengal,—(No. 195, dated the 8th June 1863.)

I HAVE the honor to forward, herewith, for submission to His Honor the Lieutenant-Governor of Bengal, the Annual Report of the Calcutta Eye Infirmary for the year ending 31st March 1863.

2. The number of persons who sought relief during the twelve months was slightly less than in the annual period immediately preceding, but the Report generally is very satisfactory, and Dr. Archer's operations for the extraction of Cataract have proved highly successful.

3. This result is the more deserving of attention, and more creditable to the management of the Surgeon, because the Ophthalmic Wards are, as stated in the concluding paragraph of his transmitting letter, "mere cellar beneath the Hospital, without proper ventilation, drainage, or light." The desire expressed by him to have more suitable accommodation placed at his disposal for the reception and treatment of the many sick entrusting themselves to his care is so just and reasonable that I would respectfully trust that any plans submitted with a view to supply in the contemplated new Buildings these acknowledged wants will meet with the favorable consideration of the Lieutenant-Governor.

4. I beg leave to add that the Annual Return, &c., of the Charity Hospitals and Dispensaries in Bengal will be due on the 1st of next month, when no time will be lost in completing and submitting it to His Honor. The other Returns alluded to have been forwarded with this Office letters Nos. 21 and 26, dated, respectively, the 30th April and 6th May last.

From NORMAN CHEVERS, ESQ., M. D., Principal of the Medical College, to H. M. MACPHERSON, ESQ., M. D., Secretary to the Principal Inspector-General, Medical Department,—(No. 46, dated the 4th June 1863.)

I HAVE the honor to submit Surgeon-Major Archer's Report of the Calcutta Eye Infirmary for the year ending March 31st 1863.

In my humble opinion the evidence of the remarkable success which has attended Dr. Archer's numerous operations for the extraction of Cataract forms a most interesting and important feature in this Report.

The time having now arrived for the erection of the new College Buildings in the vicinity of the Hospital it appears advisable that steps should be taken with a view to supply, as far as possible, the chief defects and wants of the latter very incommodious Building. It is now, I believe, generally admitted by all Medical men who have seen them that the gloomy and damp Godowns in which Dr. Archer's Hospital Patients are lodged are, in the very last degree, ill adapted for the purposes of an Eye Infirmary.

Dr. Archer and I are in communication with Mr. Granville, the Architect, with a view to the selection of a proper site, and to the designing of a well-constructed Building. I trust that I shall shortly be enabled to submit propositions for the new Hospital Buildings including the Eye Infirmary.

From CHARLES ARCHER, Esq., M. D., Surgeon-Major, Bengal Army, the Superintendent of the Eye Infirmary, and ex-Officio Professor of Ophthalmic Medicine and Surgery, Medical College, to NORMAN CHEVERS, Esq., M. D., Principal of the Medical College,—(No. 63, dated the 25th May 1863.)

I HAVE the honor to submit, in accordance with the orders contained in Chapter XXXVII., paragraph 4, of the "Medical Code," an Annual Return, in triplicate, of the Calcutta Eye Infirmary, for transmission to the Principal Inspector-General of Hospitals, the Government, and the Council of the Secretary of State for India.

2. The delay in the transmission of these Returns has arisen from a wish to make them as complete as possible, for although only the Patients actually admitted during the year are included, yet the results of some of the operations were necessarily unknown until after the official year had terminated.

3. I would wish to draw the attention of the Principal Inspector-General to the results of the operations of Cataract by extraction mentioned in detail in Appendix K: these results are the more interesting as considerable doubt for a long series of years has hitherto been thrown on the expediency of performing this particular operation on the Natives of India and an inferior operation—and one which, under any circumstances, could not be productive of such favorable results—substituted.

4. In the Appendix alluded to Patients of advanced age are described as being operated on, noted especially in Case No. 28. This Patient was an infirm Hindoo woman, who was stated to be seventy-five years of age. I must acknowledge, however, that age, as given by the lower orders of Hindoos, only approximates the truth; it is sufficient to mention that she was too infirm to place herself upon the operating table, and had to be lifted there; her back was bent from age, and had to be supported. Both eyes were successfully operated on the same day, the results being satisfactory. I have alluded to this particular case as it demonstrates the fact that debility of constitution only is not sufficient to account for the failures hitherto.

5. In referring to the Appendix a very interesting result is made apparent. Out of seventy-six Patients, the subjects of Cataract, the failure of the operations in the months of November, December, and January was at the greatest average, and very few were consequently operated on during these months, the cause being the extreme depression of the system and want of proper capillary action produced by cold. Acting on this experience I have thought it advisable in future never, if possible, to operate during these months.

6. Excluding the Patients mentioned in the previous paragraph the Returns will, I hope, bear comparison with those of Ophthalmic Hospitals in Europe.

No. of Patients operated on during the year seventy-six, of these nine were operations of both eyes, making the number	85
Unsuccessful	14

If, however, the months of November, December, and January were excluded from this Return the result would be as follows:—

No. of Patients operated on ..	63
„ „ operations	71
„ „ successful operations ..	65
„ „ unsuccessful operations ..	6

7. I beg to extract the following Return from a recent periodical Journal, entitled *Annales d' Oculistique*, Bruxelles, 1862:—

"CATARACTE.—Les malades opérés de cataracte "furent au nombre de cinquante-cinq parmi les- "quels vingt et un ont été opérés aus deux yeux, "ce qui donne un chiffre de soixante et seize opé- "rations pour l' année. L'issue deces soixante et "seize opérations donne les résultats suivants:—

"Succés complets ..	66
"Demi-succés ..	1
"Insuccés ..	9"

8. It may be further observed that some of the operations in the Calcutta Hospital were performed, not for the purpose of restoring sight, but in one case for the relief of inter-ocular pressure produced by the irritation of the lens which had been displaced; and in two other cases the operation was had recourse to at the urgent requests of the Patients themselves, with the uncertain hope of giving a small amount of sight, they having been previously told how slight the chances of recovery were.

9. The rapid recoveries are worthy of notice, usually without one single untoward symptom, and, as will be observed, some have attended as out-Patients four days after the operation, the eye, however, being closed for a considerable time afterwards.

10. The Patients are kept on full diet, and the exhibition of Cod Liver Oil, which is frequently given in cases of debility previous to operation, is subsequently not discontinued until recovery; milk and sugar likewise are given in abundance, and the eye-lids are brought together by a silver suture in the manner mentioned in my last Report, as first introduced by Dr. Macnamara.

11. I would, in conclusion, urgently draw the attention of the Principal Inspector-General to the state of the Ophthalmic Wards: they are mere cellars beneath the Hospital, without proper ventilation, drainage, or light, the latter having now become a requirement absolutely necessary for the efficient performance of these delicate operations by extraction: an Operating Theatre, specially adapted to the purpose, and a Reception Room for out-door Patients would cost but a trifle, and would be of inestimable benefit to the Department over which I have the honor to preside.

Calcutta Ophthalmic Hospital,
May 1863.

Charles Archer, M. D., *Surgeon-Major,*
Superintendent of the Eye Infirmary.

Extract from the Proceedings of the Lieutenant-Governor, in the Medical Department, under date the 25th June 1863.

READ a letter from the Officiating Principal Inspector-General, Medical Department, No. 195, dated the 8th instant, submitting the Annual Report of the Calcutta Eye Infirmary for the year ending 31st March 1863.

RESOLUTION.—The Lieutenant-Governor observes, from the Return submitted, that thenumber of in-door patients during the period in question was 499, which is precisely the same number as was shewn in the previous year's Return. The Inspector-General, Medical Department, points out that of the out-door patients there appears to be a slight falling off, the number being 3,039 against 3,112, last year. The falling off in the number of daily visits of out-door patients is, however, only 468 from an aggregate of 28,404, a decreased attendance which is utterly insignificant when compared with the increase to 28,404 in 1862, from 16,199 in 1858-59, and from 11,508 in 1857-58.

2. Of the total number of cases in which operations were performed, *viz.*, 159, there appear to have been ninety-eight complete cures, twenty-nine partial cures, and twenty-one failures.

3. In regard to the operations for the extract of cataract, the Lieutenant-Governor observes that out of a total of eighty-five patients there were only fourteen cases of failure. Dr. Archer is of opinion that November, December, and January are the least favorable months for performing such operations, and he therefore purposes to discontinue them during those months.

4. The Lieutenant-Governor considers that very great credit is due to Dr. Archer for the success which has attended his operations during the year under review, more especially in regard to the difficult operations for the extraction of cataract, the marked success of which is a new feature in the history of ophthalmic surgery in this country.

5. In respect to the proposal made by Dr. Archer, and recommended strongly both by the Officiating Principal Inspector-General, Medical Department, and the Principal of the Medical College, for the construction of an operating theatre and reception room, the Lieutenant-Governor has no doubt that an operating theatre ought to be provided, and he requests that the Principal Inspector-General of the Medical Department will report whether the ophthalmic operations might not be carried on in another part of the Medical College Building, a room being, if necessary, fitted up for the purpose. In regard to the present Wards, His Honor observes that they were expressly chosen for the reception of the eye patients when the old Eye Infirmary was abolished, as being particularly suitable from their coolness and subdued light. And in submitting any proposal to abandon them as unsuited to the purposes of an Eye Infirmary the Inspector-General should carefully consider the correspondence which passed on the subject in 1852 and 1853 when they were first applied to their present use.

Government of India.

Contribution of Rupees 1,00,000 of Mr. Cowasjee Jehangeer towards the erection of Buildings for the University of Bombay.

From the HON'BLE H. L. ANDERSON, Chief Secretary to the Government of Bombay, to E. C. BAYLEY, ESQ., Secretary to the Government of India, Home Department,—(No. 6, dated the 29th May 1863.)

I AM directed to intimate to you, for the information of the Hon'ble the President in Council, that the Vice-Chancellor of the University of Bombay has communicated to this Government the offer of Mr. Cowasjee Jehangeer to contribute the munificent sum of Rupees 1,00,000 (one lakh) towards the erection of Buildings for the University of Bombay on the following conditions:—

(I.)—That Government will contribute the remainder of the sum necessary for the Buildings.

(II.)—That Government will be pleased to grant a site in the New Town on the Esplanade.

(III.)—That no subscription from any other private person be received for this object.

2. In reply the Vice-Chancellor has been informed that His Excellency the Governor in Council has much satisfaction in accepting, on behalf of the University of Bombay, and subject to the approval of the Government of India and that of Her Majesty's Principal Secretary of State for India, this noble gift of Mr. Cowasjee Jehangeer on the conditions prescribed, and that an expression of the admiration with which Government has received Mr. Cowasjee Jehangeer's munificent offer has been communicated to that gentleman.

3. Sir A. Grant has been further informed that His Excellency in Council understands the third condition specified in Mr. Cowasjee Jehangeer's letter as implying that a Building for the University is to be completed at the joint expense of that gentleman and of Government without accepting contributions from any other course, so that it may form in itself a separate and permanent monument of Mr. Cowasjee Jehangeer's desire to provide the University with a local habitation; but that, as the duties and wants of the University increase, His Excellency in Council hopes that the example so worthily set by Mr. Cowasjee Jehangeer will be followed by other University benefactors, and that this Government feel assured that that gentleman would be the last person to exclude those who may wish to follow his noble example from adding to or adorning the Edifice which he has been the first to raise.

4. I am desired to add that the Syndicate of the University has been requested formally to accept the gift with its liabilities, and with the Government augmentation, and to undertake the general direction and oversight of the work in the same manner as the Committee appointed by Government in the case of the Elphinstone College.

5. In the mean time I am desired to report these Proceedings for the approval of His Honor the President in Council.

From E C. BAYLEY, Esq., Secretary to the Government of India, Home Department, to the HON'BLE H. L. ANDERSON, Chief Secretary to the Government of Bombay,—(No. 4130, dated the 29th June 1863.)

I AM directed to acknowledge the receipt of your letter No. 6, dated 29th ultimo, reporting the acceptance by the Government of Bombay of Mr. Cowasjee Jehangeer's donation of one lakh of Rupees towards the erection of Buildings for the Bombay University on certain conditions mentioned, and in reply to state that the Hon'ble the President in Council fully approves of the proceedings of the Governor in Council in the matter, and desires to add his entire concurrence in the expression of admiration with which His Excellency in Council has received this very liberal gift.

2. The Government of India will give its early and careful attention to any Plan and Estimate for the Building which the Government of Bombay may see fit to recommend.

From the Secretary of State for India, to His Excellency the Hon'ble the Governor in Council, Bombay,—(dated London, the 17th June 1863.)

I HAVE considered in Council your letter dated 27th March, No. 2, 1863, and have to signify my general approval of your acceptance of the munificent offer of Mr. Cowasjee Jehangeer to contribute a lakh of Rupees towards the construction of a Building for the Elphinstone College.

2. I await the result of the deliberations of the Committee which you appointed to consider the best means for giving effect to the offer of Mr. Cowasjee Jehangeer; and in the meantime I will only remark, with reference to the third condition attached to his offer, that, whatever may be done towards meeting the wish of Mr. Cowasjee Jehangeer, no designation of the Building should be sanctioned which would in any way interfere with the present appellation of the College as a Memorial of the respect and admiration entertained by the Government and community of Bombay for the late Mr. Mountstuart Elphinstone.

It shall be lawful for the Commissioner of Police, or for a Magistrate, or his Assistant, or for any Officer appointed to receive reports as mentioned in the sixth Section of this Act, or for any Police Officer under the authority of such Commissioner or Magistrate, to enter a vessel in any port or place within British India in which all the provisions of this Act may for the time being be in force in order to ascertain whether any Foreigner, bound to report his arrival under the said Section VI of this Act, is on board of such vessel; and it shall be lawful for such Commissioner of Police, or other Officer as aforesaid, to adopt such means as may be reasonably necessary for that purpose; and the Master or Commander of such vessel shall also, before any of the passengers are allowed to disembark, if he shall be required so to do by such Commissioner of Police or other Officer as aforesaid, deliver to him a list, in writing, of the passengers on board, specifying the ports or places at which they embarked, and the ports or places of their disembarkation or intended disembarkation, and answer, to the best of his knowledge, all such questions touching the passengers on board the said vessel, or touching those who may have disembarked in any part of British India, as shall be put to him by the Commissioner of Police, or other Officer as aforesaid.

If any Foreigner on board such vessel in any part of British India shall refuse to give an account of his objects of pursuit in India, or, if his account thereof shall not be satisfactory, the Officer may refuse to allow him to disembark, or he may be dealt with in the same manner as a Foreigner travelling in British India without a license.

Foreigner refusing to give account of himself, not to be allowed to disembark.

XXIII. The Governor-General of India in Council, or the Local Government of any part of British India in which this Act may for the time being be in force, may exempt any person, or any class of persons, either wholly or partially, or temporarily or otherwise, from all or any of the provisions of this Act contained in any of the Sections subsequent to Section V, and may at any time revoke any such exemption.

Persons may be exempted from provisions of Act.

Statement of Objects and Reasons.

By Act XXXIII of 1857, provision was made "to enable the several Governments of the British Territories in India to prevent the subjects of Foreign States from residing or sojourning therein, or from passing through or travelling in the same, without the consent of the said Governments." The Act was a temporary measure, and expired on the 5th December 1859. It was continued for two years from that date by Act XXVIII of 1859, and was again continued by Act I of 1862, which Act will expire on the 5th December of the present year.

On the occasion of the last mentioned Act being passed, the Government of India consulted the Local Governments, and several other principal Authorities, respecting the expediency of continuing the Act for any further period in the form in which it stood, or

with modifications. The replies to this reference indicate a general concurrence of opinion that the Government should be armed with such powers as the Act confers, but that the Act should be held in reserve to be applied to particular parts of the country, or for particular objects, as necessity may arise. At the same time it appears that the power given to the Governor-General in Council, and the Executive Government of any Presidency or place, by Sections XIII and XIV, of ordering any Foreigner to remove himself from the British Territories in India, and to enforce such order, may properly be possessed by those authorities under all circumstances.

In this view of the course to be adopted the Government of India concurs, and the present Bill is drawn to give effect to it. Sections XIII and XIV of Act XXXIII of 1857, are introduced as Sections III and IV, and the powers specified in those Sections will be permanently in force; but the rest of the Bill consists of Sections (taken with verbal amendments from Act XXXIII of 1857) which will be put in force only in such parts of India, and for such periods as the Governor-General of India in Council may direct.

The following Bill and the Statement of Objects and Reasons accompanying it are, under the 19th of the Rules for the conduct of Business at Meetings of the Council of the Governor-General of India for the purpose of making Laws and Regulations, published for general information by order of His Excellency the Governor-General :—

A Bill to provide for the appointment of Commissioners to enquire into certain claims against the late Native Government of Oudh.

Preamble.

WHEREAS certain persons have made demands against the Government of India in respect of claims preferred by them, either in their own right or as the representatives of persons now deceased, against the late Native Government of Oudh : and whereas it is desirable that Commissioners should be appointed for the purpose of investigating the said claims; It is enacted as follows :—

Appointment of Commission of Enquiry.

I. It shall be lawful for the Governor-General of India in Council to issue a Commission to such persons as he shall think fit, for the purpose of enquiring into and reporting on such claims preferred against the late Native Government of Oudh as shall be in the said Commission named and described. The said Commissioners shall fully enquire into the said claims respectively, and shall, as soon as they conveniently can, report to the Governor-General of India in Council the result of their enquiries, and shall in their report or reports make such suggestions, if any, as shall to them seem fit.

Governor-General in Council may appoint a sole Commissioner.

II. It shall be lawful for the Governor-General of India in Council to issue such Commission to one person only, if he shall so think proper: and if a Commission is issued to one person only, all the powers by this Act given to Commissioners shall and may be exercised by the sole Commissioner so appointed; and all the provisions of this Act as to appointing new Commissioners in the room of any of the Commissioners dying or resigning, or becoming unable or refusing to act, and as to the powers to be exercised by the new Commissioners so appointed, shall apply equally (so far as the same may be applicable) to the case of a sole Commissioner dying or resigning, or becoming unable or refusing to act, and of any new Commissioner appointed in his room.

Death or resignation of any of the Commissioners.

III. In case of the death or resignation of any of the said Commissioners, or of any of them becoming unable or refusing to act, it shall be lawful for the other Commissioners or Commissioner to act alone, and all the powers by this Act given to Commissioners shall and may be exercised by the continuing Commissioners or Commissioner alone. It shall be lawful for the Governor-General of India in Council from time to time, without issuing a new Commission, to appoint some other person or persons to act as a Commissioner or Commissioners jointly with the continuing Commissioners or Commissioner, and in such case all the powers conferred by this Act shall and may be exercised by the said newly-appointed Commissioner or Commissioners jointly with the continuing Commissioners or Commissioner.

Claimants may appear to support their claims at time and place fixed by Governor-General.

IV. The said Commissioners shall enter in public upon the enquiry into the said claims respectively, at such time and place as shall have been fixed by the Governor-General of India in Council, by notification published in the *Calcutta Gazette* at any time whether before or after the passing of this Act. It shall be lawful for any of the claimants preferring the claims in the said commission mentioned, to appear at the time and place so appointed in support of their claims respectively. The Secretary of State for India in Council may also in like manner appear at such time and place in opposition to the said claims. No claimant who shall not appear at the time and place appointed shall be entitled to appear subsequently or to take any part in the proceedings unless the Commissioners shall in their discretion specially permit him so to do. It shall be lawful for the Governor-General of India in Council by notification in the *Calcutta Gazette* to vary or cancel any notification previously given as aforesaid.

Mode in which public enquiry is to be conducted.

V. The public enquiry into the several claims aforesaid shall be conducted by the said Commissioners so far as regards adjournments, the examination of witnesses, and the rules of evidence, in like manner (so far as the same may in the opinion of the Commissioners be possible) as an ordinary Civil suit. The persons appearing in support of any claim shall be deemed for the purpose of the enquiry to be the plaintiffs in the cause, and the Secretary of State for India in Council shall be deemed to be the defendant, and may oppose the claimants in like manner as a defendant in a Civil suit may ordinarily oppose the plaintiff therein.

Attendance of witnesses.

VI. It shall be lawful for the Commissioners aforesaid, by a summons under the hand of any one of them, to require the attendance before them at a time and place to be mentioned in such summons, of any person or persons whomsoever, residing or being within British India, whose evidence shall in the judgment of the Commissioners aforesaid be material to any of the matters of the enquiry aforesaid; and to require the person or persons so summoned

STATEMENT OF OBJECTS AND REASONS.

BETWEEN the years 1790 and 1856 repeated applications were made to the Hon'ble Court of Directors of the East India Company to satisfy or get satisfied certain claims on the Native Government of Oudh. On the annexation of that Province, these claims were brought forward once more, and pressed directly against the Indian Government, on the ground that having assumed the emoluments they were bound to discharge the debts of the late Native Rulers. The Court of Directors, in a Despatch dated the 17th June 1857, ordered the investigation of all such claims by the Financial Commissioner of Oudh or some Officer specially appointed for the purpose. When that order reached India the Mutiny was at its height; Oudh was in a state of anarchy; the office of Financial Commissioner had been, or was on the point of being abolished; and there was no Officer in the Province of sufficient weight and experience to be entrusted with suchan investigation. Under these circumstances the Governor-General in Council referred the whole matter to the Hon'ble Sir B. Peacock, then a Member of Council, and his opinion was transmitted to the Secretary of State in a Despatch from the Governor-General in Council. Other claims brought forward subsequently, were referred to Mr. E. C. Bayley, then Extra Judicial Commissioner in Oudh. The result of these enquiries was adverse to the claimants; but objections were urged against both investigations on the ground that the claimants were not represented before the Officers making them, and that the enquiries could not be considered as carrying out the assurance given to Parliament in 1858 by Lord Stanley, that "these claims could best be investigated by a Commission on the spot, and that such a Commission it was proposed to appoint."

The Secretary of State for India, in a Despatch dated 18th February 1863, has requested that a Commission be issued, and that the claimants be permitted to appear before the Commissioners in support of their claims. It appears necessary to pass a short Act empowering the Commissioners to summon the claimants and witnesses, administer oaths, and take all such steps as may be necessary to enable them to arrive at a satisfactory conclusion respecting the several claims that may be referred to them.

According to the provisions of the Bill, the Governor-General in Council may appoint several Commissioners, or only one Commissioner, as may seem best. Notice is to be given in the *Calcutta Gazette*, of the time and place at which the consideration of the several claims will be entered upon. Claimants who fail to appear in support of their claims at such time and place as shall be notified, will not be allowed to appear at all, unless the Commissioners, in the exercise of a discretionary power vested in them, permit them to appear subsequently. Section V provides that the conduct of the enquiry shall be assimilated as far as possible to that of an ordinary Civil suit, with the claimants as Plaintiffs and the Secretary of State for India in Council as Defendant.

Military.

No. 152.

India Office, London,
The 24th April 1863.

To His Excellency the Right Hon'ble the Governor General of India in Council,

My Lord,—I have received and considered in in Council your letter No. 75, dated 19th February 1863, requesting explicit instructions as to the Rules under which leave of absence is to be granted to Officers of the new Royal Artillery and new Line Regiments of Cavalry and Infantry.

2. Your inquiry relates to two distinct subjects,—

1. The Regulations under which leave of absence is to be granted to Officers of the new Brigades of Artillery and new Line Regiments.

2. The application of the Furlough Rules in determining the claims of these Officers to Pension.

3. In regard to the first of these points, it was determined, in reply to No. 79 of the published question, that Officers of the new Line Regiments of Cavalry and Infantry would be under Her Majesty's Regulations generally.

4. They would be therefore necessarily under the new Furlough Rules, while their Corps remained in India, in the sense in which Officers of Her Majesty's Regiments serving in India are under those Rules.

5. The same applies to the Officers of Artillery.

6. As these Officers were thus brought under the Regulations of Her Majesty's Service as regards leave, it followed that leave should be granted according to the practice obtaining in the British service; but you were informed in my Despatch No. 291 of the 14th August 1862, that, in order that the claims of these Officers to Indian Pension might be duly ascertained and recorded, I had suggested to His Royal Highness the Field Marshal Commanding-in-Chief that exchanges, casualties, leave of absence (under the Indian Regulations), and other circumstances affecting the interests and claims of the Officers in question, should be communicated to this Office, or to the Governments in India, as the case might be.

7. It was intended by this Rule not that the Governments of the several Presidencies in India should grant leave to Officers of these Regiments as heretofore, when they belonged to the Local Service, but that the Commander-in-Chief should communicate to the Government all cases of such leave with a view to the determination of their claims to Pension.

8. On the same occasion I informed you, with reference to the Officers of Engineers, that, as the Governments in India had retained a prior claim to their services, it would be necessary that the grant of leave of absence, in their case, should be regulated by the practice then in force, and that no change should be made in this respect.

9. With regard to the application of the Furlough Rules to a consideration of claims to Pension on the part of Officers of Artillery and Engineers and new Line Regiments, you have justly observed that, under all circumstances, the Rules, as to the service required for Pension, will be complied with, that is, that no time passed on leave beyond the amount sanctioned by the Furlough Regulations will count as service towards pension.

10. In this respect, therefore, the position of these Officers will remain unaltered by their transfer to the British Army.

11. The amount of leave to be deducted from their service for Pension will depend on the Furlough Rules which they may have chosen, and it will be necessary that the Commanders-in-Chief of the several Presidencies should be careful to require that every Officer who has not yet made his election should do so (the same being reported to Government) on the first occasion of his making application for leave of absence.

I have, &c.,

Fixed Blue Light at Port Chioggia.

Notice has been officially given in the *Venice Gazette* of 2nd June, that, on and after the 15th day of June 1863, a light will be exhibited from a Lighthouse recently erected at the entrance to Port Chioggia, in the Adriatic.

The light will be a *fixed blue* (sky blue) light, placed at an elevation of 52 feet above the mean level of the sea, and should be seen in clear weather from a distance of 12 miles.

The illuminating apparatus is dioptric, or by lenses of the sixth order.

The Lighthouse stands on the large tower of Fort St. Felice, at the south point of entrance to the Port, and is said to be in lat. 45° 13′ 18″ N., long. 12° 16′ 25″ East of Greenwich, or about 2¼′ West of that assigned to it in the Admiralty Plan.

Alteration of Light at Cayenne.

Information has been received at the Admiralty, that the following alteration has been made in the light at Cayenne on the cost of Guayana, and that additional lights have been established.

A *fixed* white light is exhibited from a wooden structure, 30 feet high, erected on the glacis north of Fort Cépérou. The light is placed at an elevation of 130 feet above the mean level of the sea, and should be seen in clear weather from a distance of 10 miles.

A *fixed green* light is exhibited from the north-west angle of the Infantry Barrack, at an elevation of 60 feet above the sea, and visible 8 miles. It stands north-west of the Fort, and north-west by north from Cépérou Lighthouse. The two lights in line bearing S. E. by S. lead over the Aimable Rock. A vessel entering the river of Cayenne should therefore keep the white light a little open westward of the green light.

A *fixed red* light is shown from the Jetty Head to assist in entering the river at night.

Light Vessels in the Yang-tse Kiang.

The Harbour Master for the Port of Shanghai has given notice, that, on the 12th March 1863, a light vessel was placed on the Langshan crossing, in the Yang-tse Kiang, about 43 miles above the entrance of the Wusung river.

The vessel exhibits a *fixed* white light, is painted red, has two masts, each carrying a ball, and may be passed on either side. She is moored in 5 fathoms at low water springs, with Langshan Pagoda bearing N. by E., Fu-shan Fort W. ¼ S., upper end of Muirhead hills S. W. ½ W., and Plover Point S. E. by E. ½ E. When a ship is observed running into danger a gun is fired to attract attention, and the signal (by Marryat's Code) of the course that should be steered is then exhibited.

Also that on the same date, a new light vessel was moored at the entrance of the Yang-tse, in the same position as the former vessel. She exhibits a *fixed* while light visible in clear weather at about 12 miles. In thick weather a *flash* light will also be shown every *hour*.

Pilots.—Pilot Schooners cruize off Gutzlaff Island, and also between that island and the Amherst Rocks, and Pilots for the Yang-tse can now be obtained day or night, except when they are all on board of ships, when the Pilot Schooners anchor near the light vessel.

Wusung River.

Inner Bar Beacons.—To cross the Inner Bar, three *Beacons* have been erected on the east bank of the river; the High or Eastern Beacon, 60 feet high, is painted *red* and surmounted by a *red cross*; the North and South Beacons are each 40 feet high, painted *black* and *white*, and each surmounted by a *black ball*. The Bar boats are discontinued.

To cross in the deepest water, (10 feet at low water spring tides,) bring High Beacon midway between North and South Beacons, E. ¼ S. With a strong flood the course should be altered when High and North Beacons are in one, E. by S. ¼ S., or even before; on no account should North and South beacons be brought in one, as they lead over an 8-feet patch, which is marked by a Spar Buoy with a red flag. When over the Bar, approach the shore to half or three-quarters of a cable, then alter course as requisite, keeping the same distance off the east bank of the river the whole way up to Black Point.

At spring tides off the Middle Ground, the streams, both ebb and flood, run 4 knots, and at neaps 2 knots. Vessels going up with the last of the flood are obliged to anchor below the shipping and remain till the ebb stream makes down, which does not take place till 1¾ hours after high water by the shore; the flood stream makes about an hour after low water.

Government of India, Home Department.

Trade Returns of British Burmah for 1862-63

From Lieutenant-Colonel A. P. Phayre, C. B, Chief Commissioner of British Burmah and Agent to the Governor-General, to E C. Bayley, Esq, Secretary to the Government of India, Home Department,—(No. 2828, dated Rangoon, the 30th June 1863)

I have the honor to submit, for the information of the Hon'ble the President in Council, the Trade Returns of the three Divisions of British Burmah for 1862-63 as noted in the margin.

Statements X, Y, and Z for Pegu, Tenasserim, and Arracan, *viz*,—
X.—Statement shewing the principal articles of Import and Export
Y.—Abstract Statement of value of Imports and Exports
Z.—Abstract Statement of Grain

A brief Report on the Trade is also enclosed.

2. I beg respectfully to request that the Report in full and the Tabular Statements may be published among the Official papers of the *Calcutta Gazette* The Trade of the Ports, I think, will then attract more general attention than it would otherwise; and I feel that the publication would be beneficial to this Province.

3. These Statements are not intended to supersede the detailed Trade Returns required by existing orders of Government, and which will be submitted hereafter, but they are prepared as giving, in a compact form, a tolerably full view of the movement of Trade. They include also the Land or Frontier Trade, which the other Returns do not

4. I would beg respectfully to solicit their early publication. I also beg to be allowed to add that I have entered into a comparison of the amount of annual Trade of British Burmah, as compared with Sind, merely to prove that this Province is in a very prosperous condition A portion of the local Press continues to assert that the people are crushed under a cruel weight of taxes. It is true that the average amount of tax is about five Rupees a head per annum on the whole population. But as the whole, less reasonable remissions, is paid promptly, and the Trade continues to increase, it is quite impossible the rate can be too heavy. But as the impression may go abroad that the people are taxed too heavily, which cannot but be injurious to the Province, I trust the Hon'ble the President in Council will be pleased to sanction the early publication of these documents.

Report on the Trade and Customs Returns of British Burmah for 1862-63.

The accompanying Tabular Statements, marked X, Y, Z, contain particulars of the Trade of British Burmah for the year ending 30th April 1863. The Returns for the Ports of each Division,—that is, of Pegu, Tenasserim, and Arracan, are shewn separately, as each Division has a distinct commercial position.

2. In order that the general nature and extent of the Trade may be exhibited in a small compass, the various countries with which Trade is carried on have not been shewn here.

3. The following Table exhibits the total value, omitting fractions of the Export and Import Trade of each Division of the Province during the

past and previous years, together with the amount of Customs Duty :—

Divisions and Years.	Exports.	Imports.	Total.	Customs Duty.

Total ... 1862-63	3,10,35,143	3,05,89,691	6,16,24,147	19,31,532

NOTE.—The sum of Rupees 11,023 was also realized by Customs fines, confiscations, wharfage, &c.

4. This shews a total movement of Trade of £6,162,414, and a receipt of £193,153 for Customs Duty on the year.

5. *Trade of Pegu.*—The trade of Pegu is larger than that of either of the other two Divisions. This results from its more numerous population, and from its geographical position at the mouth of a fine river. Still the whole population which now depend upon the Ports of Rangoon and Bassein, for trade by Sea, within British Territory and beyond it, probably does not exceed six millions of souls.

6. In the following Table the value of Exports and Imports by Sea and River, to and from Pegu, are shewn separately :—

Years.	Value of Exports by Sea.	Value of Imports by Sea.	Value of Exports by River.	Value of Imports by River.	Amount of Sea Customs.	Amount of Land Customs.
	Rupees.	Rupees.	Rupees.	Rupees.	Rupees.	Rupees.
1861-62	1,34,60,647	1,45,77,031	52,75,609	38,40,739	9,34,388	6,19,186
1862-63	1,44,44,764	1,51,87,575	50,18,035	42,88,765	8,09,275	5,91,100
Increase ...	9,84,117	6,10,544	...	4,48,026	...	...
Decrease ...	...	...	2,57,574	...	1,25,113	28,036

7. *Sea Exports.*—In the Exports by Sea from the Ports of Pegu the principal increase has been in the following articles :—Cotton, which is brought from Upper Burmah, being 54,641 maunds against 34,114 maunds in the previous year; Copper, which is also brought from the Burmese Territory, 1,607 maunds against 859; Timber 15,796 tons against 12,579 tons; Cutch 1,16,415 maunds against 1,09,176 maunds. There was a slight decrease on the export of Rice, being 1,47,555 tons against 1,52,541 last year. Petroleum has suffered probably from the vast quantities of that substance discovered in the United States and Canada. The export was 43,244 maunds against 61,000 last year.

8. *Sea Imports.*—In imports by Sea, as might have been expected, the most remarkable change is in Cotton fabrics. In Cotton Piece Goods there were imported 7,97,783 pieces, valued at Rupees 23,22,995 against 9,54,455 pieces valued at 24,23,215 Rupees imported the previous year. In Cotton Twist and Yarn there has been an increase of imports, being one million six hundred thousand lbs. weight against one million and a half of lbs. in the previous year. In Silk Piece Goods the decrease in number only has been from 5,06,216 pieces valued at Rupees 15,04,001 to 2,69,313 pieces valued at 17,61,283 Rupees.

9. *Land Exports.*—In exports by land or river there has been a fair increase, both in Cotton and

Silk Piece Goods; but a falling off of over twenty thousand tons in Rice and Paddy, which shews that the Burmese are growing more than they did formerly. Still Upper Burmah will always require a considerable quantity of Rice from Pegu. There has also been a decrease in the export of Salt to Burmah. That mineral is now procured in large quantities from Salt Springs in Upper Burmah. The total value of British Piece Goods and Cotton Twist sent to Burmah by the Irrawaddy was over eighteen lakhs or upwards of £180,000.

10. *Land Imports.*—In imports by land or river the most prominent fact is that there are imported Cotton and Silk Piece Goods from Burmah, made in the country, to about one-half the amount of the same description of Goods of British manufacture exported from Pegu. The total increase in imports from Pegu by the river is over four lakhs of Rupees; but the trade might be doubled if the restrictions and monopolies in the Burmese Dominions were abolished, if the country between Bhamo and the Yunân Frontier were quieted, and if that Province of China were relieved from its present disturbed state.

11. There has been a falling off in the Sea Customs of Rupees 1,25,113 arising partly from the reduction of duty on Piece Goods from 10 to 5 per cent., the reduction of rate on Cotton Twist and on Beer. There was also a loss in the Inland Customs Duty of Rupees 28,036 resulting from the decreased export of Rice and other articles on which a fixed duty is levied.

12. The extent or amount of the trade of the Pegu Division of British Burmah is satisfactory, if the various circumstances of the country be considered. These are,—*first*, the paucity of its own population being less than twelve hundred and fifty thousand souls; *second*, the want of population in the adjoining countries; *third*, there being no easy means of communication with countries not directly accessible by the River Irrawaddy. These difficulties can only be overcome gradually, and notwithstanding their existence the trade of Pegu has increased steadily since the first occupation of the country in 1852-53.

13. *Trade of Tenasserim.*—The Tenasserim Division has a considerable Trade with adjoining countries, and pricipally in Teak Timber. The countries which furnish that valuable product are the Shan States tributary to Burmah and Siam, and the Independent States of Karennee. As there are no Frontier Custom Houses in this Division only the trade by sea is shewn in the Returns as regards general produce; but on Teak Timber an internal duty is levied, and the quantity of foreign Timber imported is accurately known.

14. The following Table exhibits the value of Exports and Imports from and to the Ports of Tenasserim for the past two years:—

Years.	Value of Exports.	Value of Imports.	Amount of Customs Duty.
	Rupees.	Rupees.	Rupees.
1861-62 ...	81,86,384	86,46,460	1,35,918
1862-63 ...	65,41,873	59,40,320	1,26,725
Decrease ...	16,44,511	27,06,140	9,193

15. The decrease in the value of Trade is very considerable. It may be said to depend entirely upon the diminished demand for Teak Timber. The demand, it is believed, is chiefly dependent upon the requirements of the Navies of Europe for the construction of iron-clad Ships.

16. The following Table shews the quantity and value of Teak Timber exported from Maulmain for the last three years:—

Years.	Quantity in Tons.	Value in Rupees.
1860-61 ..	53,730	29,64,967
1861-62 ..	97,970	60,62,896
1862-63 ...	75,887	43,09,977

17. There is then a decrease in export of about twenty-two thousand tons during the last year. The demand was suddenly raised in the previous year by particular circumstances, and cannot ordinarily be maintained at the amount then shewn. The only other export of importance in Tenasserim is Rice, of which 23,916 tons were exported, being a decrease of nearly seven thousand tons, as compared with the previous year.

18. *Imports.*—In the Imports there is, as elsewhere, a decrease in Cotton and Silk Piece Goods. In Cotton Twist a slight decrease in quantity, but an increase in value; but what tells

most on the diminution of imports is a decrease of over twenty-three lakhs of Rupees of Treasure, consequent on Teak Timber not being purchased.

19. The chief Port of Tenasserim, Maulmain, though situated at the mouth of a fine river, gains no advantage thereby for general internal commerce. Dangerous rapids forbid the passage of boats, but stop not the downward passage of logs of Timber. Trade in the Shan States is conducted entirely by land, Goods being carried on bullocks. The opening out of the River Salween would create a new and extensive trade. There was a loss of about Rupees 9,000 in Customs Duty in Tenasserim during the past year as compared with the previous.

20. *Trade of Arracan.*— The exports of Arracan consist of one native product, namely, Rice, in a large quantity; and of Tobacco, Cotton, Hides, and Horns in small quantities. The following was the value of Imports and Exports during the two last years:—

Years.	Value of Exports.	Value of Imports.	Customs Duty.
	Rupees.	Rupees.	Rupees.
1861-62 ...	46,08,818	56,32,588	3,59,802
1862-63 ...	50,30,471	51,72,344	4,04,432
Increase ...	4,21,653	.....	44,630
Decrease ...	.....	4,60,244	.....

21. *Exports.*—The increase in the value of exports is due to Rice, of which 106,830 tons were exported in 1861-62, and 118,117 tons in 1862-63. The value for the latter year was nearly four and a half lakhs of Rupees greater than in the former. There was also a small increase of 827 maunds of Cotton exported. Cutch, which is not a product of the country, but is brought across the hills from Burmah Proper, rose from 9,693 to 24,837 maunds, while Tobacco fell from 21,555 to 5,833 maunds.

22. *Imports.*—In Imports there is an increase in the value of Cotton Twist and Piece Goods of Rupees 60,000 mainly due to enhanced prices. The import of Silk Piece Goods was doubled. Treasure diminished nearly ten lakhs of Rupees, due, it is believed, to a better system of Banking, or bill dealing having been introduced.

23. *Customs Duty.*—The increase in Customs Duty, amounting to Rupees 44,630, is due mainly to the increase export of Rice.

24. Arracan from its geographical position being entirely separated from the countries to the eastward by high mountains, which are easily accessible by other routes, can never have an extensive trade with any inland country. Her trade must depend mainly on her own products.

25. *Remarks on the Trade of British Burmah.*—If the Trade of British Burmah be compared with that of any other country under British rule, similarly situated, it will be found to be prosperous as far as figures can shew prosperity. There cannot be a country more suitable for such comparison than Sind. That Province lies at the mouth of a great river, as does the principal Division of British Burmah. Sind has been a British Province for more than twenty years. The principal Division of British Burmah has been a British Province for ten years. The population of Sind six years ago was stated to be 1,768,737 souls. The population of British Burmah is now rather over two millions. In the Annual Report of the Administration of the Bombay Presidency for 1861-62, the value of the sea-borne trade of Sind is stated at 296 lakhs of Rupees, or say £2,966,000;—this is deducting Government Stores. For the same year the sea-borne trade of British Burmah, also deducting Government Stores and Treasure, was 539 lakhs, or say £5,394,000. This great superiority is in spite of Burmah having a country in the Upper Irrawaddy and adjoining Shan States possessing little more than four millions of inhabitants to trade with, while Sind has at her back the Punjab with fifteen millions of inhabitants, besides the wool-traders from Beeloochistan and Afghanistan.

26. Sind has now a Rail from Kurrachee to Kotree, and her trade will no doubt increase.

27. If the Salween River be opened up, and good roads, if not Rails, be made to facilitate traffic with the Shan States and Yunân, both north and south, the Trade of British Burmah will probably increase even in a larger ratio than heretofore. So far the commercial progress of the Province has been more rapid and greater in proportion to the number of inhabitants than that of any other British Possession east of the Cape of Good Hope.

Persons may be exempted from provisions of Act.

STATEMENT OF OBJECTS AND REASONS.

By Act XXXIII of 1857, provision was made "to enable the several Governments of the British Territories in India to prevent the subjects of Foreign States from residing or sojourning therein, or from passing through or travelling in the same, without the consent of the said Governments." The Act was a temporary measure, and expired on the 5th December 1859. It was continued for two years from that date by Act XXVIII of 1859, and was again continued by Act I of 1862, which Act will expire on the 5th December of the present year.

On the occasion of the last mentioned Act being passed, the Government of India consulted the Local Governments, and several other principal Authorities, respecting the expediency of continuing the Act for any further period in the form in which it stood.

with modifications. The replies to this reference indicate a general concurrence of opinion that the Government should be armed with such powers as the Act confers, but that the Act should be held in reserve to be applied to particular parts of the country, or for particular objects, as necessity may arise. At the same time it appears that the power given to the Governor-General in Council, and the Executive Government of any Presidency or place, by Sections XIII and XIV, of ordering any Foreigner to remove himself from the British Territories in India, and to enforce such order, may properly be possessed by those authorities under all circumstances.

In this view of the course to be adopted the Government of India concurs, and the present Bill is drawn to give effect to it. Sections XIII and XIV of Act XXXIII of 1857, are introduced as Sections III and IV, and the powers specified in those Sections will be permanently in force; but the rest of the Bill consists of Sections (taken with verbal amendments from Act XXXIII of 1857) which will be put in force only in such parts of India, and for such periods as the Governor-General of India in Council may direct.

The following Bill and the Statement of Objects and Reasons accompanying it are, under the 19th of the Rules for the conduct of Business at Meetings of the Council of the Governor-General of India for the purpose of making Laws and Regulations, published for general information by order of His Excellency the Governor-General :—

A Bill to provide for the appointment of Commissioners to enquire into certain claims against the late Native Government of Oudh.

Preamble.

WHEREAS certain persons have made demands against the Government of India in respect of claims preferred by them, either in their own right or as the representatives of persons now deceased, against the late Native Government of Oudh : and whereas it is desirable that Commissioners should be appointed for the purpose of investigating the said claims; It is enacted as follows :—

Appointment of Commission of Enquiry.

I. It shall be lawful for the Governor-General of India in Council to issue a Commission to such persons as he shall think fit, for the purpose of enquiring into and reporting on such claims preferred against the late Native Government of Oudh as shall be in the said Commission named and described. The said Commissioners shall fully enquire into the said claims respectively, and shall, as soon as they conveniently can, report to the Governor-General of India in Council the result of their enquiries, and shall in their report or reports make such suggestions, if any, as shall to them seem fit.

Governor-General in Council may appoint a sole Commissioner.

II. It shall be lawful for the Governor-General of India in Council to issue such Commission to one person only, if he shall so think proper : and if a Commission is issued to one person only, all the powers by this Act given to Commissioners shall and may be exercised by the sole Commissioner so appointed ; and all the provisions of this Act as to appointing new Commissioners in the room of any of the Commissioners dying or resigning, or becoming unable or refusing to act, and as to the powers to be exercised by the new Commissioners so appointed, shall apply equally (so far as the same may be applicable) to the case of a sole Commissioner dying or resigning, or becoming unable or refusing to act, and of any new Commissioner appointed in his room.

Death or resignation of any of the Commissioners.

III. In case of the death or resignation of any of the said Commissioners, or of any of them becoming unable or refusing to act, it shall be lawful for the other Commissioners or Commissioner to act alone, and all the powers by this Act given to Commissioners shall and may be exercised by the continuing Commissioners or Commissioner alone. It shall be lawful for the Governor-General of India in Council from time to time, without issuing a new Commission, to appoint some other person or persons to act as a Commissioner or Commissioners jointly with the continuing Commissioners or Commissioner, and in such case all the powers conferred by this Act shall and may be exercised by the said newly-appointed Commissioner or Commissioners jointly with the continuing Commissioners or Commissioner.

Claimants may appear to support their claims at time and place fixed by Governor-General.

IV. The said Commissioners shall enter in public upon the enquiry into the said claims respectively, at such time and place as shall have been fixed by the Governor-General of India in Council, by notification published in the *Calcutta Gazette* at any time whether before or after the passing of this Act. It shall be lawful for any of the claimants preferring the claims in the said commission mentioned, to appear at the time and place so appointed in support of their claims respectively. The Secretary of State for India in Council may also in like manner appear at such time and place in opposition to the said claims. No claimant who shall not appear at the time and place appointed shall be entitled to appear subsequently or to take any part in the proceedings unless the Commissioners shall in their discretion specially permit him so to do. It shall be lawful for the Governor-General of India in Council by notification in the *Calcutta Gazette* to vary or cancel any notification previously given as aforesaid.

Mode in which public enquiry is to be conducted.

V. The public enquiry into the several claims aforesaid shall be conducted by the said Commissioners so far as regards adjournments, the examination of witnesses, and the rules of evidence, in like manner (so far as the same may in the opinion of the Commissioners be possible) as an ordinary Civil suit. The persons appearing in support of any claim shall be deemed for the purpose of the enquiry to be the plaintiffs in the cause, and the Secretary of State for India in Council shall be deemed to be the defendant, and may oppose the claimants in like manner as a defendant in a Civil suit may ordinarily oppose the plaintiff therein.

Attendance of witnesses

VI. It shall be lawful for the Commissioners aforesaid, by a summons under the hand of any one of them, to require the attendance before them at a time and place to be mentioned in such summons, of any person or persons whomsoever, residing or being within British India, whose evidence shall in the judgment of the Commissioners aforesaid be material to any of the matters of the enquiry aforesaid ; and to require the person or persons so summoned

to bring and produce before them all such books, papers, deeds, and writings as to them the said Commissioners shall appear necessary for arriving at the truth of the matters directed to be enquired into by the said Commissioners; all which persons shall accordingly attend before the said Commissioners, and shall produce such books, papers, deeds, and writings as shall be required of them and shall be in their custody and control or in the custody and control of any one of them according to the tenor of the summons. Provided always that no person shall be compelled to attend before the said Commissioners or to give his evidence at a greater distance than fifty miles from the place where such person shall be residing.

Proviso

VII. It shall be lawful for the Commissioners aforesaid, or one of them, to administer an oath or an affirmation in such form as to the said Commissioners shall seem fit, to all persons who shall be examined before them touching the matters to be enquired into: Provided that nothing herein contained shall render it necessary for the said Commissioners to take evidence upon oath or affirmation unless they shall think it fit or expedient so to do.

Examination of witnesses on oath or affirmation.

Proviso.

VIII. STATEMENT OF OBJECTS AND REASONS.

BETWEEN the years 1790 and 1856 repeated applications were made to the Hon'ble Court of Directors of the East India Company to satisfy or get satisfied certain claims on the Native Government of Oudh. On the annexation of that Province, these claims were brought forward once more, and pressed directly against the Indian Government, on the ground that having assumed the emoluments they were bound to discharge the debts of the late Native Rulers. The Court of Directors, in a Despatch dated the 17th June 1857, ordered the investigation of all such claims by the Financial Commissioner of Oudh or some Officer specially appointed for the purpose. When that order reached India the Mutiny was at its height; Oudh was in a state of anarchy; the office of Financial Commissioner had been, or was on the point of being abolished; and there was no Officer in the Province of sufficient weight and experience to be entrusted with suchan investigation. Under these circumstances the Governor-General in Council referred the whole matter to the Hon'ble Sir B. Peacock, then a Member of Council, and his opinion was transmitted to the Secretary of State in a Despatch from the Governor-General in Council. Other claims brought forward subsequently, were referred to Mr. E. C. Bayley, then Extra Judicial Commissioner in Oudh. The result of these enquiries was adverse to the claimants; but objections were urged against both investigations on the ground that the claimants were not represented before the Officers making them, and that the enquiries could not be considered as carrying out the assurance given to Parliament in 1858 by Lord Stanley, that "these claims could best be investigated by a Commission on the spot, and that such a Commission it was proposed to appoint."

The Secretary of State for India, in a Despatch dated 18th February 1863, has requested that a Commission be issued, and that the claimants be permitted to appear before the Commissioners in support of their claims. It appears necessary to pass a short Act empowering the Commissioners to summon the claimants and witnesses, administer oaths, and take all such steps as may be necessary to enable them to arrive at a satisfactory conclusion respecting the several claims that may be referred to them.

According to the provisions of the Bill, the Governor-General in Council may appoint several Commissioners, or only one Commissioner, as may seem best. Notice is to be given in the *Calcutta Gazette*, of the time and place at which the consideration of the several claims will be entered upon. Claimants who fail to appear in support of their claims at such time and place as shall be notified, will not be allowed to appear at all, unless the Commissioners, in the exercise of a discretionary power vested in them, permit them to appear subsequently. Section V provides that the conduct of the enquiry shall be assimilated as far as possible to that of an ordinary Civil suit, with the claimants as Plaintiffs and the Secretary of State for India in Council as Defendant.

FINANCIAL DEPARTMENT.

No. 3390.

Fort William, the 25th July 1863.

READ again the Financial Resolution No. 66., dated the 29th August 1862, sanctioning a classification of the appointments in the General Department of Account in substitution of the arrangement introduced by Financial Resolution No. 84, dated the 13th May 1862.

RESOLUTION.—The Hon'ble President in Council observes that

Resolution of the 13th May 1862, Covenanted Officers who entered the General Department of Account before that date are allowed to retain their privileges, and therefore when such Covenanted Officers are appointed to act for other Covenanted Officers in the Department they are entitled to draw deputation allowances on the same terms as those allowed to Covenanted Officers in other branches of the Service.

But this Rule cannot be held to apply to Covenanted Officers entering the Financial Department after that date, nor does it seem proper to preserve a separate Rule for calculating the acting allowances of Uncovenanted Officers in the Department, as by the Resolution abovementioned all distinction between the Covenanted and Uncovenanted Service was abolished.

In considering what would be a suitable standard to introduce under these circumstances, His Honor in Council observes that, as the Acting Allowance Rules of the Covenanted Service are based upon a simple consistent principle, they may with advantage be taken as the basis of the Rules which shall be applicable to all the Officers of the Financial Department other than those specially noticed in the 1st paragraph.

His Honor in Council desires accordingly that the following Rules be observed in future:—

1*st*.—No Officer will receive any deputation allowance for officiating for another Officer in the same class as himself.

2*nd*.—An Officer appointed to officiate for another Officer in a higher class than his own will draw, from the date of his taking charge, irrespective of any saving from the salary of the appointment in which he officiates, the full salary of his own appointment, with an additional allowance at the rate of 20 per cent. on the mean between the minimum and maximum salary of the class to which the permanent incumbent belongs, provided the total allowance to be so drawn shall not exceed the minimum salary of the higher class in which the Officer is appointed to officiate.

3*rd*.—When the Officer thus appointed to act is in the receipt of the maximum salary of his own grade he will receive no additional allowance on his first appointment to act, inasmuch as the maximum salary of any class is always the same as the minimum of that immediately above it; but he will be eligible, whilst officiating, to the yearly increase of salary allowed to those permanently appointed to the higher grade.

The above Rules will also apply to Officers not permanently belonging to the Department but who may be appointed to officiate temporarily in appointments in the Department, such, for instance, as Clerks in the Offices of Pay, Audit, or Account, who, though not in the classified grades, are frequently appointed to act during the absence on leave of classified Officers in the lower grades of the Account and Audit Departments.

Order.—Ordered, that the above Resolution be published in the *Calcutta Gazette* for general information and that a copy be fowarded to the Right Hon'ble the [illegible] for information.

No. 3478.

The 31*st July* 1863.

Read endorsement from the Foreign Department, with His Excellency the Governor General, No. 465, dated 13th July 1863, forwarding, for consideration, a reference from the Punjab Government connected with the grant of privilege leave to Uncovenanted Servants.

Resolution.—Section XVI. of the Uncovenanted Service Absentee Rules having deprived Uncovenanted Officers of accumulating privilege leave after twenty-two or thirty-three months' consecutive service the Punjab Government enquires (1) whether an Officer who had accumulated his leave previous to the issue of the present Rules can be still held entitled to it; and (2) whether cumulative privilege leave sanctioned before the issue of the new Rules, but not availed of up to the time they came into force, can still be available.

The Hon'ble the President in Council determines that Uncovenanted Officers who were entitled to accumulated privilege leave under the old Rule when the new Rules were issued will be allowed two or three months' leave in the same manner as if the old Rule still remained in force.

Order.—Ordered, that a copy of the above be published in the *Calcutta Gazette* for general information.

No. 3496.

READ the following papers regarding the revision of the Oude Police, and the mode of estimating and charging for that portion of the expense of the Police which is incurred for the service of other Departments :—

Home Department's endorsements Nos. 1939, 2315, and 2544, dated 24th March, 8th April, and 18th April 1863.

Letters from the Inspector-General of Police in India Nos. 27 and 45, dated 12th and 19th February 1863, and a further letter dated 7th May 1863.

RESOLUTION.—The point referred for the consideration of the Financial Department by the Home Department's Resolution of the 24th March 1863 is the mode of estimating and charging for that portion of the expense of the Police which is incurred for the service of other Departments.

2. At present the various Departments are required to pay in cash for the Police Guards supplied to them out of a Budget provision in their own Departmental Estimates.

3. These cash payments between Departments have, after two years' experience, proved so embarrassing in practice that the President in Council directs that henceforth the pay of the whole of the Officers and men of each Force shall be drawn in one Bill, or, if found more convenient, in separate Bills for each District; but the debit against the Police Budget Grant will be, in the aggregate, for the charges in the entire Presidency or Province, and not according to the District distribution of the charges.

4. The only case in which any demand for repayment will have to be made will be when special services are performed for private Companies, Theatres, &c., or when payments are authorized by the Police Act.

5. As a rule it is not desirable to introduce changes of system and extensive transfers in account after the Budget has been settled and payments according to the Budget allotment have begun; but cash payments for Police supplied to Departments have proved so inconvenient that the general Rule must in this case be set aside.

6. Accordingly, it is directed that the sums noted in the accompanying Statement, which have been taken for Police in the other Departmental Estimates for this year, be transferred to the head of Police of the respective Presidencies and Provinces, and that the necessary adjustments of payments already made by Departments be arranged by the Deputy Auditors and Accountants-General.

7. The Police Estimate for next year should include the whole of the expenditure for that branch of the Service.

8. The Hon'ble the President in Council at the same time desires to preserve an equivalent for any economical check that may have attended the inter-departmental cash payments which are now abolished.

9. This check will be ensured by throwing more responsibility than has hitherto been done on the Department providing for the service.

10. The Officers of Police are the proper authority for determining the strength of a Treasure or Prison Escort, or the number of men sufficient to guard a Jail or a Lock-up, for, in all such cases, the Police Department is responsible for the safe custody of the people or property placed under their charge; and the Home Department will accordingly be requested to give directions that every application for Police Guards shall be scrutinized by the proper Officers of Police.

11. In the event of dispute or difference as to the strength of Guards required, or as to their employment at all, the matter should be settled by the Head of the Department from whom the requisition has come in communication with the Inspector-General of Police, a final reference being made, if necessary, to the Local Government.

12. The abolition of inter-departmental cash payments should be accompanied by a careful revision by each Inspector-General of Police of the Guards of every sort now supplied to Departments.

13. The reductions effected in this direction in the Oude Police encourage a hope of similar economy by a like careful revision in other Presidencies and Provinces.

14. Further, with a view of watching over the demands of the several Departments for Police Guards, the Police Department should be required to keep up carefully prepared Distribution Lists of the entire Police Force.

15. By a reference to these Lists it may be immediately ascertained whether an undue increase has taken place in the number of Guards required for any particular service.

16. These Distribution Lists will also enable the Government to form a correct Estimate of the cost of Police under the several Heads of Jail Guards, Treasure Escorts, &c.

ORDERED, that a copy of this Resolution be forwarded to the Home Department, and that it be also sent to all Local Governments and Chief Commissioners, for their information and guidance, in reference to the preparation of the Estimates and Accounts of the Police expenditure.

Ordered also, that a copy be published in the *Calcutta Gazette* for general information, and for the guidance of the Civil and Military Pay and Audit Departments; likewise that a copy of the Proceedings of the Home Department, dated 24th March 1863, be communicated to the Deputy Auditor and Accountant-General and the Civil Pay-Master, North-Western Provinces.

Government of Bengal.

Report on the Condition of the Royal Botanic Gardens, Calcutta, from 1st April 1862 to 1st April 1863.

The Garden.—The planting out of the groups of natural orders according to the method referred to in my last Report was commenced during the rainy season of 1862. Two specimens of all the species of a considerable number of orders of which good specimens could be obtained were placed in their proper sites. The catalogue of plants of the garden was employed as the guide in forming the groups and sites were prepared for two of every species in the natural orders which were selected. In the case of many species there were no young plants procurable, but the sites were nevertheless prepared in hopes of specimens being obtained within a year or two. Each site was trenched to a depth of two and a half feet, and the soil was mixed with brick rubbish and pulverised peat or with leafmould. All the species of the following natural orders that could be obtained were planted out :—

Ranunculaceæ.	Tamariscineæ.
Dilleniaceæ.	Lineæ.
Magnoliaceæ.	Byttneriaceæ.
Menispermaceæ.	Tiliaceæ.
Berberidiæ.	Dipterocarpeæ.
Papaveraceæ.	Aurantiaceæ.
Capparideæ.	Hypericineæ.
Bixaceæ.	Guttiferæ.
Violaceæ.	Hippocratiaceæ.
Polygalaceæ.	Malpighiaceæ.
Erythroxylaceæ.	Tittosporeæ.
Aceraceæ.	Xanthoxylaceæ.
Sapindaceæ.	Simarubaceæ.
Meliaceæ.	Rutaceæ.
Canellaceæ.	Ochnaceæ.
Oxalideæ.	Bignoniaceæ.

The botanical name and native country of the plant painted on a large zinc label screwed down on an iron rod of about two feet high was placed near the best developed specimen of each species. The old fashioned cast iron labels about six inches long from their proximity to the ground become soon illegible from mud or are concealed by the grass and therefore were not used.

Nurseries.—A large number of seeds, cuttings, and layers were raised for the extensive planting that will probably be accomplished during the rains of 1863. Two thousand and five hundred seedlings of Mahogany were also reared for the planting along the portion of the Ganges and Darjeeling Road between Titalyah and the foot of the Himalyah. Three hundred seedlings of *Polyalthia Longifolia* were also prepared for forming an avenue along the Circular Road in Calcutta. Six hundred and eighty plants of *Diospyros Emboyopteris* were supplied for planting along the banks of the Circular Canal. Fifteen Wardian cases, each containing about an average of 150 Cinchona plants obtained from the Government Cinchona Nursery at Ootacamund, have remained in the Garden Nursery for different periods of time on their route to Darjeeling, Cachar, and the North-Western and Punjab Himalayah, with the exception of four cases of Cinchona for Dr. Jameson, Superintendent of the Botanic Gardens of the North-West Provinces; the remaining eleven Wardian cases of this valuable plant were obtained by private individuals for experimental cultivation on Tea estates. In

addition to these 420 plants of Cinchona were obtained from the plantation in the Neilgherries to add to the stock in the Government Nursery at Darjeeling. These plants were retained in the Botanic Gardens for six weeks with great benefit to their condition. Mr. Miles, the Assistant Gardener of the Botanic Gardens, who had brought these plants most sucessfully from Madras, superintended their removal to Darjeeling. I may here mention for the guidance of Tea planters who may wish to introduce Cinchona plants from the Neilgherries that the only time that the introduction can be attempted with any hope of success is from 15th November till 15th February.

The plants of *Cinchona Succirubra* and *Pahudiana* which were left in the Botanic Gardens last year as an experiment have partly succeeded. The two plants of Cinchona Pahudiana may be considered as dead, one only now remains and is just alive. *Cinchona Succirubra* has, however, succeeded admirably. On the 1st April last year it was a plant eight inches in height with two pairs of leaves about five inches in length. During the rainy season of 1862 it grew well, so, much so, that on the 22nd July it was eighteen inches in height and had a stem one inch and six-tenths in circumference. The cold season was still more favorable to its growth, and though fully exposed to all weathers night and day it had attained, in the end of March, a height of three feet and had produced in three months two strong branches each a foot and a half in length, and leaves eighteen inches long by nine and ten inches in breadth. It suffered somewhat from the dry heat of March, and like all large foliaged plants its leaves were much torn by the violent gales of wind of the hot season. Their condition, however, in the end of March was such that there is every prospect of the plants being still in a healthy condition at the commencement of the rains, after which they will be quite safe and will grow rapidly. Sites in the open air, but in a shaded and cool part of the Garden, have been selected for two specimens of this species, and they will be planted out as soon as the rainy season sets in.

Garden Roads and Buildings.—A new road fifteen feet wide leading towards the western boundary of the Garden and passing in front of the large Banian tree has been commenced and will be finished in three months. Another line of road passing along the western skirt of the group of Coniferal has been marked out. A handsome foot bridge of cast iron has also been sanctioned. It will be placed across the stream some 100 yards above the stone bridge on the site of an old wooden bridge which has been in ruins for fifteen years. A cast iron ghaut has been granted on the plan of the one at the principal entrance, and is to be placed at the termination of the new road from Howrah to the Gardens and the river bank at the eastern boundary. The buildings in the Garden are all much in need of the quadrennial repairs, none of them having been repaired since the end of 1858.

Distribution of Plants and Seeds.—This is one of the most important duties devolving on the Superintendent of the Garden, and to carry out the system to the fullest extent would occupy more time than I can spare at present from more important and pressing employment. However, the distribution to other Botanic Gardens of live plants and packets of seeds, the produce of the Garden, with those collected in my tour in Sikkim in October last, has much exceeded the average distribution of the last ten or fifteen years. The beneficial results of the increased activity of this Department have already begun to be experienced in an increase in the number of exchanges effected with other Botanic Gardens in return for the packets of seeds or plants distributed from this. The difficulty of superintending the native seed collectors is great, and from the want of European supervision many unripe seeds are collected. This is evidently the cause why I receive so many complaints of the bad quality of the seeds distributed from this Garden. I have applied every check which the means at my disposal admit of, but I have been able to do little more beyond increasing the number of species of seed collected. In many cases seeds of the former seasons are retained by the collectors as fresh in order to save trouble in collecting. This means of deception has, however, been avoided by emptying out all the jars of seeds at a fixed date, and by fixing two periods in the year for the issue of seeds according to the method followed in the Jardin des Plantes. A catalogue of seeds will be published on the completion of the catalogue of plants cultivated in this Garden. During the year 124 packets of seed were distributed. The more valuable kinds of seed were sent to the following Botanic Gardens :—

Royal Gardens, Kew.
Jardin des Plantes, Paris.
Botanic Gardens, Edinburgh.
" " Breslau.
" " Berlin.
" " Copenhagen.
" " Christiana.
" " Montpellier.
" " Lyons.

" " Peradenia (Ceylon.)
" " Buitenzorg (Java)
" " Jamaica.
" " Saharunpore.
" " Lahore.
" " Umritsur.
" " Bangalore.
" " Madras.

In return for those and former contributions from this Garden thirty-four valuable packets of seeds were received during the year. The most valuable among those was a collection of above 3,000 species of seeds from the Jardin des Plantes at Paris, for which I am indebted to the liberality of Professor Decaisne.

The usual supply of English and Native vegetable seeds were sent to the European Regiments indenting for them within the fixed time.

Wardian cases and boxes containing an average of thirty plants each have been dispatched to the following Botanic Gardens and private individuals :—

One thousand five hundred and seventy-seven plants were distributed to applicants near Calcutta.

Fifteen cases of plants have been received during the year.

The Herbarium.—During my visit to Darjeeling last year to superintend the commencement of the cultivation of Cinchona there I made extensive collections of dried plants at all elevations. The collections made in the earlier part of my visit are principally from the lower vallies in the neighbourhood of Darjeeling and of the land reserved for Cinchona cultivation. In the month of October I made an attempt to penetrate near the immediate base of Kinchinjinga. In this expedition I took with me a staff of well trained collectors, several of whom had accompanied Dr. Hooker on his travels in Sikkim. I collected largely at all heights between the level of the Little Rungeet River and about 18,500 feet above the level of the sea, the highest point I reached on the glacier above the source of the Prek River, the eastern branch of the Ratong, as the upper portion of the Great Rungeet is called.

* * * *

I have again to express my deep obligations to Sir William Hooker as well as to Dr. Hooker for their liberality in rendering me every assistance in the task of arranging the Herbarium. As I have mentioned in a former Report this arrangement was commenced by Dr. Thomson in 1856, and though the work has gone on uninterruptedly for the last eight years it is still a long way from completion. It is difficult to form an estimate of how much remains to be done. Probably, about half of the specimens are now properly mounted and placed in their places in the cabinets. Large additions, however, are being made yearly to the collections, so that it will require not less than four years to complete the arrangement of all the specimens in the Herbarium. The work will now advance at a more rapid pace than hitherto, as the appointment of two European Botanists has been sanctioned by the Government of India. One of these, M. Louis Pierre, is ready to take up his appointment on the 1st May as Assistant Curator of the Herbarium.

Since the last Report several valuable additions of dried plants have been made to the Herbarium. Among these may be mentioned further instalments of Drs. Hooker and Thomson's Indian Herbarium. From the Royal Herbarium, Kew; plants from British Guiana collected by Richard Schomburgh; a collection from Columbia; a large number from Mexico collected by Bottoir; plants from Hong-Kong collected by Colonel Urquhart; a small number collected in Lysia by Bongeau, and a very valuable set of Dr. Seeman's Feejee plants collected in 1861. Some packets of Spence's Ecuador plants were also received, and a set of Jameson's collections from the neighbourhood of Quito was purchased. I have to thank Dr. Muiller, the Director of the Botanic Gardens, Melbourne, for valuable parcels of plants from Western Australia, New South Wales, and New Zealand; and to Mr. Thwaites, Director of the Botanic Gardens, Peradenia, Ceylon, for contributions from his Herbarium. Dr. A. C. Maingy, Assistant Surgeon of the 22nd Regiment Native Infantry, presented a valuable set of plants from the Shantung Province of N. China, from Shanghai, and from the neighbourhood of Nagasaki and Kanagaua in Japan. These collections were made by Dr. Maingy while on service in China with his Regiment from 1860 to September 1862.

The Library.—A sum of Rupees 3,000 (£300) has been sanctioned in the Budget for 1863 and 1864 for the purchase of Dr. Thomson's Botanical Library, which was left in the Library of the Botanic Gardens on Dr. Thomson's departure for England in March 1861. This grant, along with the allowance of Rupees 60 a month, has enabled me to make many valuable additions to the Books already in the Library. All the Scientific Periodicals and Proceedings of Scientific Societies mentioned in the last Report have been regularly received. The principal Artist of the Botanic Gardens accompanied me during my tour in Sikkim last year, and he made, under my superintendence, a large collection of very interesting drawings, especially of *Acanthaceæ*, *Cyrtandraceæ*, and *Orchidiaceæ*. These amount to 115 drawings of distinct species. During my visit to the loftier parts of Sikkim near Khinchinjinga the Artist remained along with the plant collectors from the Botanic Gardens at Yoksom, the last inhabited place in Sikkim south of Khinchinjinga. It was near enough to the region where the truly Alpine Flora of Sikkim exists to admit of plants reaching the Artist in twenty-four hours. By sending down Bhotea Coolies with plants packed in moist moss I was enabled to have figures drawn of several interesting Alpine plants. Besides these, drawings of more than 100 species that have flowered in the Botanic Gardens have been made during the year. The Assistant Artist died suddenly of Cholera and as yet I have not been able to supply his place.

Forty pages of the catalogue of plants cultivated in the Garden have been printed

Government of India, Public Works Department.

From CAPTAIN D. THOMSON, Executive Engineer, C. D., to the Superintending Engineer, C. C.,—(dated Camp Kussara, 2nd May 1863.)

I HAVE the honor to report the result of experiment made with Ransome's Patent for Preserving Stone.

2. The solutions were applied as laid down in the directions to three of the Tomb Stones in the Malligaum Grave-Yard early in December 1861. The tombs were crumbling to pieces, and it was observed that the silicate of lime appeared to thoroughly fill the pores of the stones and to render them hard.

3. When worked on by a chisel the prepared surfaces were every where hard and did not yield, whereas the unprepared parts yielded readily.

4. The stones experimented on being of moderately close texture the solution was diluted with two parts of water to one of the solution.

5. The solution appears to answer the purpose contemplated by its use.

Memorandum by Major G. Chesney, *Inspector-General of Public Works Accounts, shewing how the Arrears in the above Table are calculated.*

The Public Works Accounts go through five stages—

I. *Submission by Executive Engineer to the Central Office.*

One month is allowed for this, *i. e.*, the accounts for March after being collected from the different disbursers of a Division, and condensed and examined by the Executive Engineer, should reach the Central Office in all April, any delay beyond that is considered to be arrear.

II. *and* III. *Framing a rough or Office copy of the Abstracts and sending a fair copy of it to Executive Engineers.*

Fifteen days are allowed for these two operations, so that the abstract for March should be despatched from the Controller's Office by 15th May.

It may be explained that the term "Abstract" is given to an elaborate paper compiled in the Accounts Office, which contains an account of every transaction of an Executive Engineer and the Subordinates under him for the month, which shews the cost of and rate of each work or sub-head of work compared with the estimate, the purchase, manufacture, and issues of stores, and quotes the Authorities on which the different items of expenditure have been incurred. It thus forms a complete document upon which to effect a proper audit, as well as a methodical record upon which to base the subsequent operations of the Book Department.

IV. *Auditing the Abstract.*

The audit is jointly made by the Superintending Engineer and the Controller, and the papers have often to be sent a considerable distance to the former for this purpose.

V. *Booking the Accounts.*

This is done by double entry, and consists in passing the accounts through a Journal and Ledger, and striking a balance sheet of the latter.

Fifteen days are allowed for operations IV. and V., *i. e.*, the accounts for March have to be audited and booked in all May.

To obtain the "average arrears" shewn in the Table, the number of units of arrears in each Office is divided by five (the number of stages through which the accounts pass) and by the number of divisions in the Province.

It will be noticed that the general average of arrears is about half a month. This, however, is mainly due to the unavoidable delays caused by the distances over which the accounts have to travel. Thus in British Burmah the outlying Stations are more than a fortnight's post from Rangoon, and the communication between Assam and the Bengal Office of Account is almost as tardy. If the arrears due to this cause could be deducted, there would already be little or no arrears by the above mode of calculation.

No. 3200, *Fort William, the 16th July* 1863.—Read a letter from the Officiating Civil Pay-Master, Fort William, No. 14, dated the 6th July 1863, enquiring, with reference to the new rules for leave of absence to Uncovenanted Servants, whether a Deputy Magistrate who has been absent on sick leave for short periods, amounting in the aggregate to six months and eight days, is to be denied further leave, or to be allowed leave without pay on the third occasion of his applying for Medical leave for three months on the ground that by the new rules sick leave for three years has to be taken in neither more or less than two periods.

Resolution.—The Hon'ble the President in Council observes that under the strict letter of the rules for leave of absence to Uncovenanted Officers recently promulgated, an Uncovenanted Officer may be allowed leave of absence, on Medical Certificate, for a third period, *but without any allowances.* But His Honor in Council having no doubt that the limitation of sick leave to two periods, *with allowances*, was intended by the Secretary of State to apply only to cases of leave of absence to England, or to places beyond Indian limits, is pleased accordingly to rule that leave of absence, on Medical Certificate, taken for short periods by Uncovenanted Officers within Indian limits shall not bar a further leave of absence

either in India or elsewhere, provided that the whole of the periods of absence shall not exceed three years during their entire service under Government. The allowances to be given during such Medical leaves shall be regulated by the existing rules for sick leave, that is to say half salary not exceeding £600 a year shall be given during the first fifteen months taken from time to time, and after the completion of fifteen months one-fourth of salary not exceeding £300 per annum for all other periods up to the limit of three years.

A. A. ROBERTS,

Bengal Civil Service Annuity Fund.

At a Special General Meeting of Subscribers to the Bengal Civil Service Annuity Fund held at the Town Hall on the 29th July 1863.

PRESENT:

A. Grote, Esquire; the Hon'ble A. A. Roberts; E. C. Bayley, Esquire; S. Wauchope, Esquire; V. H. Schalch, Esquire; the Hon'ble G. Campbell; C. P. Hobhouse, Esquire; C. F. Carnac, Esquire; E. F. Harrison, Esquire; J. A. Crawford, Esquire; the Hon'ble A. Eden; H. A. Cockerell, Esquire; A. M. Monteath, Esquire; J. Geoghegan, Esquire; A. C. Tupp, Esquire; and J. C. Graves, Esquire.

The Hon'ble A. A. Roberts in the Chair.

The Report of the Committee nominated by the Managers, in accordance with the Resolution of the last General Meeting to consider the measures proposed by the Secretary of State in connection with the Fund having been laid upon the Table, the following motions were made:—

(*a*).—Moved by Mr. Monteath, and seconded by Mr. Wauchope, that the recommendation made by the Committee on the point classed as No. 2 in the 11th page of their Report be adopted; the Secretary of State's scheme being accepted by the Meeting as an earnest of the desire of the Government to meet the wishes expressed in the Memorial of the 4th February 1862, but without abandoning the expectation of obtaining terms more commensurate with the privileges the loss of which was made the basis of the Memorial in question.

(*b*).—Moved as an amendment by Mr. Eden, and seconded by Mr. Hobhouse, that the recommendation made by the Committee on the point classed as No. 2 in the 11th page of their Report be adopted; the Secretary of State's scheme, in respect of the assignment and scale of Annuities, being accepted by the Meeting on the understanding that the interpretation put thereon by the Committee is correct; and the question of the inclusion of private affairs leave in the calculation of residence being left for separate discussion.

(*c*).—Moved as an amendment by Mr. Bayley, and seconded by Mr. Crawford, that the recommendation made by the Committee on the point classed as No. 2 in the 11th page of their Report be adopted; the Secretary of State's scheme being accepted by the Meeting as an earnest of the desire of the Government to meet the wishes expressed in the Memorial of the 4th February 1862, but without abandoning the expectation of obtaining terms more commensurate with the privileges the loss of which was made the basis of the Memorial in question, and on the understanding that the interpretation put thereon by the Committee is correct.

In bringing forward the above motions it was explained that Mr. Monteath's motion (*a*) was a simple adoption of the Committee's recommendation, contemplating an *unconditional* acceptance of the Secretary of State's scheme, but guarding the unconditional acceptance so proposed from being construed into a complete and final surrender of the claim of the Service to further compensation.

In respect of Mr. Eden's amendment (*b*) it was explained that the acceptance by the Service of the scheme was proposed to be conditional on the acceptance by the Secretary of State of the interpretation put thereon by the Committee; the express reservation of a contingent claim to further compensation being in that view deemed unnecessary and objectionable.

Mr. Bayley's amendment (*c*) was explained to have for its object the retention of the reserved claim contemplated in Mr. Monteath's motion, together with the condition contemplated in Mr. Eden's amendment; it being, in the opinion of the mover, inexpedient either to part with the claim to further compensation on account of a measure the full effect of which on the prospects of the Service was as yet uncertain, or to accept meantime a scheme without an explicit understanding as to the interpretation to be put on some of its provisions.

Mr. Bayley's amendment (*c*) having been put to the Meeting was lost, there not being nine concurrent voices of Members present to support it.

Mr. Eden's amendment (*b*) having been put to the Meeting was lost, thirteen votes (including four proxies) being recorded for it, and fourteen votes (including eight proxies) being recorded against it.

Mr. Monteath's motion (*a*) having been put to the Meeting was lost, there not being nine concurrent voices of Members present to support it.

It was then proposed by Mr. Bayley, seconded by Mr. Crawford, and carried, that the whole of the questions respecting the Annuity Fund arising out of the Secretary of State's Despatch of the 25th November 1862, and the Committee's Report thereon, be postponed for consideration at a Special General Meeting to be convened by the Managers for this day two months (Tuesday, the 29th September). In adopting this Resolution a hope was expressed by the Meeting that the consideration of so important a subject would not again be frustrated by the small attendance of Subscribers rendering uncertain the obtainment of the required number of nine concurrent voices of Members present in support of motions which might otherwise have been carried.

Chairman.

"Mr. Howard has not yet completed his investigations nor sent in his Report, but he will do so in a few days. Meanwhile I spent the day with him yesterday, and the following are the results up to last night:—

First.—*Bark of last year:* three per cent. of Alkaloids; percentage and porportion of Quinine Cinchonine, &c., not yet ascertained. No appearance of Crystals of Quinine under the microscope.

Second.—*Bark of present year.* The yield was 4·3 per cent. of Alkaloids, 2·4 per cent. being Quinine and Cinchonidine, ·9 per cent. Cinchonine.

Under the microscope the sections of the Bark showed a great quantity of Crystals of Quinine, like needles radiating from a centre, scattered over the surface of the cells. That these Crystals were Salts of Quinine Mr. Howard ascertained chemically."

FINANCIAL DEPARTMENT.

No. 3567.

Fort William, the 5th August 1863.

Read the undermentioned papers regarding deputation allowance to Acting Officers in the Police Department:—

Resolution No. 628G. passed in this Department on the 30th September 1862.

Resolution No. 20G., dated January 3rd 1863:

Letter from the Officiating Civil Pay-Master, Punjab, No. 33G., dated May 14th 1863.

The present Rules regarding deputation allowances to Officers of Police having been found to be unsuitable His Honor the President in Council resolves that Resolution Nos. 628G. and 20G., dated September 30th 1862, and January 3rd 1863, be rescinded.

His Honor in Council is also pleased to determine that, in accordance with the principle of the Order No. 3390, dated July 25th 1863, in the Financial Department, there shall be one uniform rate of acting allowances for Covenanted and Uncovenanted Officers of Police, and that no acting allowances shall be granted to Officers of Police officiating for other Officers in another grade of the same class as their own.

The following Rules are accordingly promulgated for general information and guidance:—

Rule I.—An Officer of Police officiating for another Officer in the same class will not receive deputation allowance.

Rule II.—An Officer of Police officiating for another Officer of Police in a higher class than his own will draw the full salary of his own office, and an allowance at the rate of twenty per cent. on the mean between the maximum and the minimum salary of the class in which he officiates, provided his total allowances do not exceed the minimum salary of such higher class.

Rule III.—An Officer of Police officiating at the same Station for an Officer of a higher class than his own will not be entitled to any deputation allowance during the first month he may thus officiate according to the Covenanted Civil Service Rules.

Rule IV.—Any Officer holding a substantive appointment in another Department of the Government Service and officiating for an Officer of Police will draw salary and acting allowances at the rates prescribed in Rule II.

Rule V.—Any person not holding a substantive appointment in the Public Service, and officiating for an Officer of Police will receive at the rate of fifty per cent. on the mean between the maximum and the minimum salary of the class to which he is appointed.

ORDER.—Ordered, that the foregoing Resolution be published in the *Government Gazette*, and that copies thereof be forwarded to the Home and Foreign Departments, Governments, and Civil Pay-Masters, Bengal, Madras, Bombay, the North-Western Provinces, and the Punjab.

No. 3579.

Notification.—Dr. Kenneth Bruce Stuart to be Surgeon to the Artificers of the Mint and Officers of the Customs Preventive Service.

The 7th August 1863.

The following Resolution, No. 3390 of 25th July 1863, will be substituted for that bearing the same number and date which was published in the *Calcutta Gazette* dated 1st August 1863, page 2190:—

No. 3390.

The 25th July 1863.

Read again the Financial Resolution No. 66., dated the 29th August 1862, sanctioning a classification of the appointments in the General Department of Account in substitution of the arrangement introduced by Financial Resolution No. 84, dated the 13th May 1862.

RESOLUTION.—The Hon'ble the President in Council observes that, under the Financial Resolution of the 13th May 1862, Covenanted Officers who entered the General Department of Account

before that date are allowed to retain their privileges, and therefore when such Covenanted Officers are appointed to act for other Covenanted Officers in the Department they are entitled to draw deputation allowances on the same terms as those allowed to Covenanted Officers in other branches of the Service.

But this Rule cannot be held to apply to Covenanted Officers entering the Financial Department after that date, nor does it seem proper to preserve a separate Rule for calculating the acting allowances of Uncovenanted Officers in the Department, as by the Resolution abovementioned all distinction between the Covenanted and Uncovenanted Service was abolished.

In considering what would be a suitable standard to introduce under these circumstances, His Honor in Council observes that, as the acting allowance Rules of the Covenanted Service are based upon a simple consistent principle, they may with advantage be taken as the basis of the Rules which shall be applicable to all the Officers of the Financial Department other than those specially noticed in the 1st paragraph.

His Honor in Council desires accordingly that the following Rules be observed in future:—

1*st*.—No Officer will receive any deputation allowance for officiating for another Officer in the same class as himself.

2*nd*.—An Officer appointed to officiate for another Officer in a higher class than his own will draw, irrespective of any saving from the salary of the appointment in which he officiates, the full salary of his own appointment, with an additional allowance at the rate of twenty per cent. on the mean between the minimum and maximum salary of the class in which he officiates, provided the total allowance to be so drawn shall not exceed the minimum salary of such higher class.

3*rd*.—When the Officer thus appointed to act is in the receipt of the maximum salary of his own class he will receive no additional allowance on his first appointment to act, inasmuch as the maximum salary of any class is always the same as the minimum of that immediately above it; but he will be eligible, whilst officiating, to the yearly increase of salary allowed to those permanently appointed to the higher class.

4*th*.—An Officer officiating at the same Station for an Officer of a higher class than his own will not be entitled to any deputation allowance during the first month he may thus officiate according to the Covenanted Civil Service Rules.

5*th*.—Any person holding a substantive appointment in another Department of the Government Service, and officiating for an Officer of the Financial Department, will draw salary and acting allowances at the rates prescribed in Rule 2.

6*th*.—Any person not holding a substantive appointment in the Public Service, and officiating in the Financial Department, will receive at the rate of fifty per cent. on the mean between the maximum and the minimum salary of the class to which he is appointed.

Order.—Ordered, that the above Resolution be published in the *Calcutta Gazette* for general information, and that a copy be forwarded to the Right Hon'ble the Secretary of State for information.

Military.

No. 233.

To His Excellency the Right Hon'ble the Governor General of India in Council.

My Lord,—*Para.* 1. The following arrangements have been adopted consequent on the late Army alterations:—

A.—That the General and other Officers of the twelve new Line Regiments are to be considered as belonging to the British Army, and are to take their places for promotion accordingly on the General Lists of that Army.

Their names will, in consequence, be withdrawn from the Indian General Gradation Lists, but will be retained on their former Cadres, and on the Regimental Gradation Lists, in the manner shewn in paragraph 58 of your General Order No. 332, 10th April 1861.

B.—That the Colonels originally appointed to the new Infantry Regiments are to continue to receive their pay and Colonel's allowance at the Indian rate.

C.—That the Colonels of the late Indian Brigades of Artillery are to receive Colonel's allowance at the Indian rate.

D.—That Officers of the Artillery transferred from the Indian Service should receive Furlough pay under Indian Regulations so long as the Brigades to which they are attached are serving in India.

E.—That Officers who have been appointed to the new Line Regiments from the Indian Forces having been stated to be "under the conditions of service of Line Officers" should receive the same pay, while on Furlough, as Officers of the old Line Regiments.

F.—All Officers of the Artillery and new Line Regiments will, without reference to the Furlough Regulations they may have elected, and by which their claim to pension will be determined, receive Indian allowances during (6) six months' absence on Sick Certificate as allowed to other Officers of the British Army.

G.—Officers of the Artillery and new Line Regiments should be allowed passage money under the Regulations applicable to British Officers, care being taken that passage money is not issued by both Government and the Funds. When passage money is due from the Funds special arrangements must be made for adjusting the account between the Government and the Funds.

H.—The statute regarding five years' absence from India will not apply to Artillery, Engineers, or Officers of the new Line Regiments.

2. You will notify these arrangements to the Governments of Madras and Bombay.

No. 214.

To His Excellency the Right Hon'ble the Governor General of India in Council.

My Lord,—*Para.* 1. In a letter* lately received from the Government of Madras the inquiry is made whether any limit is to be placed to the tenure of the office of Inspector-General of Hospitals.

* No. 43, dated 5th March.

2. The Government of Madras point out that, under paragraph 8 of the Royal Warrant of the 13th January 1860, Inspector-Generals and Deputy Inspector-Generals are placed on the Retired List on attaining the age of 65 years.

3. With reference to the General Order by the Governor General No. 964, 31st July 1857, they observe that, if an Officer is allowed now to hold the office of Inspector-General until retirement, the interests of other Medical Officers must be injuriously affected; while, on the other hand, it does not appear to them how an Inspector-General of Hospitals, with substantive rank under the Warrant, but of short service, can revert to other duties to qualify for the highest rates of pension, as provided by paragraph 9 of the General Order by the Governor General.

4. They are of opinion, however, that the interests of the Public Service will be best promoted by limiting the tenure of the appointment of Inspector-General to five years.

5. Under the instructions conveyed in the Despatch from the Court of Directors, No. 92 of 10th June 1857, the tenure of office by the Director-General and Inspector-General was limited to five years.

6. The several Inspector-Generals, under the operation of the Royal Warrant of 13th January 1860, hold the offices styled under the former organization "Director-General" and "Inspector-General," and I consider that the Rule limiting their tenure of office to five years should be made still applicable to these Officers.

7. An Officer holding the rank of Inspector-General, who may be removed from his appointment under the Rule, will be eligible, at the discretion of the Government, for employment for a further similar period, subject always to the operation of Clause 8 of the Royal Warrant of 13th January 1860.

8. The Deputy Inspector-Generals of Her Majesty's Indian Service represent the Superintending Surgeons of the former organization; and I do not consider it necessary, pending the settlement of the question of the amalgamation of the British and Indian Medical Services, to apply any limit beyond that laid down in Clause 8 of the Royal Warrant to the tenure of appointment by these Officers, Superintending Surgeons, under the former organization, not having been subjected to any rule of this nature.

9. With regard to the difficulty suggested by the Government of Madras as to the manner in which an Officer of the rank of Inspector-General, but of short service, can revert to other duties to qualify for the higher rates of pension, I believe such occasions will be rare.

10. The circumstance of such Officers having been preferred to their seniors in the Service for promotion would probably induce the Government to re-employ them on a vacancy occurring in a higher position; in the meantime, if not in a position to retire from the Service, they must remain unemployed.
